## New Glasgow, N. S.

Western Representative

S. A. WILLIAMS, M. E., Lethbridge, Alta.

## Single JEFFREY Roll CRUSHERS

reduce run-of-mine coal to  
1 inch product at one oper-  
ation.

This Crusher is self-feeding and  
can be located directly beneath the  
receiving hopper, or storage bin.

It has machined joints, is com-  
pact and strongly built; will with-  
stand hard, continuous service. All  
working parts are readily accessible.

Is also equipped with safety de-  
vice against breakage due to foreign  
material getting in crusher.

Write for catalog on subject of  
interest to you.

We design and build complete Coal Mine  
Equipments including Electric Locomotives,  
Coal Cutters, Drills, Car Hauls, Coal Tipples,  
Coal Washeries, Grab Buckets, Screens. El-  
evators, Conveyers, Dump Cars, Mine Fans etc.
