Mr. STIRLING: How is the difference between that \$31,000,000 odd and the \$47,-000,000 made up?

Mr. GARDINER: The \$31,000,000 was for last year. The \$47,000,000 odd is the estimate for the coming year. The subsidy payments estimated for 1944-45 are as follows:

Subsidy	nts estimated for 1944-45 Rate		Estimated
Butterfat used for creamery butter		erfat	\$28,200,000
Fluid milk			11,200,000
Chaosa	20 cents per hundred pour	nds	4,200,000
Concentrated milk	{15 cents (summer)	}	1,400,000
Subsidy on fruit for jams			600,000 2,000,000
Total			\$47,600,000

Mr. PERLEY: Would the minister give us a break-down by provinces of the fluid milk subsidies paid?

Mr. GARDINER: I have not the figures for this year except by the months, which are

not totalled. But the total amount paid in subsidies on milk for fluid use in all Canada in 1943 was \$4,968,477. The other figures of subsidies paid are as follows:

	Milk for fluid use 1943	Milk for cheese 1943	Milk for manufactured use 1943	Butterfat subsidy 1943
CANADA	\$4,968,477	\$800,270	\$464,955	\$15,724,915
Prince Edward Island Nova Scotia New Brunswick Quebec Ontario Manitoba Saskatchewan Alberta British Columbia	22,250 188,775 136,304 1,314,072 2,219,833 261,709 137,188 211,341 477,005	2,747 301,261 470,201 11,707 1,881 5,371 2,616	1,751 128,965 268,935 231 16,254 48,818	231,166 359,649 371,487 4,825,545 3,810,740 1,721,330 2,286,856 1,902,125 216,017

It will be noted that, in respect of milk for fluid use, Prince Edward Island and Saskatchewan are the provinces with the lowest subsidy.

Mr. STIRLING: I do not follow the figures of the break-down that the minister gave, because there seem to be so many omissions; for instance, all the subsidies on imported goods, tea, molasses, oranges and all those sorts of things.

Mr. GARDINER: Those are paid under the prices board in connection with consumers subsidies. These are only producers subsidies.

Mr. STIRLING: In the subsidies on domestic goods, besides those to which the minister has referred, there are eggs, groceries and things of that sort. Do they not come into this item of \$47,600,000?

Mr. GARDINER: No; we do not pay any subsidies on eggs, that I recall. There is the milk subsidy, again paid to consumers by the prices board. That does not come into this.

Mr. STIRLING: Maple products, rye, vegetables?

Mr. GARDINER: Of course the vegetables are in this, \$2,000,000.

Mr. STIRLING: Vegetables come in. Berries and jams and canning of produce, under canning?

Mr. GARDINER: Yes; canned vegetables, like peas, corn and so on.

Mr. STIRLING: The remainder of this return to the house comes under other items?

Mr. GARDINER: Yes.
