ENCOURAGING TO APPLE GROWERS

(Berwick Register)

It is altogether too early to predict what might be expected regarding prices for this year's fruit yield, but at the same time it might be encouraging to apple growers in this Province to know that a prominent Valley fruit broker, while in Berwick last week contracted with one of the local fruit houses for the purchase of 15,000 barrels of 1920 fruit at the following attractive prices: Kings, \$4.50 to \$3.00; Golden Russets, \$4.25 to \$2.50; Gravenstein, Ribston and Blenheim, \$3.75 to \$2.00.

An English chemist advertised a patent concoction labelled: "No more colds! No more coughs! Price is 1 1/2 d. A man who bought the mixture came in three days to complain that he had drunk it all, but was no better. "Drunk it all!" gasped the chemist. "Why, man, that was an India rubber solution to put on the soles of your boots!"

PALE AND WEAK WIVES AND MOTHERS Can Regain Health and Strength Through Dr. Williams' Pink Pills

Many women who have a good color in their girlhood grow pale and colorless when they become wives and mothers. When the fading color in the cheeks and lips is accompanied by a loss of brightness in the eyes and an increasing heaviness in the step, the cause will be found in the state of the blood.

Many causes contribute to the condition of the blood known as anaemia. Overwork in the home, a lack of outdoor exercise, insufficient rest and sleep, improper diet—these are a few of them. The important thing is to restore the blood to normal, to build it up so that the color will return to cheeks and lips, brightness to the eyes and lightness to the step. Dr. Williams' Pink Pills are the great blood builder and nerve strengthener. They begin with the very first dose, and through a fair use make new blood that carries health and strength to every part of the body. The appetite increases, digestion becomes more perfect and ambition returns. The case of Mrs. Wm. McNish, Abbott Street, Brockville, proves the value of Dr. Williams' Pink Pills in cases of this kind. Mrs. McNish says: "I was quite young when I married and in raising my family I became all run down and a nervous wreck. I became so weak that I could hardly walk across the floor without sitting down to get my breath. I slept poorly and at times my nerves would twitch so that I could not keep still, and I was in constant misery. I tried many medicines but they did not help me; indeed my condition was growing worse, until one day a friend told me she had had in a somewhat similar condition and had been cured by Dr. Williams' Pink Pills, so I decided to try this medicine. After the use of a couple of boxes I felt they were helping me. My appetite was better and I slept better. By the time I had used half a dozen boxes I felt like a new woman, my health had fully returned and I could do my housework with ease. In view of what Dr. Williams' Pink Pills have done for me I cannot recommend them too highly."

The best time to begin taking Dr. Williams' Pink Pills is the moment you feel the least bit out of energy. You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50, from Dr. Williams Medicine Co., Brockville, Ont.

Mrs. Stairs Benjamin returned to her home in Dartmouth via Saturday's express, after a few weeks' vacation with her parents, Mr. and Mrs. John F. Titus, Hampton, N. S.

Of interest to Farmers

THE RAISING OF SHEEP

In introducing the estimates for his department of the House of Commons the Hon. Dr. Tolmie, Dominion Minister of Agriculture, pointed out the fact that in Australia there are no fewer than 80,000,000 sheep, in the United States 40,000,000 in Great Britain 27,000,000 and in Canada only 3,500,000. As shown in The Agricultural Gazette of Canada for May efforts are being made in all the provinces to remedy this state of things. That is to say encouragement is being given to the raising of sheep in a variety of ways, by pure bred rams being distributed or sold on easy terms, by the holding of competitions, at which generous prizes are given for the best ewes and for the best flocks, by obtaining the highest price for wool through the Departments, and through the Canadian Co-operative Wool Growers' Association, by organized sheep sales and as in Ontario in particular by placing flocks on a share basis. Amended legislation has also been passed for the protection of sheep from dogs. As a sample of the good work that is being performed it might be mentioned that in Saskatchewan, in the last four years the amount of wool consigned to the co-operative branch of the Provincial Department of Agriculture increased from 179 consignments, weighing 69,404 pounds for which the average price realized 17 1/2 cts. to 916 consignments, weighing 394,068 pounds at an average price of 61 1/2 cts. per pound. The articles in The Gazette would imply that what has been done in Saskatchewan is also being accomplished in the other provinces of the Dominion.

OTHER ORCHARD PESTS

A related insect, the Orchard Tent Caterpillar, distinguished from the former by its habit of making a tent in the fork of a limb and in appearance by a yellowish stripe down the back in place of the row of spots, is also much in evidence this season. It may be destroyed in a similar manner or by cutting out and burning the tents, or by burning out with a torch when all the caterpillars are inside.

The "Canker Worm" a looping caterpillar, at first green in color, later turning to black, is also the cause of much complaint some seasons. Not only has it stripped many orchards of their leaves, but also such wild trees as oaks and maples. Light infestations are easy to handle if taken in time, 2 pounds of arsenate of lead to 40 gallons being sufficient in such cases if applied before the blossoms open. In cases of heavy infestations or when not taken in time, 4 or even 5 pounds to 40 gallons must be used.

Such outbreaks as the foregoing are liable to occur until spraying with poisons becomes a part of the regular farm practice. Arsenate of lead is the safest poison for general purposes. The cheapest at present is arsenate of lime, which however, should not be used alone on apple foliage, but only in conjunction with Bordeaux mixture or with five times its weight of water slaked or hydrated lime. Arsenate of lime can be safely used on potatoes or other truck crops. Farmers in outlying districts should get their local dealers to keep these poisons. Paris green is not recommended for use on fruit trees.

GROW YOUR OWN CLOVER SEED

We all know of the difficulty experienced this season in securing clover seed even at the high price asked. The indications are that the shortage in clover seed will continue for some time and it will be not only wise but profitable for farmers to cut a portion of their best clover stand early to secure a good second crop growth for seed in the fall. Every farmer is doubtless in a position to set aside one acre for this purpose, and this should return 100 to 150 pounds of number one seed, worth at prevailing prices from \$75.00 to \$110.00.

To be sure of proper ripening before frost the cutting should be made not later than June 25th. This will give a good crop of prime quality hay and should return the above yield in seed this fall.

The second crop clover last season at this station in spite of the unfavourable fall for curing turned out 1800 pounds of seed.

This is an important matter, therefore, do not let opportunity go by for making sure of a clover seed crop. Besides this, it is a nice return from one acre of land.

WOOL CLIPPINGS

The wool growers of Nova Scotia will be on the alert this year to take advantage of the best marketing facilities. Last year those who sold through the Canadian Co-operative Wool Growers, Limited, realized on the average about 40% more than those who marketed in the old way. No doubt a like gain will be recorded this year. There are receiving stations for this organization at Port Hood, Antigonish and Truro.

FREE OF TERRIBLE KIDNEY TROUBLE

After Three Years of Suffering, "FRUIT-A-LIVES" Brought Relief

MADAME HORMIDAS FOISY

624 Champlain St., Montreal.

"For three years, I was ill and exhausted and I suffered constantly from Kidney Trouble and Liver Disease. My health was miserable and nothing in the way of medicine did me any good. Then I started to use 'Fruit-a-lives' and the effect was remarkable.

I began to improve immediately and this wonderful fruit medicine entirely restored me to health. All the old pains, headaches, indigestion and constipation were relieved and once more I was well.

To all who suffer from Indigestion, Constipation, Rheumatic Pains or great Fatigue, I advise the use of 'Fruit-a-lives'."

Madame HORMIDAS FOISY.
