TORONTO, DECEMBER, 1898

No. 12

Of Signal Benefit in all Manner of Dental Operations.

The experimental stage has long been left behind by the efficient and agreeable ANTISEPTIC and GERMICIDE which we market under the name EUTHYMOL. This combination is firmly established in the favor of the Dental Profession and is widely used in dental practice.

Euthymol is a STRICTLY ETHICAL PREPARATION, receiving no protection whatever from trademark, patent, copyright or secret formula. Sample and copious literature supplied on request.
