STRATFORD SHOPS ARE WORKING FULL TIME

Business and Industrial Conditions Are Good-Unemployment Negligible.

POPULATION GROWS

Merchants Say 1925 Best Selling Year Since End of War.

> By J. A. HUME. Special to The Advertiser by Staff Reporter.

Stratford, Oct. 16 .- Business and industrial conditions in Stratford are good, "things are going," and there is a general feeling that even better is good, it always has been, we are turning over more goods and there times are just ahead. Facts and fig-

years ago took over the Canadian Allis-Chambers, Ltd., and the Canadian Edison Company. The electric company is employing 200 hands at the present time, and is engaged in the manufacture of electrical appli-

ances of all kinds.

Official figures, announced scarcely a week ago, by T. M. Ruston, city assessor, show that Stratford's popula-tion stands at 19,064 people, or an in-crease of 176 people over last year, representing the largest increase in the last four years. The city has no foreign and little floating population.

Building Trades Good. The building inspector, Wm. Dixon. reports that 76 houses have been built so far his year, as compared with a total of 114 houses last year. An addition to the Bell Telephone Company's plant at a cost of \$38,000, made to meet the demands of the company's ever-growing business, constitutes the largest single piece of building this year, the total of which stands at \$354,766 thus far. This year's building will not run as high as in 1924, because in that year the were boosted by the building ockey arena, J. R. McDonald

Im hing Company plant, coal sh ces, and a large addition to the Canadian National Railway shops There are few vacant houses among the 4,380 in the city, and these are vacant because the former tenants have moved into modern buildings. are away ahead of other cities "as far as building is concern-

basis of approximately

"We had about 20 unemployed men last year," stated A. B. Manson, city engineer, who keeps the unemployed established two years ago as the only established two years.

ager of the Bank of Montreal, in reply to a query, "but at the same time the feel that we are on the eve of people are buying more bonds. Incidentally there are five banks and one private banking office in the city.

"Stratford came through the war and the after-war period," declared quite the largest knitting factory in and the after-war period," declared quite the largest knitting factory in the city, employing 200 hands, 80

4 "Margarets" Greet Premier

> Canadian Press Destatch.
> Strathroy, Oct. 16.—Premier King's arrival in Strathroy this morning was marked by an odd coincidence. Among the school children waiting on the station letters were four little girls who platform were four little girls who came forward to greet the prime minister. He inquired their names and to his surprise found that in each case it was "Mar-garet," although none of the four was related.

times are just ahead. Facts and fig-is more activity in trade. There is no reason why that situation should

porter by a careful inquiry throughout the whole city, prove the truth of
these statements.

All the factories are working, some
of them overtime, and most of them
with full staffs and on full time, the

with full staffs and on full time, the volume of retail business is reported to be greater than during the war years, unemployment is negligible, the population is steadily increasing, house-building is active, savings deposits in the banks show an increase over last year, and to sum up, as H. Denroche, city tax collector, put it tersely: "Stratford has nothing to hide, nothing of which to be ashamed; we are not making any great noise, but, everything is moving along nicely."

Stratford has not a single factory that is not operating, though there will be one in January, when, to effect centralization in its plants, the Canadian General Electric Company plant, which a few years ago took over the Canadian Allis-Chambers, Ltd., and the Canadian Company and bedroom functive, company, manufacturers of lime that staff of 275 to 300 hands and working 80 per cent to capac west. When the west has money they buy furniture and thus business get even better in the imme-

The Kroehler Manufacturing Com-The Kroehler Manufacturing Company, Limited, the only Canadian branch of the firm of the same name, with headquarters in Naperville, Ill., is working full time with 200 hands, of whom 35 are girls. The Kroehler company, manufacturing chester-fields and davenport beds, has an export trade to England. "We moved to Stratford from Toronto nine years ago," explained J. A. Wyatt, assistant manager, in the absence of Frank Trebell, manager, "and we have continued to grow steadily during that period. At present we are going well with orders now on hand and the outlook promises a continuance of that business."

that business." Outlook Is Favorable. The Stratford Manufacturing Com-any, employing 50 hands, is workpany, employing 50 hands, is working full time and overtime in several of its departments. The company, which manufactures summer pany, which manufactures summer furniture, ladders and novelties, in-cluding card tables, was established in 1907, and its present staff of em-ployees is the largest in its history.

