Danger in Celluloid Combs

The two-year-old son of Rev.
H. D. Marr of St. John, was badly
burned yesterday, says the St.
John Sun.

The little tot was playing with a
celluloid comb and was handed a
lighted match by his brother, who
is just a year older. The comb be-
ing highly combustible at once
burst into flames, and his night
dress caught. Before the father and
mother could get to his side the
little chap had been burned down
the left side from his arm to his
foot. Mr. Marr tore the blazing
garment off and extinguished the
flames with his hands. Dr. D. Y.
was summoned and relieved the
suffering of the baby as much as
he could, and he thinks he will
recover. Mr. Marr had his hands
quite badly burned in putting out
the fire, and was unable to preach
at either service yesterday. Rev.
Mr. Hamilton preached in the
morning and Rev. Charles Comben
in the evening.

SOBE NIPPLES.

Any mother who has had experience
with this distressing ailment will be
pleased to know that a cure may be
effected by applying Chamberlain's
Salve as soon as the child is done
nursing. Wipe it off with a soft cloth
before allowing the babe to nurse.
Many trained nurses use this salve
with best results. For sale by W.
A. Warren, Pharm. B.

It has been frequently suggested, and
the suggestion is a good one, for every
farmer to place his name and the name
of his farm on his road gate. Not only
would persons driving to a place more
easily find it, but it would add more
pleasure and interest to people driving
from place to place. This last result
would have special effect with regard
to well-kept and pretty houses. An ob-
serving person will seldom pass a
beautiful farm without desiring to
know who is its enterprising owner.

NEW RAY STEAMER.

(St. John Times.)
Another new steamer the Ruby L. in
command of Captain Murray Lewis,
arrived in port to-day from Margarets-
ville. The Ruby L. was recently launch-
ed at Margaretsville, and was taken to
Yarmouth to receive her engine and
boilers. She made her trial trip off
Yarmouth last Friday and proved her-
self a speedy craft. The new steamer
is fitted out with all the latest im-
provements, with good accommodation
for passengers. She is about ninety
tons register, and will trade between
this port and Margaretsville, Canning
and other Nova Scotia ports. The
Ruby L. will probably make two trips
a week, and will be a great conve-
nience to the city merchants in shipping
their goods over the bay.

X-RAY EXPERT DIES OF CANCER.

Chicago, April 24.—William C. Fuchs,
an expert in the use of the X-Ray,
died here to-day of cancer, which he
contracted three years ago through
coming in contact with the X-Ray ap-
paratus. Since Dr. Fuchs became af-
fected with cancer he has submitted to
numerous operations, several of his
fingers having been amputated. These
operations were unsuccessful and the
disease steadily spread to different
parts of his body.

ATTEMPT TO WRECK

D. A. R. FREIGHT TRAIN.

Halifax, April 26.—An attempt was
made this evening to wreck the D. A.
R. accommodation from Annapolis for
Halifax, near Mt. Uniacke, by placing
spikes on the rails. Promptness in the
train crew making the discovery and
the lightning speed averted a disaster.

The L. C. R. officers have arrested
John Pitts for placing an obstruction
on the rails at Linwood, 17 miles from
this city. Several days ago he was
taken to Antigonish and confessed that
he wedged a king pin in a frog just
for fun. He was committed for trial at
the next sitting of the supreme court.

Postal Department's Big Blunder.

(Moncton Transcript.)

Ottawa, April 24.—(Special).—Sen-
ator Ellis brought up in the Senate to-
day the increased postage on news-
papers to the United States. The mini-
mum rate on Canadian newspapers to
the United States would be one cent
per package. The good which the cir-
culation of Canadian newspapers did
in the United States was to be seen
each year by the large number of
Canadian papers from the United States
who took part in the home editions
held in the towns and cities through-
out the dominion each year. Under the
new postal rates, the country weekly
which cost \$1 would have to pay 52
cents a year postage and the semi-
weekly \$1.01. The result would be a
falling off in the newspapers going to
the United States. He questioned the
increase being in the best interests of
the country.

Senator Ellis under-stands
rather than overstates the situation.
The truth is that when the new postal
rate on newspapers from Canada to
the United States goes into effect on
May 8, the post office department will
by a pure stroke of the pen wipe out
almost every advantage in the United
States obtained for a Canadian
newspaper. It is the most stupendous
blow ever struck in its history against
the Canadian newspaper publishing in-
dustry. So far as American circulation
of Canadian newspapers is concerned,
it wipes that circulation out of pres-
ent existence. On a \$1.00 weekly the post-
age will be 52 cts. and on a Daily
going to the United States, the post-
age will be about \$3.10 per annum.
The one cent minimum on individual
packages, or single newspapers, is pro-
hibitory, and crushes out in hundreds
of cases, the American circulation of
Canadian papers, built up after years
of toil. The action of the post office
department, in making such a
blatant and inconsiderate move, as well
as indefensible—Editor Transcript.

NOVA SCOTIA ESTIMATES.

Halifax, April 22.—The provincial
estimates were brought down in the
Legislature to-day. They provide for
receipts of \$1,453,888, which is \$108,
671 more than last year. Of the differ-
ence \$65,000 is expected in nine royal-
ties.

Notice was given by Premier Murray
of a proposed increase in the seasonal
indemnity of \$100, making the total
amount \$800. The Opposition, which
objected to the recent advance in
salaries of members of the government,
will also oppose this seasonal in-
crease. It is reported that members of
the Legislature supporting the govern-
ment have been actively canvassing
for an increase of \$300, and the
Opposition agreed to accept it the in-
demnity would have been \$800.

ENFORCED HER OWN LAW.

(New York Times.)
The woman who was responsible for
the passage of an ordinance in East
Orange forbidding the distribution of
samples of patent medicines was also
responsible for the first arrest under
the ordinance yesterday.

Several months ago Mrs. William H.
Klinck, of 71 Sussex Avenue, East
Orange, wrote to the City Council
calling attention to the fact that sam-
ples of patent medicines were distrib-
uted about the streets and were likely
to fall into the hands of children who
might eat or drink them, and thereby
be made ill. She said one child nearly
died as a result of eating some patent
medicines. The Council passed the
ordinance, and Mrs. Klinck produced
a copy of it when the first offender
she spotted was arraigned before Re-
corder Fort. He fined the man \$2.
The man gave his name as Harry J.
Hunnell, of Newark.

The spring season is now in its
bloom and business men are adver-
tising their best offerings of merchandise.
There are many novelties in the line of
fancy goods, and a careful perusal of
the advertisements in this issue will
bring to your notice many opportuni-
ties for reasonable and reasonable
buying. Patronize your home mer-
chants as much as possible. They are
the ones who help to pay the taxes
and give employment to the laboring
classes.

An exchange says: While doing
some shopping in one of our grocery
stores the other evening, we chanced
to hear a little boy ask his father
who that man was buying the beans
for. "That is our editor," said the father.
"What do editors live on?" said the
inquisitive little urchin. "Why do you
ask that question?" said the indulgent
father. "Because I heard you say you
had taken our home paper for three
years and had never paid a cent for
it." To save the father embarrassment
we left the store, but it is safe to pre-
dict that the child got spanked when
the father got him home.

Are we going to have a race of
stoop-shouldered men? One would
naturally think so to look over al-
most any large crowd, walk down any
crowded street, or glance at the aver-
age male human being he meets. The
man who walks with his head erect,
his shoulders thrown back and his
chest extended, just as nature intended
he should, is a rarity and is remarked
about wherever he goes. The average
man walks as if he were very
tired.

In a Class by Itself

It is quite true FERROL is an emulsion
of Cod Liver Oil and a particularly
good one at that. But it combines
Iron and Phosphorus with the Oil, and
these are just what are needed to make
the emulsion perfect and they are just
what all other emulsions lack.

FERROL

is unique because
It combines Iron and Phosphorus with
Cod Liver Oil.
It is pleasant to take and easy to digest.
It holds the record for increasing the
weight (95 lbs from the use of 25
bottles).
The formula is freely exposed and its
bona-fides are vouched for by emi-
nent analysis in Canada, the United
States and Great Britain.
It is endorsed by prominent physi-
cians of all schools.
It is used in all the leading Hospitals,
Sanitariums and other Public Insti-
tutions.
The London (Eng.) Lancet, after care-
ful analysis in its own laboratory,
fully endorses it.
We are prepared to substantiate all
the above statements.
FERROL is the embodiment of health,
strength and vitality, and

OBITUARY

MRS. SARAH JACKSON.

The death occurred at Clarence on
April 17th of Mrs. Sarah Jackson,
widow of the late Silas Jackson. Mrs.
Jackson outlived her husband 21
years and on Oct. 10 last reached the
age of 45 years. Up to six months
ago she was in full possession of her
faculties, 29 years ago a serious ear-
ring accident rendered her unable to
walk. Since that time she has been
confined to an invalid's chair.
Mrs. Jackson's maiden name was
Sarah Banks, and she belonged to a
long lived family. Most of its members
reached the age of 80 years. A sister
Mrs. Moore, died at Port George in
February last aged 80. Mrs. Jackson
was buried at Pine Grove cemetery,

CAUGHT IN A FOLDING BED.

Hamilton, Ont., April 24.—While two
patrolmen were passing the residence
of Charles Hunter this morning they
heard faint, sounds of distress in-
side the house. An investigation re-
vealed Mr. and Mrs. Hunter almost
strangled and crushed and incarcerated
within a collapsed folding bed.
The bed had closed like a pair of
shears, doubling up the occupants,
half suffocating them and stifling their
cries. They were in great agony and
were with difficulty extricated from
the clutches of the bed, where they had
been held almost all night.

A pair of five inch surgeon's scissors
was taken from the thigh of Mrs. W.
R. White, of Braman, Ont., at the
Wichita Hospital recently. She was op-
erated on for a tumor four years ago
and the scissors were left in the abdo-
minal cavity. The scissors worked
through her body to the thigh, caus-
ing excruciating pain. They were dis-
covered with the aid of the X ray.
