isting injustice done to the millers by the wheat and flour duties. Mr. Hay (Listowel) wheat and flour duties. Mr. Hay (Listowel) is president and Mr. Plewes (Brantford) is secretary of the association, which could scarcely have sent a more efficient deputation for the purpose. Mr. Plewes first addressed the Ministers, urging the necessity, in the interests of the milling industry of Ontario, for a change in the duty on flour by making the duty \$1 a barrel instead of 50 cents, as at present. He claimed that the Canadian the duty \$1 a barrel instead of 50 cents a present. He claimed that the Canadian farmer does not receive protection by the present duty on wheat of 15 cents a bushel, while flour remained at 50 cents a barrel. while flour remained at 50 cents a barrel Reckoning that 4% bushels of wheat are re-quired to make a barrel of flour, in order nat the two might at least be equal the duty on a barrel of flour should be 72 cents, I was obvious, he contended, that no mills would import wheat while the flour could be brought in cheaper, and he urged that unless relief were afforded, the milling industry of Cntario would be utterly destroyed. Mr. Hay also made a strong speech in support of their contentions. Sir John thanked the delegation for the important informati they had given and said that their representations

Mowat's well known expression, but we hope to see Sir John improve upon that ere he gets through with this millers' business. We feel confident that the two "dusty millers" aforeconfident that the two "dusty millers" aforesaid did not leave him until they had given said did not leave him until they had garbinself and his colleagues points on the wheat and flour question that will tell in a wise and just settlement of the very important issue now pending. If there are members of the now pending. If there are men stry who are timorous about it, and who fear to do the farmers and millers of thi great country the justice which they demand, we trust that Mr. Hay and Mr. Plewes were not mealy-mouthed in giving them

s would receive the best consideration

ame craft in Canada are in the question as to cheap flour. And yet we never hear of a Canadian flour. The truth as to this matter we take to be that the Yankee fishe have their heads level on this subject. They have sense enough to know that the American Protectionist system is the national rolling of the country, established for the of the whole people. If it be denied to any important of the commonwealth, then tem is endangered. This reads like a very elementary lesson in political economy; and setts' fishermen have a practica ding of it. And let us add that there are some amongst ourselves neares home who ought to have a better understand-ing of this truth than they seem to have

have been "made up" largely through Pro-tection—men to whom the system has brough wealth. The country has adopted what we believe to be a wise policy—our only objection is that it lacks something yet of being what it was certainly intended to be—a real National Policy. A good many of these manufacturers of ours have done at least "from fair to middling" (we hope they may yet do better even than that), but we do no ember that any of them have so far shown themselves very anxious to have that injus-tice redressed from which the millers, their brother manufacturers, have so long suffered

Gentlemen, we do not presume to lecture you; but we should be lacking in our duty in we did not tell you that it is a dangerous game of standing by unconcerned while the millers are suffering the greatest injustice that the Canadian tariff has ever done to any ion of the Canadian people. You may think it all right as long as your own interests are not touched; but we beg of you t lay no such flattering unotion to your souls. Some day yet The Globe or The Mail will be "throwing it up to you." You stood by indifferently and "made no sign" while the miller were suffering from the worst case of injustice ever connected with Canadian tariff system If you were to "catch it" then, perhaps not many just and fair-minded men would be sorry for you. If the live men of the Manufacturers' Association were animated now by the proper spirit, they would send to Ottawa forthwith the strongest deputation they could muster, to impress upon the Government the danger of allowing the present injustice to the millers to continue. For remember that it touches the farmers as wel as the millers; as you will soon see reason for concluding if you give anything like fair attention to the subject. It may occur to you further, if you take any interes in that big factor in Canada's future destiny — the progress and the political leanings of the great Canadian Northwest-that the wheat and flour question is of some practical consequence to people out there. For you to stand by in-differently is surely not a good policy at this time. Should The Globe have your scalps some day, for your lack of anything like sense of justice to your brother manufactur-

dilons at The Theatres This Week

Attractions at The Theatres This Week—
A Good Line of Plays.

Mr. E. H. Sothern, who begins an engagement at the Grand Opera House to-night in his charming play "Lord Chumley," has been doing a remarkably fine business in this the second season of his laughable comedy. Dr. Lambden of The Philadelphia Times says: Mr. Sothern closed his engagement at the Chestnut-street Opera House to a business highly satisfactory to both himself and the local management. Tord Chumley is a play that fits Mr. Sothern capitally and pleases the general public. Both star and play seem to be fully as attractive as last year, and at present appearances it will be a long time before Mr. Sothern will find a new play necessary. Mr. Sothern's engagement in Toronto is for three nights only, and in accordance with many requests he has arranged to have his first success. "The Highest Bidder," produced on Wednesday evening, the last of his stay. "Lord Chumley" will be given Monday and Tuesday nights and Wednesday matinee. "The Indian Mail Carrier."

To-night and for the remainder of the week, comedy in its highest, brightest and latest form will be seen at the Academy of Music, administered by Daniel Frohman's famous New York Lyceum Company in the inimitable little comedy entitled "Our Flat." It is now in its second successful London season and was a pronounced hit in the American materiouslis.

AMBITIOUS CITY NEWS.

Hamilton asylum for the insane, will be appointed superintendent of the new asylum for the insane at Mimico. Dr. Reynolds will

obably take charge some time this month The new asylum is on the cottage principle.

There are eight cottages, connected with a central building by subways, and each cottage will hold fifty patients. Only one or two of the cottages are completed, and it will be cottages are completed, and it will be cottages are completed and it will be contaged and one of the cottages.

take another year to complete all of them.

STRYCHNINE FOR QUININE.

Two Families Take One Drug for the

Brayton and wife recently moved into a house on the New River section of this parish and found in the place a phial which they

they made pills out of the contents and administered them to the children, who shortly afterward died. The phial had contained

At a meeting of the high standing con

mittee I.O.F. in the Palmer House on Satur-

day, these officers were present: H.C.F., N. F. Paterson, Q.C., Port Perry; P.H.C.R., A.

F. Paterson, Q.C., Port Perry; P.B.C.K., A. R. Milne, Kingston, Hon. C.R., W. R. Hickey, Bothwell; H. S., J. B. Halkett, Ottawa; H. T., Thomas G. Davey, Carp. Mr. Paterson presided, and business of a private nature was discussed. It was reported that the order has increased by 2400 in the province of Ontario alone since July,

The Ghastly Find in a Box.

On Saturday evening at the Parkdale Police Station Coroner Powell made an ex-amination of the body of the infant found

amination of the body of the infant count near the railway track. From pieces of paper discovered in the box it was evident that the body had been placed there some time in the summer, and as it was in an ad-vanced stage of decomposition it was thought not necessary to hold an inquest.

All About Siberia,

George Kennan, the well-known traveler and lecturer, will tell the people of Toronto how hot it gets in Siberia when he gives his

famous lectures on that generally supposed region of snow and ice. His addresses are full of information about the Cossacks and Siberia, and there are plenty of adventures to excite general interest. Mr. Kennan lectures Jan. 24 and 27 in Association Hall.

Infringing Fakirs Take Notice.

The Bell Telephone Company of Canada, having heard that certain unauthorized parties are

getting out lists of its subscribers for the sake

of the advertisements to be obtained through this medium, has copyrighted all its subscrib-ers' directories and will prosecute any in-