For six years the company has done a good business in household and extension ladders to South Africa and for three years has a symptod, and extension ladders to South Africa and for three years has exported card tables to England. Beech from Ontario is the chief raw material for the furniture, and British Columbia fir, pine and rock elm for the ladders. "Business is good, stated A. J. Harris, assistant manager in the absence of Assistant manager, in dassistant manager, in assistant manager, in assistant manager, in the charles A. Moore, manager, and Charles A. Moore, manager, and Charles A. Moore, manager, in the telegraph of the charles A. Moore, manager, in the there is a fine outlook. Though we have never been slack since the war, the future looks brighter than for the future looks brighter than for the future looks brighter than for

engineer, who keeps the unemployed under his wing, "and it doesn't look to me as if we'll have that many this year. Unemployment in Stratford is negligible; we haven't had any since the war; in fact, you can't call it unemployment; we have never yet had to give a free meal to any ablebodied man."

established two years ago as the only Canadian firm manufacturing steam automobiles, employs 125 hands, which number is expected to be doubled in the spring. The company which manufactures 70 per cent of its product within its Stratford plant, is endeavoring to secure its raw materials from Canadian sources, and is doing so largely from Ontario materials from Canadian sources, and is doing so largely from Ontario and Quebec. "Business is improving. "There has been a small increase in the savings deposits over last year," replied R. L. Whitman, manprosperous times in the

Euler and Gladstone

Two Liberal Candidates in Rich Industrial Districts.

North Waterloo and South Wellington Have Outstanding Liberal Candidates—Rich Industrial and Agricultural Districts in Which Liberalism Has Always Made Strong Appeal.

Unionist to Torvism. Mr. Guthrle has represented the seat since 1914. North Waterloo has had much Conservative representation, Premier King breaking the siege in 1908. He was defeated in 1911, but the seat went to William D. Euler in 1917, and he won again in 1921. Mr. Euler is again the Independent Liberal candidate. In South Wellington Mr. Guth-rie won only because there was a three-cornered contest in the last lection, being just 131 votes ahead

f the Progressive. W. D. Euler is reckoned as one of the best debaters in the house of commons, and has become one of the first benchers. One of his outstanding successes has been the chairmanship of the railway committee. From the great mass of evidence there Mr. Euler has developed, what he regards

North Waterloo and South Welington are similar ridings, in that ach has within its boundaries a busy ity, hustling towns and a rich agrigutural section. Both have great nanufacturing interests, and both ave high business centers. Guelph and man who is now premier of Canada. don's coming to London for a whole week will afford an opportunity for

chance to elect another premier of canada," the reference being to the fact that North Waterloo had almaye big business centers, Guelph and Kitchener.

South Wellington has always been Liberal until Hon. Hugh Guthrie changed his political colors and went from Liberalism to Unionist and from Liberalism to Torvism. Mr. Guthrie Liberal, is receiving Progressive support. Mr. Gladstone is a manufacturer, being general manager of the Canada Ingot Iron Company, which has extensive plants in the city of Guelph. He is son of the farm, having been born in Kent county in 1879. He was educated at the rural schools, the Ridgetown high school and the county model school, He church in Canada, has been an emitaught school for three years in that nently successful one, and in addipart of the county and then went tion, Dr. MacGregor has found time

knows the Farmer's Needs.

Knows the Farmer's Needs.
For eight years Mr. Gladstone was representative of the Massey-Harris and became familiar with the probleme of the western provinces, will stand him in good stead in the house of commons. Being so close to the farmers he knows that the very high protective policy of Mr. Meighen would work an injury to them that would reflect itself quickly in the industry of the country.

The least Mr. Gladstone was to accomplish considerable work on behalf of the church throughout the to accomplish considerable work on behalf of the church throughout the whole of Western Ontario. He played a big part in the church union campaign, a big part in the proceedings of the first general council of the United Church of Canada at Toronto, and he is continuing to play a big part in the organization of the United Church of Canada at Toronto, and he is continuing to play a big part in the proceedings of the first general council of the United Church of Canada at Toronto, and he is continuing to play a big part in the proceedings of the first general council of the United Church of Canada at Toronto, and he is continuing to play a big part in the proceedings of the first general council of the United Church of Canada at Toronto, and he is continuing to play a big part in the proceedings of the first general council of the United Church of Canada at Toronto, and he is continuing to play a big part in the church union campaign, a big part in the proceedings of the first general council of the United Church of Canada at Toronto, and he is continuing to play a big part in the church union campaign, a big part in the church union

k Buller has developed, what he regards as a solution of the railway problem which, although not yet taken up by any party, has given all Canadians food for thought.

Born in Waterloo County.

Mr. Euler was born in Waterloo county, and educated at the schools of Kitchener and the Toronto Normal school. He was a school teacher for some years and conducted a business college. He is now connected with several business institutions, and is main proprietor of the Kitchener in 1913 and 1914, and president of the board of trade in 1917. He is married and has three children. His political career is being watched

Mould work an injury to them that would reflect itself quickly in the industry of the country.

In 1999 Mr. Gladstone came back to Ontario, settling in Guelph, and established in a small way the industry which has now reached its present proportions. His business today brings him into contact with farmers throughout the whole dominion as Marian Keith, author of The End of the Rainbow, Duncan Polite, A Gentleman Adventurer, and other similar books, has just recently returned from an extended trip to England and the Holy Land.

