THE BANK OF TORONTO

The Wisest Of All Investments

As an investment we invite you to consider the advantage of placing your spare dollars in a Savings Account at the Bank of Toronto. You will find that the Savings Account excels most investments for the following reasons :

1. The Savings Account Investment never loses value.
2. The Security for your money is unexcelled.
3. You can add to it, when you like, large or small sums.
4. You can withdraw from it easily when required to meet your needs.
5. It pays interest twice a year with unfailing regularity.
6. The Savings account Investment is easily arranged, as a small sum and a few minutes with the Teller at any of our Branches secures you a pass-book showing the amount of your credit.
