JOTTINGS FROM NEAR-BY PLACES

The death occurred Wednesday morning, at the family residence in Adelaide township, of Mrs. Jas. Henderson, in the 68th year of her age. Mr. Joseph Brown, who for the past four of five years has resided in Metcalfe township, near Katesville, died on Thursday, aged 86 years. For some twenty years Mr. Brown resided in Strathroy, working at his trade as a shoemaker. Rev. A. McKibben conducted the funeral services. The pallbearers were A. E. McNeice, Willard Humphries, Joseph H. Humphries, Cecil Brown, George Brown and Ira

A very pretty event took place in the Mount Carmel Methodist Church, near Mount Brydges, on Tuesday last, at 4 p.m., the occasion being the marriage of Miss Annie, only daughter of Robert Courtis, to James Baird, M. D., of Evanston, Ill. The bride was attended by Miss Elizabeth Baird, sister of groom, while Robert Baird, M. D., of Watford, assisted the groom. flower girls, Miss Addie Janes and Miss Nita Westland, as maids of honor, preceded the bride, carrying a basket of American Beauty roses, in which the ring was placed. The bride was daintily attired in white organdie over white silk, and carried a huge shower bouquet of roses and smilax. The bridesmaid was tastily gowned in pale blue silk batiste, and bouquet of yellow roses. The service successful in the church's history.

was read by Rev. J. E. Holmes. The Rev. Dr. McCraig, the grand chapwas read by Rev. J. E. Holmes. The wedding march was played by Miss Mary Brown, Mr. Will Ferguson and Mr. John Watson were ushers. A re-ception was afterwards held at Sunnyside, the residence of the bride's father, and in a large marquee on the beautiful lawn the dejeuner was served. Among the many magnificent gifts to the bride was a silver service. from the bride's mother and a check for \$1,000 from the bride's father. DEADLY FIREWORKS EXPLOSION.

Five Persons Known to Be Killed and Several Missing.

The Disaster Occurred in Patterson, N. J.-A Four-Story Tenement House Destroyed.

New York, June 22.-Many persons were killed and a number injured yesterday as the result of an explosion among a large quantity of fireworks in the store of Abraham M. Rittenburg, at Patterson, N. J. The cause of the explosion is not known. The property loss will not exceed \$35,000.

The explosion occurred shortly after the noon hour, and many of the occupants of the building were out for dinner. The building in which the explosion occurred is a frame tenement, four stories high, with three stores on the ground floor. The middle store Had the disaster occurred half an hour later the result would have been frightful, for adjoining the wrecked building was No. 3 school, in which were hundreds of children. Not only was the school damaged, but large quantities of wreckage were hurled into it. As it was, some of the school children playing near the school house were injured. So great was the

FORCE OF THE EXPLOSION. that a boy playing in the street half a block away was lifted from his feet and hurled against an iron fence, and one of his legs broken. There was a trolley car directly in front of the building when the explosion occurred, and the burst of flame blown out into the street scorched the sides of the car and singed the hair of those who were in it. Those who were on the upper floors of the building when the explosion took place were either stunned and then burned to death or found escape cut off and were dis-covered suffocated.

REPEATED EXPLOSIONS. After the first explosion there was a series of smaller ones, and then came the second big explosion, which occurred in the cellar. Every building in the neighborhood was stripped of glass. Families seated at their dinners were thrown from their chairs to the floor. Then there was a frightful scene in the streets. Parents lost control of their children and were soon rushing about looking for them. FEARFUL SIGHTS.

Meanwhile the flames were burst-ing from every part of the tenement building.

Those who approached the building from the rear saw a fearful sight. A woman appeared at one of the windows. She was a mass of flames. She leaped out and fell through the flame to the yard below. At great risk she was dragged farther into the yard, but it was too late-the flesh dropping from the bones, and she was She later proved to be Mrs. Williams. Daniel Dooley was in the yard when

two Rittenburg children in the rear room and rushed into the flames for them. He got one of them and carand tried to go back for the other, but the room was then one mass of fire. Dooley was badly scorched in rescuing the first child. From the front, Mrs. Jessup and her husband dropped from the window of their home to the sidewalk. seated at dinner, and together ran to the front window and leaped. Jessup said the explosion seemed to force the fire through the floor under their feet. Others of the tenants were meanwhile hanging from the windows ready to drop.

THE RESCUERS.

The firemen came within a few taken down through John McGlone climbed to the top story of the tenement and found their escape cut off. He climbed out of the hand, while he held his wife with the more than 600 horses. gowned in morning train. Altogether the gathercarried a fing was one of the most delightful and

lead to serious complications if allowed to continue. Get this remedy and check the disease before it be-comes chronic; don't allow it to drain your best energies and weaken your

J. H. Hector, the Black Knight, addensed an enthusiastic meeting of in. The men had hardly taken their temperance workers and probibition-positions on the sidewalk behind a pile ists in the Front Street Church last of boxes to ward off the heat and began to throw water into the upper floors, when, without warning, the whole upper part of the building sag-ged outward and fell.

FIREMEN BURIED BY DEBRIS. The captain and two of his men were buried under the debris, which was blazing. Two streams were instantly turned on the wreckage. Out of it in a moment crawled Capt. Allen and Fireman Delaney. Both were bruised and burned, but instead of seeking safety they attacked the debris with their hands to rescue Eddie Singerland, who was still beneath it. He was final-

ly dragged out badly hurt.

Mrs. S. Williams' husband was a cripple. His wife is supposed to have remained.longer than she could with safety in an effort to save him. He

was found burned to a crisp.

For a time it looked as if the building would not only be destroyed, but that the flames would burn down Main street and swing into Slater street and the occupants so threatened moved out. The firemen fought the flames back, and although the two buildings between the wrecked one and Slater street were somewhat damaged, they were saved. The building in which the explosion occurred was burned to the ground. After a couple of hours' work the firemen had the flames out and began the work of cooling the ruins to get at the bodies.

TAKING OUT THE BODIES. At first it was thought that but three persons were lost, Mr. and Mrs. Williams, and one of the Rittenberg children. But it soon became apparent that others had lost their lives. The entire street department force was ordered to work clearing away the rub-bish. Mrs. Himmer, mother-in-law of Rittenberg, is known to be dead. It is said she was standing at the rear of the store talking to a traveling salesman when the explosion took place. What became of the salesman is not was occupied by Rettenburg. Ten known. Many persons slightly injured families occupied flats in the building. had their wounds dressed at the hospitals and went to their homes.

THE DEAD. Corrected list of the dead: Mrs. Lucinda Adamson. Mrs. Charles Williams, burned while

trying to rescue her husband. Charles Williams, cripple, unable to get out of bed. Harold Rittenberg, 18 months old, scn of the keeper of the fireworks store. Henry Elasser, 6 weeks old.

MISSING. Those missing and almost certainly dead are: Mrs. Bert Bamber, Charles Bamber, 6 months old, child of above; Mrs. Andrew Elvin was in her house and has not been seen since; Mrs. Mary Elasser; Joseph Elvin, 2 weeks old, child of Mrs. Andrew Elvin; Mrs. Burns, not seen since the explosion, and known to have been in the house; Clarence Burns, 6 years old, son of above; Mrs. Ann Fentemann, not seen since the explosion and known to have been in the house; Mrs. Annie Lannigan, seen to enter her apartments a few minutes before the explosion. Two nephews of Mrs. Lannigan were with her when she entered her rooms. Their names are not yet ascertained.

FANCHON AND PRINCE, CIRCUS COMPANIONS

An Elephant and Dog in Love—The Biggest Menagerie in America—Ringling Bros'. Circus Will Arrive Early Sun-

day Morning.

Fanchon, one of the elephants Ringling Bros.' circus, which will exhibit in London on Monday, and Prince, a clown dog, are in love. They are constantly together. They lun races, they play with ropes and rubber balls, and at night the dog curls the explosion took place. He saw the up at the side of the elephant's big trunk, and thus they sleep.

Prince is a bull terrier, 3 years old Fanchon is 50, but such a harmonious union of youth and old age was never before known. The dog and the erephant met the first time during the parade in Chicago early last April. it was a case of love at first sight. The dog followed Fanchon back to the cir-

cus, and the elephant led the waif into his pen in the menagerie. When the animal superintendent attempted to eject the dog, Fanchon objected so vehemently that it was deemed wise to let the whelp remain. George Hartzell, one of the clowns, took a fancy to Prince and taught him a number of tricks-thus he has been made useful as well as ornamental.

There are 30 elephants with the minutes and twenty persons were There are 30 elephants with the taken down through the fire and Ringling circus this year, which is smoke by the firemen. At other times it's a knot sented by European artists new to country. The main tent is the largest pavilion ever constructed. Monday morning a down-town ticket office will be opened at Nordheimer's piano and music store, 188 Dundas street, where those who wish to avoid the rush on the show grounds may buy reserved seats and admissions

> OLDEST MICHIGAN ODDFELLOW DEAD.

> Monroe, Mich., June 21 .- John H. Rauch, for 73 years a resident of Ida, Monroe county, died yesterday, aged 91 years. He was the oldest living member of the Oddfellows in this state, having been actively connected with the order for 51 years, and with the local branch for 53 years.

NARROWLY ESCAPED CREMA-TION.

Rodney, June 21.—About 1:30 o'clock Colin McKay and his family, who re-side on Back street, awakened to find the house in flames. The family narrowly escaped cremation, and had no time to save anything. Mr. McKay was quite badly burned about the head and neck. There was only \$450 insurance on the house and contents.

THE CIRCUS MANAGER'S TROUBLES

Details Involved in Conducting a Big Show Enjoin Big Responsibilities.

How Animals Must Be Fed-The Water Supply-Methods of Advertising-Incessant Questions of Persistent Patrons.

ment of a traveling show or circus en-joins a responsibility on the management which is not overpaid by the proceeds of the performances.

The animals of the circus are always fed according to native habits. Sea lions are fed on fish. No matter where they may be the Forepaugh-Sells Company received a shipment of fish for seals and sea lions from Boston, and in order to prolong the lives of the animals, which are short at best, every fish is cleaned, scaled and partly boned before being given to the sea lions.

Mountain lions, bears, panthers and wildcats and all similar animals live on animal meat, several beeves being cut up each day and distributed among the menagerie inmates. It might be remarked that the choicest quarters of the beeves go to the circus dining tents for the people of the show. If 20,000 gallons of water required to quench the thirst of the score of elephants, 500 horses, 1,000 people and 200 menagerie animals, and there is no nearby hydrant or running stream, the circus manager at once orders out the water wagons and in less than an hour water is arriving at the desired point by the thousand gallons. The manager never

quickest and simplest way out of the difficulty is the best.

The methods of advertising a circus are by no means the least interesting of circus features. Big circus companies like the Ringling Brothers, the Forepaugh & Sells' annually paste or distribute as many as ten or twelve million pleces of advertising matter. To do this three trains of advance cars are employed. One of these travel three weeks to a day ahead of the show, the second one is two weeks ahead. Each crew has a different task to perform, and a vast amount

borrows trouble; he figures that the

of labor is involved. The first car crew which is composed of about 30 bill posters and a manager, bills the town and the country roads leading to the point where the show is to be given. Several lithographers and programme distributers decorate the windows of business places with rich and attractive lithographs and visit a great many houses and leave a six-page courier, containing elaborate half-tone drawings of prominent circus features.

A week later the city is visited by the second car, sometimes known as the "excursion" car. Men are sent on every outgoing train to bill the smaller towns on the railroads for 30 or 40 miles around. They have completed their task by dusk, and then rtturn to the central point in time to catch their car, which then departs for the next city on the route. One week before the date of the show the third car makes its appearance to freshen up paper display wherever it has been damaged by the weather elements, and to complete whatever work the other crews may have overlooked in their rush In every city several teams are used to cover the country routes and the city bill boards. Paste is manufactured on the car, which is provided with an engine and boiler. Five barrels are consumed daily by each car for paste.

In addition to the worry of recurring detail the circus man is called upon to answer incessant questions put to him by persistent patrons. Of course, he loses patience occasionally and answers in a manner to corroborate a popular fallacy. This person wonders how the circus is enabled tho exhibit a polar bear day after day through the heated summer season, trans-planting a from its home in the arctic regions to the 'torrid climate of the States. When told that it is only made possible by always keeping quantity of ice in the bear's cage the inquirer looks wise, and then replies: 'Why, I might have known that." Finally, the circus man earns the dollars he receives at the hands of an ever-curious public.

Conservatory Closing.

Conservatory Hall was inadequate to contain the audience which gathered last night on the occasion of the second of the series of closing recitals of the Conservatory of Music. The piano programme was furnished by pupils of Miss Jennie Steele, A.L.C.M., while Miss Louise McDonald, of Petrolia, and Miss Ethel McKillop, pupils of Miss Belle Brown, rendered three vocal selections in a most acceptable manner. The playing of Miss Steele's pupils showed that she has been able to impart to them the same artistic quality which marks her own performances. The programme was:

hands) Schubert Misses Edna Kent, Marjorie Gibbons, Hazel Gillean, Mary Love. Miss Leta Butler. Jensen 'Fourth Mazurka'' Godard Miss Jean Dearness. Song-"What the Chimney Sang"

FRUIT PROSPECTS

Indications of a Large Yield in the County of Huron.

The Ben Miller correspondent of the Huron Signal, of Goderich, supplies the

following information regarding fruit prospects in that portion of the county: "An inspection of the orchards in ty: "An inspection of the orchards in this vicinity reveals the fact that the apple crop will not be up to a full average, especially with the late winter varieties. The cold weather and pro-longed wet spell during the period of gloom sadly interfered with the dissemination of the pollen, and as a consequence the fruit has not set as well as might have been expected from the abundance of bloom in the trees two weeks ago. To enumerate varieties, the principal apple grown here, the Baldwin, will be a very light crop indeed, and the same may be said of The detail involved in the manage-nent of a traveling show or circus enston, Cranberry, Holland, Seeks, King, Talman sweets, etc., for some reason or other are showing better, possibly because they were fertilized before the late cold snap. The spies will be the most abundant of all, and they are the only variety that may be said to come up to the average of former years. Plums promise to be a good average crop, and if that pest, the curculio, does not sting them, there will be abundance of this delicious fruit this fall. Pears are year, light fruit this fall. Pears are very light, the Bartletts especially, and the most of the late varieties have no show of fruit at all. Cherries make a good showing, and as they are extensively grown here there will be a large quantity for export. Currants, Gooseber ries and all small fruits will be plentiful. and are promising a heavy

A SEA VOYAGE

Would Be More Enjoyable, If We Were All Good Sailors-Preventatives for Seasickness-What a Well-Knewn Traveler Says of Dodd's Dyspepsia

Sea-sickness affects nine out of ten of those who travel on the ocean. Those who contemplate such a voyage, or even a trip on the Lakes, cannot do better than supply themselves with a box of Dodd's Dyspepsia Tab-

Sea-sickness is caused by fermenta-tion of the stomach. The churning it undergoes by the motion of the ves turns its contents sour. Digestion is arrested, and vomiting follows.

Dodd's Dyspepsia Tablets settle the stomach. They keep it sweet, and guard the work of digestion from interruption. Thus fermentation is pre-vented, and the sickness which fol-

Dodd's Dyspepsia Tablets are being used by ocean travelers more and more every year. They are such pleasant things to take, and so conveniently carried, that there is absolutely no drawback in connection with their use.

Pepsin, diatese and other natural

digestants, mixed in sugar, are their constituent parts, all perfectly harmless, all powerfully digestive. Dodd's Dyspepsia Tablets are emphatically indorsed by business men and others who have to cross the Atlantic frequently.

"I am just leaving for my European trip," writes H. Hutchinson, of Chatham, Ont., "and would ask you to send me to Montreal, care of steamer California, three boxes of your Dodd's Dyspepsia Tablets, as I find them the best thing possible to prevent seasickness, and I think that any party traveling should carry them for this purpose.

'On my last trip I gave away several tablets to different passengers who felt the sickness coming on, and in every case it seemed to settle their stomachs and prevent sickness. I have also found them a splendid medicine for Indigestion, in fact that is the reason I tried them for sea-sickness. As I cross the Atlantic four times a year, I speak from experience, when I say that Dodd's Dyspepsia Tablets are a blessing to those subject to seasickness."

The steamer Chippewa ran aground in Toronto Bay early Friday morning. The passengers were taken off and it is believed the vessel is not seriously,
