

Women of this date should begin to take into account their tendencies and weaknesses. They should set apart a few moments each day for searching and analytical mental contemplation and not spare themselves. They should resolve with all the splendid will-power and determination which belongs to this sign to overcome every obstacle by true spiritual progress.

When these people are awakened to the spiritual world, they are the salt of the earth, helpful, powerful, tender, and devoted to humanity. The reverse of this is also true. They usually have so much business of their own to carry to success that they are not curious concerning the affairs of their neighbors.

The governing sign of this date is Scorpio, and the birth-plan is Mars. The birth-stone is a topaz.

Special Cable to Advertiser (Copyright).

London, Nov. 10.—Andrew Bonar Law has prophesied a Conservative majority over all parties at election, and he may be right, but electioneering experts generally think it will not be safe to prophesy till the day after polling.

GRADING OF HOGS MAKES BIG STRIDE

Proves Worth in All Parts of Dominion—Many Sell by System.

Ottawa, Nov. 10.—The hog-grading regulations which were made effective on Monday, Oct. 30, are now operative throughout the Dominion.

Grading equipment, which was previously devised and installed, has given general satisfaction, and additional units are being added where the run of hogs warrant two gradings in steady operation.

Buying the average of the hog quotations indicates that the agreed premium for select bacon hogs is being paid.

On the Toronto stock yards the percentage of selection bacon hogs is running at 35 to 40 per cent, whereas the average of direct shipments to packing plants, including all outside operators, runs between 30 and 35 per cent. Hog receipts from Essex and Kent counties show less than 1 per cent of select bacon hogs.

Montréal, hogs from Eastern Ontario and a few points in Quebec, where breed improvement has been brought about, are running 25 to 30 per cent select, and the districts are running as low as 5 to 10 per cent, and in some cases lower.

Winnipeg receipts show barely 10 per cent select, but it may be, however, that the run graded to date came from districts where bacon hogs are not in evidence.

RANEY REPLIES TO CRITICS

Continued From Page 13.

dictated the price at which Backus was to supply power from the White Dog Rapids development. This goes to show that the agreement was a public ownership one better, remarked the speaker, as no public money is expended. He pointed out that the agreement with Backus gives the province such control that if Mr. Ferguson came into power tomorrow he could ruin Mr. Backus and destroy his business. Continuing, he contrasted the Backus agreement, put through by a government of amateurs, with the Sheppard-Clark transactions of a professional government. The province has received a million and a half dollars from this company alone, he declared, and the house-keeping is still going on.

Mr. Ferguson talks about a secret agreement between Mr. Drury and Mr. Backus, he continued. "I know this to be a falsehood. I don't see how Mr. Ferguson could have misrepresented, but I do see how he could have deceived."

Turning to the charges of extravagance leveled against the government, Mr. Raney pointed out that some criticism had been so unreasonably as to blame the government for even borrowing money to retire maturing debentures.

Hon. Manning Doherty referred to the matter as a bonnie fighter. "I used to have some doubt," he said, "as to whether Mr. Raney's strength would hold up under the attacks, but the harder they threw the latter, the more they got. A law once placed on the books must be administered with- out fear or favour. I don't see how Mr. Raney could have been ever questioned Mr. Raney's courage and fairness in administering the O. T. P."

Left by Old Government.

Mr. Doherty declared that much of the expenditure of the present government was by way of feeding the old government—babies that should have been left to grow to manhood. He recalled the history of the British cattle embargo negotiations, and where young people are to be brought out from the Old Country to serve as apprenticeship on the Ontario farms preparatory to becoming useful Canadian citizens.

KINGSTON WILD OVER BIG GAME

Excitement Runs High as the Crucial Contest With Varsity Approaches.

Special to The Advertiser.

Kingston, Nov. 9.—It has been arranged to start the big game between Varsity and Queen's promptly at 2:15 o'clock Saturday afternoon instead of 3, owing to the fact that it gets dark not much earlier.

It was stated tonight that both Harding and Muirhead, who have been on the casualty list, would start in the game. Tonight the probable lineup is as follows:

Plying wing, Campbell; halves, Batstone, Lendley, Harding, quarter, Evans; snap, Lewis; fullbacks, Reynolds and Delahay; middles, Little, McKelvey and Muirhead; outfields, Walker and Thomas; substitutes, Burns, Mundell, Veale, McNeill, Carson, Dolan, Johnston, Nicksie, McLeod, Hannan.

Kingston is simply football crazy. In the shops, offices, stores, and on the street, the one topic of conversation is the match. Nearly every person in the city is going to the game, and it looks as if Queen's stadium would be packed to capacity. It is estimated that ten thousand people will be in the grounds, while nearly houses and trees will also be brought into service by small boys who have been the price of admission.

The latest casualty in Queen's camp materialized this afternoon, when "Billy" Hughes, a trainer, put in an appearance after being up all night with an inflamed throat. On Wednesday there was a trace of something, but "Bills" merely took some slight precautions against further infection, and paid no more attention to his eye.

During the night, swelling and great pain developed, and hot compresses were applied.

Tonight, the injured member, although improved, was still in a serious condition, and there is considerable concern that the agreement with Backus gives the province such control that if Mr. Ferguson came into power tomorrow he could ruin Mr. Backus and destroy his business.

Continuing, he contrasted the Backus agreement, put through by a government of amateurs, with the Sheppard-Clark transactions of a professional government. The province has received a million and a half dollars from this company alone, he declared, and the house-keeping is still going on.
