

WOMAN CANDIDATE
IN FIRST WARD

Mrs. Mary Crockett Will Make a Strong Run for the Board of Education.

Three Present Members of Council Will Be Opposed by Five New Men for Election.

The candidature of eight men for aldermanic honors and two aspirants for the board of education, one of them a woman, was sufficient to fill the R. C. C. Hall, on Broadway avenue with an audience of fully 500 electors at the ward election last night. Without exception the candidates favored the construction of the Bloor street viaduct and stood opposed to Sunday schools. W. F. Summerhayes, the deputy returning officer, acted as chairman.

FOR ALDERMEN.

ALD. WILLIAM JOHN SAUNDERSON, 709 Logan avenue, manufacturer, nominated by Andrew Miller and Andrew Coulter.
ALD. WILLIAM DILLON ROBERTS, 533 Logan avenue, secretary, by John J. Lucas and William Noble.
ALD. ZEPHANIAH HILTON, 611 East Gerrard street, by T. J. Monaghan and Charles Headcock.
EX-CONT. WILLIAM PETTON HUBBARD, 292 Broadview avenue, by James H. Gandy and Edward Charles Rytty.
ALBERT EDWARD WALTON, 465 Broadview, by Dr. W. H. W. B. Waters and J. L. Monaghan.
W. B. ORR, 118 Balsam avenue, manufacturer, by C. H. Hilton and H. J. Dunlop.
FRANK BRINTON, 3 Greenwood avenue, broker and builder, by John G. H. and J. L. Monaghan.
THOMAS C. MATHESON, 123 Victoria street, engineer, by G. J. Daniels and J. L. Bathgate.

FOR BOARD OF EDUCATION.

TRUSTEE WILLIAM WESLEY HILTY, builder, nominated by Z. H. and T. J. Monaghan.
MRS. MARY COCKETT, 121 Prater street, widow, nominated by Dr. W. H. W. B. Waters and J. L. Monaghan.
ALD. ROBERTS said that while he had only been in the council for four and a half months, it was due in a great measure to his efforts that the civic duty had been put in operation before the close of the year. He strongly favored the building of the viaduct and considered the construction of the Bloor street viaduct of great importance in solving the transportation problem.

ALD. SAUNDERSON tackled the assessment bylaw from a new point of view. It was certainly not fair that the taxman should be forced to pay for improvements on his home. But it was not fair that capitalists should be exempt from taxes on their property. He declared also for the reduction of taxation of improved property. He came out strongly for the Bloor street viaduct.
C. A. Risk was strong for all the by-laws. The Bloor street viaduct should have been built long ago.
James H. Gandy said he could devote all his time to city business if elected. Dr. W. H. W. B. Waters commended the health department for its improvement of the milk supply. He will support all the by-laws.
Mr. W. H. W. B. Waters dwelt upon the great size and importance of Ward Two and the variety of its interests. He declared that the Bloor street viaduct was the greatest thing for Ward Two, but for the whole city.
William Baillie asked his hearers to vote for H. H. Ball, who he said, was a man who would do things.

Mr. W. H. W. B. Waters made a plea for more commissions in the management of the city's business. The hydro-electric commission and the harbor commission had proved a great success and should be followed by a parks commission and a transportation commission.
Mrs. Mary Crockett declared that a woman understood the needs of children better than men. She considered that a woman should be on the board.

A KITCHEN CONVENIENCE.

A table cupboard that proved an invaluable addition to the kitchen was made from an old store counter purchased for three dollars. It was placed within easy reach of the stove, with the open side against the wall. The top was covered with white oilcloth and lined with brass-headed nails. A shelf was put in to hold the dishes and boxes of baking material. Drawers were cut in front, on the inside, to hold cake-pans, spoons, egg-beaters and other articles used in baking. On the floor in the bottom of the cupboard stand large tin boxes holding flour and sugar. A towel rack across the end is made of a ten cent brass curtain rod. On the table itself stand the scales, bowls and pie board. A marble slab across one end would be a valuable addition.

This table cupboard holds all the materials and utensils needed for baking. It has a top large enough to be of use for the use of the following solution: Three parts of paraffin oil, thoroughly mixed. Soak cheesecloth in this and wring out well.

DUSTLESS DUSTERS.

Dusters that hold the dust instead of merely displacing it are considered necessary now. They are to be used in the shops, or may be had at home for the use of the following solution: Three parts of paraffin oil, thoroughly mixed. Soak cheesecloth in this and wring out well.

