The inhabitants of the city by the lake are also pleasure-seeking to a degree, as evinced by the theatres that throw open their doors on nearly all the maid thoroughfares. The modern cyclograma is very popular, and anyone interested in these battle scenes will enjoy the realistic views of the Battles of Gettysburg and Shiloh. Mr. Wehner, a German artist who has an interest in the "Battle of Scalan" panorama here, has just produced a marvellous picture in Chieago, viz., "The City of Jerusalem and the Egyrnouding Country at the Time of the Crucitixion"—indeed, the view represents the mysterious eclipse which took place. The whole city is vividly shown, with the Herodian Palace, where Christ was tried, the castle of Antonia, the Jewish Temple, etc., and the huge walls, 45 feet high, enclosing them. Behind is the Mount of Olives and in the foreground Golycotha with its three crosses. The figures of the mourners, the Roman soldiers, the crawds of eightaeers, enjoying a gala day, the caravans of camels and asses, the women at the wells and similar features of Eastern life, appear with a vividness seemingly real. It is a great work of art, four years having been required to complete it.

From The Presbyterian Review.

The scene that occurred at the late meeting the Toronto Separate School Board when a motion came up to pay the bill for some slight motion came up to pay the bill for some signs expense incurred by the board in connection with their participation in the Jubilee ceremonies of last June, was disgraceful not merely to the city but to the whole country. Notwithstanding a reverend priest was in the chair, his authority was disregarded, and the board broke up amid the wildest confusion and mutual invitations to bloodshed. There are at least two lessons to be learned from this Donnybrook scene; first, that in the opinion of fire-brands like Mr. Mulligan, all Loyal citizens are "Orangemen," and therefore "traitors to the cause" to be dealt with accordingly, and secondly, and of much more importance—that it is high time to give, in answer to their request, the Roman Catholic laity the ballet in their election of trustees to their School Boards. The boards set up by the priests, if Toronto is a sample, are a disgrace to a Christian country. It is encouraging to know that many of Mr. Mulligan's occelligionists are tired of Mr. Mulligan's occelligionists are tired of Mr. Mulligan's coreligionists are tired of Mr. May 670 core for the Chromosome of the Mr. May 670 core for the Chromosome of the Mr. May 670 core

Messrs. Brennan, grocers of this city, have for some time past been trying an experiment; they have placed samples of Canadian granulated sugar and Scotch granulated sugar before their customers and have asked the latter to choose which they would have—the price being the same. Up to date they have not made a single exception their customers, after a single exception of their single two pronounced in favor of Canadian sugar. The prices was the chief sensation on Change to favor their money. There is also another thing this season. The idea got abroad in a business like way that they were surely going to \$10.