LONDON TO HEAR Nucleus For Museum

REV. C. W. GORDON Ralph Connor of Literary Fame Will Deliver Sermons at St. Andrew's. SERVICES FOR WEEK Rev. Charles W. Gordon, D.D., St Stephen's United church, Winnipeg, better known as Ralph Connor, will be the special preacher at the 81st anniversary services in St. Andrew's United church on Nov. 15 next. Co-incident with this announce ment by Rev. D. C. MacGregor, D.D., pastor of St. Andrew's church, is the statement that Dr. Gordon will conduct a series of inspirational services throughout the week following. In securing Dr. Gordon the session of the congregation is merely following out its policy begun in having Rev. Campbell Morgan, D.D., cele-brated divine from London, England, preside over a week of special services in the church here a year ago.

Dr. Gordon's addresses will contribute to the deepening of the spiritual life, not only of St. Answirther the spiritual life. drew's church, but of all the United churches of the city, which will be in accordance with the spiritual in accordance with the spiritual phase of the maintenance and exten-sion fund campaign being undertaken by the United Church of Canada during the ensuing months.

Dr. Gordon has visited London on two different occasions during the past eighteen months, both times as a speaker on behalf of church union, the first at Ryerson public school and the second in what was then King street Presbyterian church. Dr. Gor-

ANTIQUES LEFT TO CITY.

Dr. MacGregor's pastorate at St. Andrew's church, since coming to London eleven years ago from Toronto, where he held the office of assistant secretary of the social service department of the Presbyterian This valuable carved antique table and interesting examples of old hina were left by Miss Harriet Priddis of London to the city to form, along with other similar bequests left at the same time, the nucleus of a museum for London and Western Ontario. During her lifetime, Miss Priddis made numerous valuable donations of a similar nature to the city for the same purpose. These early gifts are at present stored in the basement of the public library, awaiting the time when they will be brought out of their seclusion to be housed in suitable quarters by the people of London

Dr. Solon W. Woolverton Is Willing to Devote Time To Founding of Museum

London's Foremost Collector of Curios Ready to Turn Over Big Collection.

WOULD USE LIBRARY Dr. Solon Woolverton, London's

oldest practicing dentist and a pioneer of Western Ontario who has gathered together during a long life what is probably the greatest collection of natural and historical curios in Western Ontario, and possibly one of the finest private collections in the province, is willing to give up his practice and for a nominal fee devote his remaining years of activity to the formation and Disciples, Elizabeth street, last night, organization of a museum devoted to the natural history of Western resign as pastor of the church, to Ontario, he told The Advertiser this morning.

Mr. Versey takes this action with regret, not alone because he has become attached to the city and his priceless fossils among the let Dr. priceless fossils among the lot, Dr. Woolverton is willing to devote to congregation, but because the task of paying for the new church has such a project for such remunera yet been accomplished, and he tion only as will enable him to carry has pledges to keep.

Mr. Versey has been quite active during his pastorate in connection with the erection of the new church, and much credit for a project of the new church.

the congregation to build the church Well Fitted for Post. There could be no one more suited for this office than Dr. Woolverton, officials of the Historical society leadership of the minister, who is think. one of the prominent clergymen of his denomination in Ontario.

He has spent all of his leisure time in the study of natural history in the western part of the province, and is acquainted with other fine collections which he feels he would be able to secure at reasonable figures. His collection alone occupies more than forty cases, all the contained objects being classified and their histories noted. This is noteworthy in a private collection of this nature. Besides these classified groups the doctor has a number of prints and doctor has a number of prints and paintings descriptive of the province City Engineer's Department Is in pioneer days, along with some

valuable examples of the domestic art of the early settlers. FOR JOY OF **GOOD HEALTH**

Manitoba Woman Thanks Lydia E. Pinkham's Vegetable Compound

Crandall, Manitoba .- "When I was a young girl at home and working I had terrible pains, almost more than I could bear, and I was not regular. These troubles kept me so tired all the time that I had no strength and no ambition to join in with my friends and have a good time. I was just tired and miserable always and life just seemed as if it wasn't worth living. I saw so much in the papers about Lydia E. Pinkham's Vegetable Compound, and then I had a friend who had taken it and told me about it, so I got some. Every month after taking it I got stronger and I soon did not suffer every month. It stopped the pains and helped me in other ways. Then when my babies were coming I was tired and worn out the first three months and ached badly. I took the Vegetable Compound right along and must say it made a new woman of me and able to do mywork, and it helped me through confinement. You see I am a farmer's wife with a big house to look after, and three babies now. I have told ever so many women about your medicine. Just last week I got a letter from my old chum in the East. Her baby was born fifteen days before mine, and she told me she was not feeling very well, her back aches so much, and that she is going to take the same medicine I took. You can use my let-ter if you wish."—Mrs. Jos. H. Kidd, Box 56, Crandall, Manitobs.