Conduces to the place as a material for walking slippers.

EIGHT CANDIDATES
IN SECOND WARD

Only One Nominee Declined to Run for Council—Two for School Board.

SHAW VERSUS LINDALA

Ald. Rowland is the Only Present Member to Remain in the Aldermanic Contest.

FOR ALDERMEN.

Ald. Henry Adams Rowland, 296 East Gerrard street, druggist, proposed by Charles Meech and seconded by Thomas Greer.
Charles Albert Beavis, 292 East Gerrard street, plumber and heating contractor, by Joseph Johnson and C. E. Coatsworth.
Herbert Henry Ball, 1817 Yonge street, journalist, by Frank Rowe and Hugh Menro.
Charles Albert Beavis, 292 Yonge street, by William H. Shaw and James J. Brown.
James Edward Henry, 27 Dundonald street, by Dr. D. A. Clark and F. W. B. Waters.
William Wallace Park, 51 Grenville street, manufacturer's agent, by James McGee and Charles Headcock.
Dr. Walter Fraser Byrnes, 291 Carlton street, physician, by J. F. M. Stewart and Charles A. McArthur.
Samuel Marley Wickett, 124 Isabella street, manufacturer, by Emerson Coatsworth and James Greer.

BOARD OF EDUCATION.

William Henry Shaw, 181 Crescent road, principal, proposed by Emerson Coatsworth and seconded by Charles H. Beavis.
James Lindala, 189 Peter street, tailor, by John C. Malcolm and John Kelly.

The candidates were allowed ten minutes to tell why they thought they were the best man for the job. **Ald. Rowland** asked election for the fourth time. He declared that the isolation hospital's record for the past year was not only the best, but he said that good work had been done in clearing up the slums of the central parts of the city.

Mr. H. H. Ball announced that he was a man looking for opportunities. He was not orthodox nor hidebound. He was in the city for the last time and considered the construction of the Bloor street viaduct of great importance in solving the transportation problem. **Ald. Saunderson** tackled the assessment bylaw from a new point of view. It was certainly not fair that the taxman should be forced to pay for improvements on his home. But it was not fair that capitalists should be exempt from taxes on their property. He declared also for the reduction of taxation of improved property. He came out strongly for the Bloor street viaduct.

THE WAYS OF THE RUSSIAN HOTELS

Arrangements of Even Most Modern Hostels Are Primitive to an Extreme.

Writing of the great Russian City of Odessa, Sydney Adamson tells of the somewhat primitive arrangements of even the modern hotels. For our ignorance of Russia we had the privilege of paying over twice the legal fare for our drive to the hotel. The porters obligingly arranged the matter, and quite cheerfully kept the difference. How like the rest of the world! We felt at home at once. The large, lofty bedrooms and corridors of the hotels make it just possible to live in rooms that have double windows sealed with putty, which are never opened from the beginning of winter till the spring thaw is in the air. As there are no open fires, the only ventilation is from the slightly better air of the corridors. A framed notice on the wall informs the visitor of all the privileges he is graciously permitted to pay extra for, among them the joy of being clean at the rate of ten copecks for a jug of hot water, or 50 copecks for a bath; the greatest mystery of all was a samovar at 25 copecks. In time it was discovered that the Russian samovar has a taste for much tea, or, rather, warm refreshment, rings for a lighted samovar, and prepares his own beverage, if he is not fortunate enough to possess a wife to do it for him. With the lady managing a fiery, fuming samovar, and her lord smoking innumerable cigarettes, with perhaps a visitor to help, one can easily imagine not forgetting the hermetically sealed windows—the atmosphere in which some worthy Russians go to bed.

Pass the Bylaws Urges the Mayor
Facilities Must Be Enlarged

TWELVE AFTER BOARD'S FOUR PLACES

Two "Jokers" Turn Up as Candidates for Controller—McCarthy is Out Again for Clean City—Ald. O'Neill's Stewardship Reviewed—Promises of Ex-Members.

The nominations for the board of control took place at the city hall yesterday. As was expected, in some quarters, the usual coterie of Joke candidates offered themselves for election. H. B. Noble wandered around the hall for upwards of half an hour, but could get no proposer or secondor for the mayoralty, and would have had no chance of coming before the electors. He was, however, a person suggested a compromise, that he run for the board of control. This he declined to do, and said that he would be allowed to talk first, after the mayor.

