Last evening as the people were returning from work their attention was attracted by a large crowd around the front of the building. Accidents and various things were narrated, but an investigation proved it to be only a number of teachers who are attending the summer school at the Normal school. They were taking a little study with Prof. Dearness in geology, the stones that did not move in all being utilized for the purpose.

LENIENCY WAS APPRECIATED
Police Magistrate's Course with First Offense Intoxics.

"A magistrate's leniency and its appreciation," was the subject of consideration with the police court philosopher this morning.

"Particularly the appreciation I am thinking of," he said, "The magistrate is as lenient as he can be and I haven't any fault to find with his judgments," said the philosopher, as he leaned eagerly forward in the little space for "The Public," and whispered to the reporter, "But don't you think that man deserves leniency?"

The man referred to was a Thordale man who had one debit item in the balance account. He was credited with a never-here-before item, so that balanced the books and away he went. But the way that he was what attracted the philosopher.

"The first time, your lordship, that I've been in jail, your lordship," giving an unexplainable name.

"Were you drunk?" asked the magistrate.

"Yes, your lordship."

"If you had not got drunk there

would have been no first time," but the magistrate discharged him.

"Thank you, your lordship."

The "your lordship" part almost amazed the philosopher. "It's easy to see he is new. But just the same I'd sooner see the magistrate lenient with a well-dressed man. Quality is what we depend upon to gain your confidence. Sensible prices to win your trade. We are headquarters for perfect Diamonds.

TO THE FALLS BY M. C. R.
Annual Excursion of the Retail Grocers on Wednesday.

Nearly Five Hundred Went From London—A Successful Outing.

The annual excursion of the retail grocers of London was held on Wednesday to Niagara Falls.

There are two matters that never require any consideration when the grocers start out to arrange for the outing every year. They are where to spend the day and what road to travel by. No place outside of Niagara Falls does the grocers. No road but the M. C. R. Both have been tried several times and found not wanting in any respect, for while the Falls and vicinity contain much of interest, the M. C. R. gives an unexcelled service, of which a palatial train and fast time are the features.

Yesterday the special train from London pulled into the Falls with close upon 500 excursionists. Of this number 400 went from London, 150 were picked up at St. Thomas, and 75 at Ashtemur, and en route to the Falls and Springfield and Waterford. The run down was made in excellent time, the journey being made in 2 hours and 35 minutes, including five stops. The return journey was not made in such good time, but that was no fault of the M. C. R., a delay of one hour being caused by Mr. Johnson, who went to the residence of a palatial train and fast time are the features.

The day at the Falls was spent in seeing the many sights. Rain fell during a portion of the afternoon, but this did not mar the pleasure of the excursionists to any extent.

FAST ATLANTIC

SERVICE TENDERS

Premier Laurier Explains Rejection of Allans' Offer.

MR. COFFEY ON LABOR MATTERS

Railway Policy To Be Announced in a Few Days—Mr. Monk and the Independence Act.

Ottawa, July 22.—At yesterday's sitting of Parliament, Sir Wilfrid Laurier made a statement in regard to the fast Atlantic service. He said that the Government did not find in 1898, on assuming office in any of the public departments, that a contract had been signed by the Government or by any minister on its behalf, and the Messrs. Allan for a 20 or 21-knot service between Canada and Great Britain, nor had any order-in-council been approved authorizing such a contract. A tender for £125,000 sterling for a mail service had been made by the Messrs. Allan, but they placed a construction on the terms and conditions of the tender inconsistent with the public advertisement.

Mr. Monk raised a question of privilege. He charged that Mr. Laurier, Mr. P. J. Beaudry, had violated the Independence of Parliament Act by selling to the Government at \$10,000 his lot in Valleyfield for a post-office site, the transaction being managed through R. B. Johnson. He moved that the matter be referred to the committee on privileges and elections.

Mr. Laurier replied briefly that the property had been sold by him to Mr. Johnson; that it was also a bona fide sale at fair market value; that the transaction was completed at the end of November or beginning of December, 1902, and that the money was paid to him by Mr. Johnson. Mr. Laurier added that when the sale took place he did not know that Mr. Johnson intended to sell the property to the Government.

Mr. Tarte said that when Minister of Public Works he visited Valleyfield and found that Mr. Laurier's site was the only one available as a postoffice site. It was impossible for the department to buy the land from the sitting member, as this would be a breach of privilege on the part of Mr. Laurier and Mr. Tarte. Accordingly Mr. Tarte instructed Mr. Dandurand, a well known real estate man in Montreal, to buy the land for the department. Mr. Laurier did not let Mr. Tarte know what it was wanted for. Mr. Johnson went there and represented that certain Montreal merchants intended to establish a large store. It was on this representation that Mr. Johnson acquired it. There was nothing at all wrong in the residence of Mr. Johnson, but he had been subjected to annoyance for nothing.

Sir Wilfrid Laurier suggested that Mr. Monk would not press the resolution. Mr. Monk could not see it in this light. As a matter of fact, he believed that Mr. Laurier was a colorable one, and he was convinced that the independence of Parliament Act had been violated, although he did not wish to charge anything but a breach of privilege on the part of Mr. Laurier. The personal honor of Mr. Laurier, as a person, he did not understand the matter.

Mr. Laurier said that Sir Wilfrid Laurier, "takes the responsibility of the grave charges he has made against a fellow-member, of course the matter will have to go to the committee."

The motion was then carried.

Mr. R. L. Borden, chairman of the railway policy.

Sir Wilfrid Laurier showed that there had been plenty of business for Parliament to do, and the session had not been unduly long. As to the railway policy, he said that the government had not been unduly long. As to the railway policy, he said that the government had not been unduly long. As to the railway policy, he said that the government had not been unduly long.

Finally the bill was read a third time on a division of 59 yeas to 13 nays.

A number of bills were advanced a stage.

TRICKS OF NEW YORK'S CHINATOWN

Sights to Be Seen by Visitors to New York

ARE ALL CAREFULLY REHEARSED

Opium-Smoking, Gambling, and a Fake Suicide for the Benefit of Spectators.

New York, July 23.—By far the most interesting part of New York city in the eyes of visitors from out of town is Chinatown, which is invaded by thousands of sightseers every year. Ninety per cent of them go at night and are bent on seeing all the dreadful things which Chinamen and their Caucasian associates are popularly supposed to do. As a result of this curiosity a custom of working out friends on the visitors has grown up in Chinatown and it has proved to be a highly profitable business all around.

Almost everything that visitors to Chinatown see nowadays is more or less fraudulent. Whether the visitors come by night or by day the greater part of the entertainment provided by their guides is fraudulent, although they never know it and go away satisfied that they have seen the real thing.

The Chinamen who live in Chinatown are not fools, neither are the white women who associate with them, nor the white men who pick up a living in more or less questionable ways in the quarter. None of the Chinamen, and certainly very few of the women, could be induced to make public display of their private lives for money, but they are not at all averse to arranging little exhibitions for the education of visitors, who pay well, thinking they are seeing the real thing.
