A MELANCHOLY ACCIDENT took place near Wardsville, on Sunday last, accompanied with loss of life. A man named Alexander Suther land, whilst cleaning a thrashing machine, slipped his footing, and his leg came is contract with the machinery, which so mutilated it that ampu tation of the limb was considered necessary. The unfortunate man did not survive the operation more than half an hour .- Ib.

DARLINGTON AS A WHEAT GROWING TOWN SHIP -Mr. William Windatt in a letter to the Bowmanville Messenger says-I have harvested, thrashed and sold the present season from a ten acre fiield, forty eight bushels of wheat per acre of first quality, weighing SIXTY-SIX pounds the measured bushel. The field was entered for competition for the Darlington Agricultural So ciety's prizes, and was pronounced by the judges to be perfectly clean with the exception of a head or two of smut, yet failed to take a premium.

The inference drawn from this is, that there
must have been at least four fields of larger yield than this in the township-this I think fully establishes the fact that the soil of our township is admirably adapted to the production of the staff the Society's prizes will give us the amount of their respective yields.

GREAT WESTERN RAILROAD. - The work in the vicinity of London is rapidly progressing, and bids fair to be opened by the time specified. The extensive buildings for a depot will be completed in a short time, and the rails are now being laid between London and Woodstock.

Business in Hamilton .- Our worthy conemporary of the Hamilton Gazette speaks in high terms of the prosperity of Hamilton. As a gratifying proof, he refers to the establishment of Lawson & Brothers, Clothiers and Dry Goods Merchants. This firm has not fewer than 140 employees connected with it. In the Dry Goods and Millinery departments, 32 persons labor uninterruptedly.

SUPPOSED LOSS OF THE SCHOONER "SOVER-FIGN."—The schooner Sovereign which sailed from Hamilton on the 8th instant, is supposed to have been lost with all on board.

ATTACK ON A REVENUE OFFICER .- A few days Since, Mr. M. Dixon, a Revenue Officer, made a seizure of a horse, wagon, and harness, at Sherbrook, in possession of a French Canadian, but owned, it is said, at Darby Centre. The pro-Perty was put into Mr. Dixon's barn for safe eping, but six or eight persons made a forcible entrance into the barn, aud got the horse into the street, Mr. Dixon succeeded, however, in rescuing the horse, and the men decamped. On Thursday evening a second attempt was made, Mr. Dixon, in anticipation of this second attack had procured the assistance of several friends. one of these, Mr. Squire Taylor, on making his appearance at a window of the house, was fired at by the attacking party; fortunately the ball did not take effect. The assailing party then beat a retreat.

ACT OF MADNESS. The feat of jumping from a balloon, the jumper sustained by an India-rubber rope, was duly performed on Thursday. It was the most stupendous exhibition of daring and address that the Parisians have yet been permitted to witness. From one side of the car of the balloon hung the India-rubber cord, descending 250 feet, and then returning and being fastened to the other side of the car. It thus formed a strong loop. The athlete was dressed as Mercury; his body, from the neck to the small of his back, was enclosed in a frame work which enabled him to endure the suspension without wrenching or dislocation.

MARPINE in a frame work which enabled him to endure the suspension without wrenching or dislocation. The rope passed through an eyelet in the middle of the back, placed so that he was held in perfect equilibrium. When the balloon had reached an altitude double that of the supposed elasticity of the cord, the voltigeur appeared on the edge of the car, looked over, shut his eyes, and dove off into space. The eyelet slipped along the rope, so that the first 150 feet were a positive fall through the air, without any resistance or break. The rest of the way was an elongation of the rope. It stretched four times its length, making in all a descent of 600 feet, accomplished in two seconds. After having obtained its lowest point, the rope contracted once, perhaps, 200 feet, and then descended again. There was no further rebound, or oscillation; the voltigeur lay calmly cradled in mid air, and probably spent the leisure, he was now permitted to enjoy, in recovering his breath and contemplating the prospect. NO EXTRAS.

The great success which has attended the first year of this institution, has encouraged Mrs.
Poetter to leave nothing undone that can add to the advantages already offered in her School. In consequence of the increase in her pupils the has engaged another Music Master, (an English Professor from Boston.) who has been highly recommended as a finished musician. Mrs. Poetter has during the past year taken her more advanced pupils through a course of English Studies, which have prepared them to give their time pext year only to the higher branches of English Literature, and the French Italian and Common Prayer with Marginal References to Texts in the Holy Scripture. 4s. 6d.

Mrs. Poetter will take this opportunity of expressing the pleasure she has felt at the kind and satisfactory letters she has received from many of the parents, and she trusts that her system, combining home comforts with the advantages of a sound and finished education on such very moderate terms, will continue to be appreciated and encouraged.

The School will re-open on the 5th of Sept.

Mrs. Poetter has taken the splendid house, with grounds attached, the residence of the late Mr. Justice Jones, situated on Front Street, where she will have increased accommodation for Boarders.