His Great Schemes. Mr. Noble is for doing away with strata, and for a city of one class. "I am the man who is going to reduce the high cost of living," declared he, "and if you don't want to pay for taxes, you must not want to live in the city of Toronto. I will also reduce your high rents, and give you all a home in the street cars. He would have the people spend \$100,000,000 in expropriating the Toronto Street Railway. He declared the slaughter of innocent babies thru vaccination.

The other candidates, not taken too seriously by the much amused audience, was Mr. Richard Woods, who would have Toronto get its water from Georgian Bay. He was a proponent of man, color, creed or nationality. He is not going to tent any hall, hold meetings, print any bills, join any societies, or do anything else, if elected, he is willing to "lose the line."

Controller's Church. Controller Thomas Langton Church said that he had ten minutes saying what sort of a man the mayor should be, rather than speaking in favor of his own candidacy. He claimed to be a member of the Industrial Farm, and was of the opinion that the Industrial Farm was one of the greatest civic improvements of the city. He was in favor of the by-laws, because unlike Controller Foster, he was sure that the city was getting better and better, and that the term as mayor will satisfy you that I can fill the position with satisfaction to you.

Vote for Bylaws. "Be sure and vote for the waterworks bylaws," he urged, "so that we will be able to enlarge the great facilities. Next year, the council will have to consider the necessity of extension of civic car lines because we have as much territory outside of the old city limits of 1891, within the limits of the present Greater Toronto. The people live in these places, and the city should serve with proper transportation."

Old and New Methods. A new transcontinental train, passengers are to be embarked to luxury. The air in the cars is automatically removed in the washing. If you are interested in the stock market, the latest method of getting news is to subscribe to the rain from Chicago. If you want your clothes pressed, there is a tailor to serve them for you. If you want a new hat, there is a hat maker to serve you. If you want a new suit, there is a tailor to serve you. If you want a new pair of shoes, there is a shoemaker to serve you. If you want a new pair of gloves, there is a glover to serve you. If you want a new pair of socks, there is a sock maker to serve you. If you want a new pair of underwear, there is a underwear maker to serve you. If you want a new pair of pajamas, there is a pajama maker to serve you. If you want a new pair of nightgowns, there is a nightgown maker to serve you. If you want a new pair of bathrobes, there is a bathrobe maker to serve you. If you want a new pair of slippers, there is a slipper maker to serve you. If you want a new pair of shoes, there is a shoemaker to serve you. If you want a new pair of gloves, there is a glover to serve you. If you want a new pair of socks, there is a sock maker to serve you. If you want a new pair of underwear, there is a underwear maker to serve you. If you want a new pair of pajamas, there is a pajama maker to serve you. If you want a new pair of nightgowns, there is a nightgown maker to serve you. If you want a new pair of bathrobes, there is a bathrobe maker to serve you. If you want a new pair of slippers, there is a slipper maker to serve you.

Must Limit Spending Money. Controller Foster was by no means in favor of the expenditure of money involved in the by-laws to be voted on by the people on January 1. He said the city's debt was already \$86,000,000. He drew attention to the fact that the city was unable to float bonds in England for \$8,000,000. "How then can we expect to float bonds for \$20,000,000 next year?" He strongly criticized the amount of money spent for the health department for transportation purposes and also that spent for the entertaining of so-called distinguished guests.

Ald. O'Neill's Stewardship. Ald. O'Neill gave a lengthy account of his stewardship during the four years he had been in the council. "No

List From Which Five Favorites Must Be Chosen

FOR MAYOR.
Herbert Noble, 1817 Yonge street, druggist, proposed by J. G. Willison, seconded by Stewart Lyon.
Thomas Greer, 292 East Gerrard street, plumber and heating contractor, proposed by Joseph Johnson and C. E. Coatsworth.
Herbert Henry Ball, 1817 Yonge street, journalist, proposed by Frank Rowe and Hugh Menro.
Charles Albert Beavis, 292 Yonge street, by William H. Shaw and James J. Brown.
James Edward Henry, 27 Dundonald street, by Dr. D. A. Clark and F. W. B. Waters.
William Wallace Park, 51 Grenville street, manufacturer's agent, by James McGee and Charles Headcock.
Dr. Walter Fraser Byrnes, 291 Carlton street, physician, by J. F. M. Stewart and Charles A. McArthur.
Samuel Marley Wickett, 124 Isabella street, manufacturer, by Emerson Coatsworth and James Greer.

