BOUNTY ON PORCUPINES TO SAVE THE TREES

Editor MONITOR:

On account of the large amount of damage being done in the woods by porcupines, I will personally pay a bounty of ten cents each for every porcupine killed during the month of April, 1922, anywhere within the Province of Nova Scotia. By actual count it has been found that a porcupine will destroy about one hundred fully grown trees in a winter, so that the total loss from this animal runs into very large figures. Every fully grown tree that is saved is worth more for present needs than one hundred seedlings planted, though both are urgently needed.

No bounty will be paid after May 1st, on account of the added fire risk caused by having hunters in the woods after that date.

An extra cash bonus of one hundred dollars will be paid at the end of April to the one who actually kills the largest number during the month. In the event that two contestants should kill exactly the same number the bonus will be paid to the one who sends in the largest returns early in the month before the female reproduces.

All that will be necessary will be to cut off the snouts and forward same by parcel post or express to me at Annapolis Royal, Nova Scotia, starting location where porcupines were killed and giving name and address of the sender, and a check for the bounty will be forwarded by return mail. As porcupines are quite plentiful in many parts of Nova Scotia, hunters and a large number of the unemployed should make good wages out of this bounty and be at the same time saving their own or their neighbors' trees from destruction.

Porcupines cannot throw their quills, this is simply an old superstition, you have to come in actual contact with the animal before it can shed its quills. They are comparatively tame and can often be killed with a stick.

I intend renewing this offer in the fall after snow comes again.

FRANK J. D. BARNJUM,
Annapolis Royal, N. S., April 8, 1922.

A COMING EVENT

To the Editor of The MONITOR:

Will you kindly allow me to inform the public through your columns that the Historical Association of Annapolis Royal will hold its next quarterly meeting in King's Theatre on Tuesday evening, May 9th, and that Dr. J. Clarence Webster, of Shediac, N. B., will be present and give a lecture, illustrated by lantern slides, on General Wolfe, the hero of Louisbourg and Quebec. Dr. Webster's lecture will embrace the whole career of James Wolfe—his early life, his activities as an officer in the Continental War, in England and Scotland and in Canada. The slides used for the lecture, and which will be shown with Mr. King's powerful lantern, have been made chiefly from prints, &c., in Dr. Webster's possession, and fully illustrate the various phases of Wolfe's career. All the important sketches and paintings made of him, and the death scene at Quebec, are included. The important soldiers, sailors and statesmen who were associated with him will also be demonstrated, especially those who had to do with Nova Scotia.

Dr. Webster is the first to have got together such a collection for public exhibition, and we are fortunate indeed to secure an opportunity of seeing it here.

Ten cents admission will be charged, merely to cover the expenses, and which is hoped that everyone within reasonable distance of Annapolis will attend.

Note the date—Tuesday, May 9th, at eight p.m.

L. M. FORTIER,
Annapolis Royal, April 3rd, 1922.

BEAR RIVER GIRL TRIED TO COMMIT SUICIDE IN BOSTON

Rhoda Jack, a twenty-eight year old stenographer, attempted to end her own life at Boston by taking poison, because, according to relatives, she felt that she must refuse to marry Rev. George Neelans, of Indiana, Penna., because she believed that she was a victim of tuberculosis.

The girl, a native of Bear River, N.S., was taken to Boston by a relative, Mrs. James Parker, of the Dorchester district. Mrs. Parker said Mr. Neelans was a minister of the Greater Boston, and wished to marry Miss Jack, but that she refused because she believed she had inherited consumption from her parents and might give it to her children.

Miss Jack went to the roof of the Franklin Square House, where she lived, and drank a vial of poison. She then entered the infirmary and told the nurses what she had done. She was taken to a hospital where it was said that she would probably recover.

SHE FOUND RELIEF AFTER FIVE YEARS

An Ex-Service Man Tells How His Wife Found New Health

"I wish to testify," says Mr. R. A. F. Hughes, of Hamilton, Ont., "as to the efficiency of your Dr. Williams' Pink Pills for the following reasons:

"When I returned home in May, 1919, after nearly five years' absence on army service, my wife had changed from a healthy, robust woman, to one whose life was a burden and ordinary duties almost impossible. Through war worries, loneliness and other factors contributed through my unavoidable absence, her health had been steadily undergoing what I might describe as an undermining process, for years.

