The sofe subject at the "kickers" meeting in connection with the D. R. A meet this year is bad ammunition, and last night many of the shooters registered vigorous objections. Col. Gibson was in the chair, and the attendance was large. Col. Hood (Montreal) stated that old shells had been filled at the Quebec factory and issued to the millitia. Maj. Blaiklock said the had spoken to the inspector of the Quebec decrified factory, who told him that old shells were re-filled. To this Col. Hood replied that his informant was prepared to bring subordinates in the factory who could prove that old shells had been re-filled. Col. Tition explained that the executive was greatly disappointed at the trouble caused by the ammunition, and with the intention of obviating further trouble the executive was greatly disappointed at the trouble caused by the ammunition, and with the intention of obviating further trouble the executive ordered 50,000 rounds from Toronto. The question of the relative value of rifleite and cordite came up, and Sgt. Hayhurst gave his support to rifleite, while Lt. Mitchell, another good shot objected to the use of rifleite. Col. EXPLOSION OF AMMONIA.

Windsor, August 29.-A fire alarn was turned in from the Walkerville brewery last evening, due to the explosion of the ammonia engine in the brewery, the report of which was heard all over town. Nick Frank, a brewer, was overcome by the fumes. He was rescusitated after considerable effort by Dr. Hoare. Engineer John Thorpe crawled on his hands and knees to the open door, and through suffering

HAMILTON.

A \$200 Robbery-St. Peter's Anglican Church

Hamilton, Ont., Aug. 28.-The house occupied by Mrs. Fred. Broughton, 199 McNab street south, was entered during the absence of the family last week and jewelry to the value of \$200, including a gold locket, with torquoise settings, gold bracelet, gold watch and gold brooch, were stolen. A notice, with the name of Bishop Du Moulin attached, was posted on the door of St. Peter's Church yesterday, announcing that the church had been closed until further notice. Bishop Du Moulin declined to give any information concerning the matter, but it is said the closing of the church is due to the partiality shown by the congregation to the suspended rector, Rev. Thos. Geoghegan, who has been spoken of as the coming leader of the

A Woman's Congress From the Nineteenth Century.

There is a story that Roger Bacon

once invented a Talking Head, which after a time chattered so incessantly and senselessly that in a fit of anger he broke it up. I do not suggest any apolication of this fable to the Talking congress of Ladies which took place in July last, but I think it may have involuntarily entered the heads of some listeners, with the wish perhaps that the extreme remedy taken by Col. Baden-Powell's forces there are wholly inadequate to protect such an extended frontier, and the Boers appear to be quietly concentrating in the bear pear to be quietly concentrating in the bear spy has been arrested in Ramatabama camp, on the British Bechuanaland.

AN ALARMING TURN.

The Pretoria correspondent of the Daily Chronicle, telegraphing Tuesday, says:—Events have taken an alarming turn. FRE to Every Boy and Talking Head was secretly pleased with its own chatter I know not, but it is surely not unfair to assume that the Women's Congress was pleased and gratified at its own performance; and, far from carrying out the historical parallel, is already arranging to hold another congress at Berlin next year! Now it is not to be expected that a year will effect any radical change in methods and views, and it therefore seems justifiable, in the midst of the eulogy and triumph which are sounding on every side, for the critic to raise an inquiry as to the value of a conference consisting of an overwhelming prependerance of women, which modestly undertakes within the space of ton Associate Random protected the waist set to express, money order or postal note, and it therefore seems justifiable, in the midst of the eulogy and triumph which are sounding on every side, for the critic to raise an inquiry as to the value of a conference consisting of an overwhelming prepared and collect Spers Return the money to us by express, money order or postal note, and it therefore seems justifiable, in the midst of the eulogy and triumph which are soundin Roger Bacon-but, as Mr. Kipling missioner, and is adopting the view of men, which modestly undertakes with-Cecil Rhodes that President Kruger in the space of ten days to discuss the principal problems affecting the hu-

The radical defect of such a conference, which included a heterogeneous mass of opinions, will be discerned at a glance when it is understood that theories of a most startling nature, practically overthrowing present social conditions, were propounded from a purely feminine standpoint, and subjected in many instances to no sort of criticism or correction, each woman speaking her own words-sense in some instances; crotchets, crude ideas, and philosophical nousense in others -and giving her own suffrage to what seemed best in her own eyes, without any reference to what had gone be fore or was to come five minutes later

MEDICAL SCIENCE ADVANCES.

Positive Cure for Asthma Discovered.

It has long been recognized by medica scientists throughout the world that nature has supplied all creation with some remedy in the vegetable or mineral kingdom wherewith all forms of allments can be cured, but it was not until the discovery by Stanley of the wonderful Koia plant along the Congo River in Africa that asthma was permanently curable. In fact, it was not until the investigations made by Dr. Clarke some years later that this disease was found curable; he found that by combining the extract of Kola Nut with other vegetable extracts that the compound obtained would permanently cure asthma. Clarke's Kola Compound was then tried on over 100 cases in different hospitals, with the marvellous result that over 95 per cent. were permanently cured in less than 60 days' treatment. Clarke's Kola Compound is now recognized to be the only permanent cure for this dreaded disease. Sold by all druggists. Free sample bottle sent to any person. Mention this paper.