FOR THE BOARD OF CONTROL

Thomas Langton Church, 405 Broadview, barrister-at-law, proposed by Emerson Coatsworth and seconded by William Lee.
Thomas Greer, 292 East Gerrard street, plumber and heating contractor, proposed by Joseph Johnson and C. E. Coatsworth.
Herbert Henry Ball, 1817 Yonge street, journalist, proposed by Frank Rowe and Hugh Menro.
Charles Albert Beavis, 292 Yonge street, by William H. Shaw and James J. Brown.
James Edward Henry, 27 Dundonald street, by Dr. D. A. Clark and F. W. B. Waters.
William Wallace Park, 51 Grenville street, manufacturer's agent, by James McGee and Charles Headcock.
Dr. Walter Fraser Byrnes, 291 Carlton street, physician, by J. F. M. Stewart and Charles A. McArthur.
Samuel Marley Wickett, 124 Isabella street, manufacturer, by Emerson Coatsworth and James Greer.

FOR BOARD OF EDUCATION.
William Henry Shaw, 181 Crescent road, principal, proposed by Emerson Coatsworth and seconded by Charles H. Beavis.
James Lindala, 189 Peter street, tailor, by John C. Malcolm and John Kelly.

other city in Canada comes up to the standard of Toronto, as far as the condition of public buildings is concerned, and it is no wonder to me that this is so. He claimed to be the father of the municipal abolition, and that he was the only man in the city who was not a member of the greatest value to the citizens and will keep out the trusts and give the smaller competitors a chance.

Mr. H. B. Noble is for doing away with strata, and for a city of one class. "I am the man who is going to reduce the high cost of living," declared he, "and if you don't want to pay for taxes, you must not want to live in the city of Toronto. I will also reduce your high rents, and give you all a home in the street cars. He would have the people spend \$100,000,000 in expropriating the Toronto Street Railway. He declared the slaughter of innocent babies thru vaccination.

The other candidates, not taken too seriously by the much amused audience, was Mr. Richard Woods, who would have Toronto get its water from Georgian Bay. He was a proponent of man, color, creed or nationality. He is not going to tent any hall, hold meetings, print any bills, join any societies, or do anything else, if elected, he is willing to "lose the line."

Controller's Church. Controller Thomas Langton Church said that he had ten minutes saying what sort of a man the mayor should be, rather than speaking in favor of his own candidacy. He claimed to be a member of the Industrial Farm, and was of the opinion that the Industrial Farm was one of the greatest civic improvements of the city. He was in favor of the by-laws, because unlike Controller Foster, he was sure that the city was getting better and better, and that the term as mayor will satisfy you that I can fill the position with satisfaction to you.

Vote for Bylaws. "Be sure and vote for the waterworks bylaws," he urged, "so that we will be able to enlarge the great facilities. Next year, the council will have to consider the necessity of extension of civic car lines because we have as much territory outside of the old city limits of 1891, within the limits of the present Greater Toronto. The people live in these places, and the city should serve with proper transportation."

Old and New Methods. A new transcontinental train, passengers are to be embarked to luxury. The air in the cars is automatically removed in the washing. If you are interested in the stock market, the latest method of getting news is to subscribe to the rain from Chicago. If you want your clothes pressed, there is a tailor to serve them for you. If you want a new hat, there is a hat maker to serve you. If you want a new suit, there is a tailor to serve you. If you want a new pair of shoes, there is a shoemaker to serve you. If you want a new pair of gloves, there is a glover to serve you. If you want a new pair of socks, there is a sock maker to serve you. If you want a new pair of underwear, there is a underwear maker to serve you. If you want a new pair of pajamas, there is a pajama maker to serve you. If you want a new pair of nightgowns, there is a nightgown maker to serve you. If you want a new pair of bathrobes, there is a bathrobe maker to serve you. If you want a new pair of slippers, there is a slipper maker to serve you.

Thomas Davies Insists on Running in Mayoralty "Race"—Hocken Urges That Electors Pass All the Waterworks Bylaws—More Civic Car Lines Next Year.

Mayor Hocken did not get in by acclamation as was expected, at the nomination meeting yesterday. At 10.45 a. m. City Treasurer Littlejohn stated that it looked like Hocken for mayor. After a short adjournment, at which Hocken, last night, at which Wm. J. Lee acted as returning officer. Each of the candidates was given ten minutes in which to state his platform, and made good use of his time. Louis Gurofsky and George Sheard were nominated for aldermen, but withdrew. The candidates:

FOR ALDERMEN.
Ald. Samuel McBride, 251 Palmerston boulevard, wholesale lumber merchant, proposed by Noel Marshall, seconded by Harry McKee.
Ald. Marmaduke Rawlinson, 32 Maple avenue, warehouseman, by F. W. Johnston, J. P., and Kenneth J. Ailshon.
Harry Winberg, 155 Beverley street, merchant, by A. B. Brown and Norman G. Heyd.
Duncan D. Reid, 38 Montgomery avenue, gentleman, by Wm. G. Ellis and E. J. Bonner.
George J. Castle, 323 St. George street, property owner, by S. W. McKee and W. J. Fickard.
David Bell, 702 Yonge street, grocer, by Frank Giles and F. W. Johnston, J. P.

FOR BOARD OF EDUCATION.
C. A. B. Brown, 47 Wellesley street, manager, by J. B. Miller and F. W. Johnston.
Abraham Nisnevitz, 38 Kensington avenue, real estate agent, by H. P. Hingst and H. D. Brown.
McBride Wants Viaduct. Ald. McBride, after rubbing it into the press as being a necessary evil, stated that he was in favor of all the by-laws, and especially "Billy" Maclean's Bloor street viaduct. Ald. Rawlinson said that the people of Ward Three had enough parks, but that these need repairing, and laying out so that the frequenters would be able to indulge in athletic pastimes.

Gradual Change. Duncan D. Reid hoped that the electors of Ward Three would allow North Toronto, recently annexed, at least one representative in the city council. He was in favor of a higher taxation of land values, and a lower taxation of improvements, he was in favor of a general shaking-up in the present system, but a gradual change. He referred to the tube system as the only practical means of solving the transportation problem.

Wanted Acclamation. C. A. B. Brown felt that he should have been returned to the board of education by acclamation. He thought that his past record entitled him to re-election.

With the Sages. A lighted lamp is a very small thing, it burns calmly and without noise, yet it gives light to all who are in the house. If you want a quiet influence which, like the flame of a scented lamp, fills many a home with light and fragrance—McCheyne.

CLOTHES MADE OF HAIR. The dear ambition of the woman of half a century ago was to possess a real Cashmere shawl. It was in France that the hair of the Cashmere goat was first esteemed for the making of shawls the silky substance of which, allied to their exquisite drapery possibilities, was their great fascination. White hair of the common Italian goat is imported for carpet manufacture. There is also imported white hair of the Siberian goat, the shorn ends of which are used in carpet making and the longer for various purposes. The most costly of all the white animal hairs imported is that of the camel. The camel is commonly of a dirty brown in color, but parts of its body may be white, as may be streaks in mane, neck, and tail. The camel's hair is of superior strength, and its fine white hair of sufficient length is used as a substitute for natural white human hair. The long curly hair of the Syrian goat is as fine as human hair, in place of which it is used for some special purposes, principally for the making of theatrical wigs and beards.

WHILE THE LONG WRAP IS ALWAYS IN GOOD FORM, there is seen many a lady with a jacket of velvet, plush, brocade or fur. Some of the feather, fur or lace neck ruffs have a touch of color introduced by means of ribbon roses.

Europe is showing much interest in hydro-aeroplanes. Vaccine with live bacilli is now administered to prevent typhoid fever. Russia is showing a marked preference for automobiles of American make.

There are two Chinese voters in Worcester, Mass. They are Democrats and were born in San Francisco.

Controllers should meet daily to keep in touch with the general conditions of the city. More attention should be paid to the housing problem in Toronto, and the council should remove from crowded houses, but other places of abode should be found for them. There is without doubt a place in the board of control for a representative of the laboring class. The usual apprenticeship as alderman, he has been a journalist for eight years and he feels that he has during this time learned much more with regard to the working of the board of control than an alderman would learn in two years' apprenticeship.

There are two Chinese voters in Worcester, Mass. They are Democrats and were born in San Francisco.

TEN CANDIDATES
IN THIRD WARD

McBride and Rawlinson Out for Re-Election, Favoring Bloor St. Viaduct and More Parks.

WORKINGMAN'S FRIEND

Abraham Nisnevitz is Opposing C. A. B. Brown for a Seat on the Board of Education.

FOR ALDERMEN.
Ald. Samuel McBride, 251 Palmerston boulevard, wholesale lumber merchant, proposed by Noel Marshall, seconded by Harry McKee.
Ald. Marmaduke Rawlinson, 32 Maple avenue, warehouseman, by F. W. Johnston, J. P., and Kenneth J. Ailshon.