"I was fully aware from her letters that I would not find her the same woman, but, when I reached home, I was terribly shocked to find her in the condition she was in. Her healthy color had changed. She seemed bloodless and her skin was sallow. She was weak and listless, and with difficulty moved about the house. She hardly ever moved out of the house as she became so short of breath and feared she would fall during one of her dizzy spells, which she said were becoming more frequent.

"The day I arrived home I visited our doctor, who is an old friend, and, later through his advice, consulted with another physician of this city. Everything was done that could be done, and many medicines were prescribed and faithfully taken. As these were of no avail I trusted that, if there alone would suffice to build up what had gradually been undone in the course of five years. After twelve months, conditions had become worse. Then I decided on change of air, gave up my position in the city and moved to the country. Even this did not do any good. I think it added to her depression.

"One day a friend visited us and as a result of their conversation my wife made up her mind to try Dr. Williams' Pink Pills.

"I had not much faith in what I did, but procured three boxes. This happened nine months ago. I was surprised to hear my wife say, after about the tenth day, 'I believe these pills are doing me good.' A week or so after that I certainly believed they were, for I saw color returning to her cheeks and the sallow, unhealthy color disappearing. The pills were certainly doing what you claim they will do, and of her own free will she continued them for about three months. At the end of this time she seemed quite a different woman. Life was worth living. The listlessness had gone and she could walk up the steep hill, which is half a mile long, leading to our house, without the slightest inconvenience. At this stage she discontinued the pills and she is just as well now as ever she was.

"Now, sir, I want to say I have every faith in Dr. Williams' Pink Pills, as I have had proof, and I believe that what this medicine did for my wife, it can do for others."

You can get Dr. Williams' Pink Pills from any medicine dealer, or by mail, at 50 cents a box, or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

While a resident of the United States he became naturalized and during the war was made a Lieutenant-commander in the American navy. FIRE SWEEPS AMHERST BLOCK

Butcher Shop and Grocery Store are Badly Gutted.

R. B. Fisher's butcher shop in the Hagen Block on Church Street, Amherst, was completely gutted by fire that broke out shortly after midnight, Wednesday, in the rear of the building. The stock was uninsured. H. Downey & Company's grocery store, in the same block, suffered considerable damage to stock through smoke and water.

There is no explanation offered regarding the origin of the fire which had gained much headway before it was discovered by young men who rung in the alarm. The whole fire department was called out and they succeeded in confining the blaze to the one apartment.

The Hagen Block is one of the best buildings in the town. It was erected seven years ago, is constructed of brick and was little damaged. Other tenants on the ground floor are McEachern and Scraghan, plumbers, and the local office of the Employment Service of Canada. The second floor is unoccupied. The building stands directly opposite the former site of the Luby building which was totally destroyed by fire two weeks ago.

SISTER BELIEVES SMALL IS ALIVE

Small is Alive

Mrs. T. E. Sterling, sister of A. J. Small, the missing Toronto theatrical millionaire, was interviewed at Hamilton, Ont., last week. She says she has a clue that will lead to the solution of the Small mystery and thinks she will win the reward of \$50,000.

"Do you think Mr. Small is dead?"

Mrs. Sterling was asked.

"Dead?" she replied. "Oh, no, he's not dead. He's in Toronto, doped and unable to reveal his whereabouts. You know Toronto is a large place and it would not be difficult to hide anybody there. I have a clue all right, but it's got to be kept mum until the whole thing's out and then everybody will know. If I said anything now they could easily move him and then we would not be able to find him at all."

Mrs. Sterling charged that Small had been betrayed by his supposed friends. "It was no stranger that did the trick, but friends."

Moore is said to have confessed to having at least thirteen wives and also was sentenced to serve from two to five years in the state prison on a charge of bigamy.

According to the police, he is said to have obtained more than \$2,700 from his wives. In each case after he had been wedded a week he disappeared.

HER LONG LOST BOY IN CANADA

After a search nearly twenty-five years Mrs. Louise F. LeSueur, Boston, Mass., has located her son, Everett, whom, when he was three years old, she placed in a home for children, from which he was taken for adoption by a family from Canada.

Her quest ended this week when she received a communication from the chief of the Royal Canadian Mounted Police at Lansdowne Park, Ottawa, to the effect that the "boy," now a grown man and a member of the force, is attached to his staff and at present on a trip into the northern wilderness.

For many years the boy and his mother had been searching for each other without success. In his wanderings the son met an uncle, who was employed in the Fore River Shipbuilding Company's plant at Quincy, Mass. He told the uncle of his plan to join the mounted police. Recently the uncle met the boy's mother and in this way she heard of his present whereabouts.
