LOCAL MARKETS

Strawberries have made their appearance on the market. Those now for sale come from California and Southern Oregon and, needless to say, are quoted at an exceptionally high price. The local grove berries have not yet reached. The farmers are hoping that a few showers of rain will fall in the near future in order to assist them in gaining maturity. Apart from this there is nothing new in connection with the market. The prices of staples remains the same as heretofore, there being no fluctuations of note.

Appended are the complete quotations.

SEVERAL MEN WOUNDED IN SAN FRANCISCO FIGHT

Fierce Combat Caused by Attempt to Run Car With Strike Breakers

SOME OF THE WOUNDED WILL DIE

Company and Strikers Apparently Determined to Battle to a Finish

San Francisco, May 7.—Strike breakers in the uniforms of car inspectors, strikers and their sympathizers, fought this afternoon on Turk street for over an hour. Eight men were shot, among them a policeman and Detective Bell. Several of them will die.

The first attempt of the company to run cars since the strike commenced was made this morning, when a car was started from the yards with a guard of strike breakers on board. A crowd, largely composed of roughs, followed it, evidently bent on mischief. They were identical showers of missiles. Inspector Hale was struck by a flying brick, which laid his chin open, and several others were struck. The strike breakers each carried a club. At Webster street a teamster drove a heavy wagon backed across the tracks and refused to move. The car was immediately surrounded by union men and sympathizers. A struggle ensued, and the teamster was thrown. It then became apparent that the car could not be run, and the inspector in charge returned to the barn.

The Earlier Report
San Francisco, May 7.—The United railroads of this city are preparing to start cars out of the yards in charge of strike breakers. A large number of whom are already here. A supply car was run over the lines today, and finally reached its destination after it had been derailed.

While it is hoped that peaceful conditions will prevail, the authorities are prepared for trouble. The mayor and chief of police have announced that the police will be permitted to use force on cars for purpose of protection, their duties being confined to the preservation of peace on the streets. The governor has it is said, a sufficient force of militia to fall back upon if necessary, failing that General Alford is in command of the department of the Pacific, is now here ready for any emergency.

The Civic league continues its efforts to promote a peaceful settlement of the differences of the company and its men, but it admits that the strike is being sustained by very signal success. The car strike, by its intimate connection with the public has for a time completely eclipsed other labor difficulties, which are now hampering business interests of the city.

Stress of the four days of the car workers' car men, laundry and phone operators—deprive 15,000 wage earners of work, and fully as many who are indirectly affected. A meeting to-night of the council of the executive board will be held, with the presence of 105 unions will be present. Their purpose is to see if some way cannot be found to settle the present strike.

SOME CHOICE GORGE PROPERTY IS SOLD

Thirty-four Acres Fronting on Portage Inlet Bought by Outside Investors

An important real estate deal was closed yesterday when thirty-four acres, known as the Mayo property, fronting on the Gorge and Portage Inlet was sold by Bond & Clarke to Messrs. Bond and Clarke. The consideration being \$25,000. It is the intention of the new owners to at once subdivide the property into two-and-a-half and five acre lots suitable for small ranches something for which it is excellently situated, being served by a good road to the city and the land being of good quality.

Bond & Clarke also report the sale of 70 acres and lot on Hithet street to newcomers to the city, the price paid being \$2,500. The new owners will take possession at once.

LOCATING IN VICTORIA

Former Okanagan Firm to Go into Business Here

The Armstrong Advertiser, in its issue of Friday last, says: "Messrs. Whiting and Rogers have sold out and intend going to Victoria. Whilst these gentlemen have been here they have earned the goodwill of the city and have helped to a great extent in making Armstrong what it is; they have run and managed their hotel in a highly creditable manner and have earned for themselves the name of being splendid hotel keepers. The commercial travelers, especially, that whom none are better judges, nor more critical have lauded and praised their services in a manner in which the hotel was conducted. 'We understand it is their intention of going into business in Victoria and we may be certain they will succeed. That they will be missed goes without saying, and their friends without number. What those who frequently ran up against Frank Whiting's criticism will do without him is a puzzle, and as to Will Rogers the authority on everything from Halifax to Victoria, politicians, and children's entertainers, we very much doubt of one being found to take his place. 'Mr. Whiting and his daughter leave for Victoria in a day or two on a visit to Miss Edith Whiting who is at college. Mrs. Whiting remains here until the 1st of July and Mr. Rogers leaving for the coast shortly."
