

I need an extension cord
for my phone

Note: For safety reasons, an extension cord should only be used if it can be kept alongside a wall. Cords should not be taped to the floor in any area where people may be walking.

Extension cords for telephone models M9216, M9316 and M5316 may be obtained from the Stockroom, LBP Building, Tower B, Ground Floor.

For curly cord replacement contact SXTV at 944-3330.

See back of phone for model number.
