Mr. SHARPE (North Ontario): Will the hon. gentleman tell the House how many Liberals were elected in Quebec on the policy of spending \$35,000,000?

Mr. BOIVIN: Not one of the Liberals of Quebec was elected upon the jingo policy of spending \$35,000,000. The Liberals were elected upon the policy of building a Canadian navy, equipped and manned in Canada, and that is the policy we stand by to-day.

Let us now take the number of votes counted by Major Chambers in the Conservative column, but given by the free electors of the different ridings in Canada to defeated candidates, pledged to support the hon. member for Jacques Cartier (Mr. Monk) and oppose all naval aid to Great Britain until the people had been consulted by means of a plebiscite. The votes they received were as follows:

I will hand this list to 'Hansard' with the permission of the House.

Mr. SPEAKER: It would not be printed; it is not customary to print lists unless they are read.

The right hon. the Prime Minister looked for his authority to certain Liberal newspapers published in 1911. Why does he not read the Liberal press of to-day, and not only the Liberal press but some of the most faithful and best of the Conservative organs of the present time, and he will see that the people of Canada do not want to lose the privilege of free debate. The right hon. the Prime Minister referred also to statements made by certain ex-ministers of the Crown during and prior to the campaign of 1911. He cited extracts from the speeches of Hon. Mr. Fielding, Hon. Mr. Paterson and Hon. Mr. Aylesworth. He cited extracts from speeches delivered by the Hon. Mr. Fisher as follows:

I will quote three separate utterances of the then Minister of Agriculture, the Hon. Sydney Fisher. Speaking at Waterloo, Que., on August 1, 1911, he said:

'Now, if we are returned to power, we will pass reciprocity and we will also pass a measure changing the rules so that the business of the country may go briskly forward, without obstruction. It is only right that it should be so. Full investigation we believe in, but empty obstruction is a drag on the country.'

Speaking again, as reported in the Montreal Herald, on August 19, 1911, at Magog, Que., he said:

'So long as a small minority or any group can take up the time of Parliament in order to hear themselves talk, it is impossible to avoid waste of time—'
