tonight awaiting further reports and In view of the president's last note to Germany, officials were able to place only one construction on the act of the German commander. It is plain, they say, that Germany no longer desires the riendship of the United States as she had every oportunity to know that American passengers were aboard the Arabic and no reason to believe that all would be saved.

That no American lives were lost of the 16 on the vessel is regarded merely as extremely fortunate and in no way of a palliating circumstance. Disayowal Only Loophole.
The only loophole by which the Germa The only loophole by which the German Government may escape the consequences of the deed of the submarine, officials say, is a complete disavowal of the act. This would necessarily predicate a disavowal also of the sinking of the Lusitania. It is not thought probable that the German Government will take this step in view of the certain hostility of the German people to such a course.

In some ways the Arabic case is regarded as even graver than that of the Lusitania, as in the latter the German Government was at least able to offer the argument that the ship was bearing ammunitions to be used against her army. Her refusal to disavow that act is regarded as a certain indication that she will take no such action in the case of the Arabic.

Furthermore, the Arabic was on its way to this country with a cargo which, it is believed in a large over the disavore in the cargo which, it is believed in a large over the disavore in the cargo which, it is believed in a large over the disavore in the cargo which, it is believed in a large over the disavore in the cargo which, it is believed in a large over the disavore in the cargo which, it is the contract the contract of the contract of the contract the contract of the con

One of the most exciting meetings ever held in the Fairbank district was that held in the Vaughan Road School last night. Thomas Wilcox occupied the chair. The proceedings opened with a complaint by R. Blackmore, a hardware dealer in the district, who stated that a lot of goods had been supplied to the school trustees without

calling for tenders.
School Trustee, J. Wilcox, said: "We gaye Mr. Burroughs the work of whitewashing the basement of the new school and the work being satisfactory we gave him other work, both at the Vaughan Road and Green School, without tendering, but with the consent of the board of trustees. The quotations

were very satisfactory."
Mr. Burroughs: "I gave all the orders for material to Mr. Blackmore and think he has no cause to complain.

reply that the contract price was

\$185.00 and the day labor estimate was \$37.70. "We had the work done by day labor." Wilcox described the imperfect tate of the drains and the sump holes. School Trustee, Duncan Hood, also took exception to the new drains, "They are not working properly and the new basements are in an unsanitary condition," he said.

E. Birch said: "They have worked properly for two years and have been put in perfectly and correct with pro-per falls." A member askel: "Are the drains properly passed by the inspector?"

J. Wilcox: "They were passed by the architects, and I think the architects

are to blame." School Trustee Hocking said: "We hold money of the architects, and we may make them pay the damages." The coal contracts were next discussed. H. J. Hill asked for the tenders on coal supplied to the school. Trustee Hocking said the Milne Coal Co. quoted \$5.50 per ton for smokeless lump coal, recommending this quality altho not specially asked for. Othe tenders were received from the Wychwood Coal Co. and the Fairbank Coal Co., who each quoted \$6.75 per ton. There is a good deal of under cur rent against the school trustees," said George Pryor. "They are doing their best in the interest of the people who
