

1922. For the present year, he says the season is a disappointment. On September 21, he has traveled at several places, in company with J. Smith and H. Root, but wound up his preparation at Ladbroke, and he certainly came out in the pink of condition. Everything being in readiness he took the mark at 5h. 36m., with odds of 5 to 4 betted on him, although half an hour previously 6 to 4 had been laid on time. He bounded away at such a terrific pace that his attendant, J. Riley, was soon left in the rear, and the first lap was covered in 2m. 5s., which will account for the first mile being so much faster than the others. He entered on the second mile quite fresh, and amidst the cheers of his friends he completed it in 14m. 18s., the official time of each mile being clearly chalked up by Bob Rogers. At the end of the eighth lap a slight perspiration was observable, but this soon disappeared, and the third mile was finished with the watches pointing at 21m. 37s. As several bets were depending on his doing half the distance "make twenty-two minutes he hustled along until the four miles were timed at 28m. 50s., this feat being received with deafening cheers. Odds of two to one were now freely offered on Perkins, and this price was increased at the end of five miles, but from this point to the sixth he fell off perceptibly. The walker, however, soon set going again, and seven miles were recorded at 51m. 51s. Although Perkins had a trifle in hand, he stuck to his work, and amidst uproarious cheers and throwing of hats, he passed the post a winner by fifty-five seconds, and without taking any kind of refreshment throughout his arduous task. Mr. J. Vandy was referee.

ALL SORTS.

A few days ago Peter Pickle and Joseph Cairns caught a young bear in Bolton woods, near St. Johns, Que.

The Picton Gazette says: A double-headed snapping turtle was captured alive at Pleasant Bay not long since. This will match the double-headed calf belonging to Mr. Bongard of Long Point.

KING OF THE TROUTS.—John G. Ball, a taxidermist of 885 Broadway, has a speckled brook trout 25½ inches long and 14 inches in circumference, whose live weight was 10 lbs. It was caught on the 13th inst., at Club Cove, in the Androscoggin River, by John Whipple, of 59 Wall street. It was sent to the Union Club of this city, and J. C. Griswold, of the firm of Teft, Griswold & Co., sent it to Mr. Ball to be stuffed.

The Petaluma (Cal.) Argus says: "We are informed by S. M. Martin, who lives near Two-Rock, that he has on his place a great number of domesticated quail. For several years he has taken great pains to guard against shooting the birds, and they are now so tame that they feed and even roost with his chickens. At times a few of the quail are trapped, but are not allowed to be shot.

The Ogdensburg Journal tells of a personal experience about twenty years ago. Coming in on the Canton road, at the close of a day's hunt, in company with another, we noticed a large bird flying so as to cross the road some distance ahead. Running at the top of our speed we came directly under him and fired. The bird appeared to have been cut in two, one half coming down rapidly, like a collapsed balloon, to the ground, while the other half kept on its course. The descending half struck within a few feet of us, and bounded up three or four feet. It proved to be the largest bullhead we ever saw. A fish hawk had captured him, and thinking perhaps the fish was what we wanted, dropped it down a distance of several hundred feet. Our companion, whose name was Van Winkle, when he saw the separation, came bounding up, shouting, "There are two of him, and you have killed one." We swung our game on a stick, and came into town impressed with the belief that we had made the most remarkable shot on record.

In the following catalogue we give the makers prices of the different instruments, and our retail prices opposite at which our Agents can sell them, and where we have no agents we will supply them at prices named:

THE FISCHER PIANO.

The "American Trade Journal" writing up the piano trade says: "Messrs. J. & C. Fischer, are, as we have said, not only the oldest and most experienced makers of fine instruments for the trade, but sell hundreds of their pianos to good judges." About 17,000 of them are now in use. They are certainly the best medium priced piano in the country—all have agraffe treble:
