Dr. J. C. Ayra—ir: The Cherry Pectoral is much inquired after Several of our best Physicians have used it, three of them in their own case, and always with the happiest effects. The numerous patent medicines 'ways before them. lead to credulity in regard to every new remedy; and it is only after undoubted evidence of value in any article, that any thing like a general confidence can be excited.

The untrivalled excellence of this combination of sgents (in the Cherry Pectoral.) provedhery yound earli by repeated trial and their own observation, has compiled medical men to proclaim abroad its usefulness. It is beyond all doubt the best general remedy we have for Pulmonary Affections of this climate, at the same time sedative and expectorant—a rare combination of proporties.

To demonstrate these facts enquire of any English resident in your vicinity of his knowledge of the teneficial effects of wearing the Protector, without recaurse to doctoring of any kind. The cost of wearing these articles is a mere trifle, and one will last some years. No one who values the health of himself or his family will be without them. The Hospitals in this country are not alone recommending them, but rapidly introducing them. Harcourt, Bradley & Co. of London, and Marchester, England, were origically entrusted with the manufacture of the Protectors, by the lumented Dr. Cooper, and continue to manufacture according to his original instructions, and therefore recommend those who would wear "The Protectors," to see to their being genuine.

REMEMBER THIS IS A STAPLE ARTICLE, and no Patent Medicine.

THE Subscriber having had his Office destroyed by fire, will for the present conduct his business at his residence just above the Court House, where all persons destrous of seeing him, are requested to call.
