## CLAMPS FOR SPRING PACKING.

All practical Beekeepers concur in the opinion that bees wintered in the cellar, should be packed on their own stands in spring, to keep them in the best condition. We are making a light clamp specially designed for this purpose.

5. This clamp consists of a bottom board of  $\frac{3}{4}$  in. lumber to cross pieces  $7/8 \times 3$  in. to set hive on to allow of packing under; the four wall' and a bevelled rim to cover the packing above; arranged so as to allow of using the ordinary 'lid of hive for cover. To be used with 4 inches of sawdust or chaff, and will be in sizes to suit the Jones Combination or Langstroth hives, at the following figures:—

Each	5	10	25	100
75	70	67	63	60

They will be shipped in panels, ready to nail together.
