**A Second Crow's Nest**

Coal is actually today the greatest commodity of the world. With coal we run our mills and factories and our great railroads; with coal we propel our ships, provide our homes, and warm our homes; with coal we generate and produce electricity; with a few exceptions, where water power is available, but there are not very many places on the globe, however, with coal we produce iron, copper, lead, silver, gold, and all other metals that we need, and must have, because all of these metals are to be found mixed in with the rock and in the ore.

Without coal we could not make coke, and coke made from a certain kind of high-class bituminous coal is the only fuel yet known to man that produces a heat intense enough to melt ore and hard rock into a liquid, by which process we are enabled to extract the metals we need.

England would not be the great world power she is today if it was not for her inexhaustible supply of coal.

Coal is the basis of all industrial and commercial wealth.

The coal-mining industry in British Columbia has always been a great success. It is a great coal field like diamond-mining in South Africa—a bonanza of the first magnitude.

The great potential barrier of the Rockies splits out the eastern coal, leaving the coal-mining industry in British Columbia, and makes \$20,000 in a small tonnage from the State of Washington of a very inferior quality; in fact, so poor that the United States navy of the Pacific division got all of its supply from the Dunsmuir Coal Mines on Vancouver Island, and pay the duty on it, but neither the Washington nor the Vancouver Island coal is of any use for furnaces and smelters, because the coal from both of these places contains a great deal of sulphur, and does not make good smelter coke.

Nevertheless, Dunsmuir made millions after millions every year from mining coal, and died a few years ago the richest man in Canada. He made it all from coal, and his mines will be productive for generations to come, and are worth more today than thirty-five years ago, when first opened up.

**OPPORTUNITY.**

To see it, and grasp it in time, makes a man the master of his destiny. DO YOU WANT TO MAKE MONEY HONESTLY, AND LOTS OF IT? Would you like to become interested in a coal proposition in British Columbia, and make \$20,000 in three or four years from now on an investment of \$20,000? We offer you the opportunity to do this.

You have \$20,000, \$300,000 or \$1,000,000, whatever the case may be, in bank, drawing 2 per cent interest yearly. Does this satisfy you, when you can make many times double your money in one year in an investment like this we offer you?

THE CROW'S NEST COAL MINING is in fact, and as good as Government bonds. There are no "ifs" about coal-mining. There never was known a failure in coal in British Columbia, if quantity and quality and shipping facilities were assured, and the business was managed right and honestly.

The price of coal and its commercial value is always advancing from year to year, whereas the demand is increasing enormously every year.

Millions and millions of dollars have been made in coal-mining year after year by all those engaged in the business, and to prove this we refer to the statistics on hand for the year of 1925, where it is shown that the last year's production in the United States and Canada made the enormous profits of \$57,480,887 (over nine million dollars) more than the year before.

There is no field of investment more absolutely safe and profitable than coal-mining.

We now offer to the public 100,000 shares of the British Columbia Amalgamated Coal Company's trade stock, which is a very desirable investment.

**TWENTY-FIVE CENTS PER SHARE.**

The par value of this stock is one dollar, and is fully paid and non-assessable, and shareholders are exempt from personal liability. Once paid and secured it is yours forever.

This Amalgamated Coal Company controls 17,500 ACRES OF COAL LAND in Nicola Valley, B.C., and according to coal experts reports, this great area is underlain with inexhaustible quantities of high-class bituminous coal, the best for steam, blacksmithing and room heating, estimated to contain approximately 1,400,000,000 TONS OF COAL.

**TWO RAILROADS.**

(Great Northern), and the C.P.R. has already constructed and completed a line from Brenne's Bridge, on Thompson River, to Nicola Lake, a distance of about fifty miles, whereas the V. & E. are rushing the work as fast as money and labor can be had, and it is expected to reach Nicola by Christmas.

This is certainly a rare opportunity for the small investor. For \$250.00 you can now buy 1,000 shares of the Amalgamated Coal Company, which will give you a share in the \$250,000,000 of coal, and a dividend of \$10.00 a share (the Crow's Nest Coal Co. paid a dividend last year of \$10.00 a share). This is an illustration to you of the wealth to be made in coal stock.

Investors: The Crow's Nest stock was offered to the people in the year 1920 at ten cents a share, and is today worth over \$200.00 or \$200,000.00 a share. You can yet 1,000 shares of each of these great areas, which may be worth as much as the Crow's Nest is today if you hold it long enough. Do you realize what this means for you? That the British Columbia Amalgamated Coal Company's stock will reach in 1930 the value of \$100.00 a share, which may be worth as much as the Crow's Nest is today if you hold it long enough. Do you realize what this means for you? That the British Columbia Amalgamated Coal Company's stock will reach in 1930 the value of \$100.00 a share, which may be worth as much as the Crow's Nest is today if you hold it long enough.

Do not miss your neighbor for his advice, and your own judgment. It will soon be taken. Call early or write, and we will give you any further information that you may desire.

**BETTER THAN LIFE INSURANCE.**

A source of income that will last as long as you live. An asset that you can leave behind you for your friends and relatives. Have you a wife? A dear child, a sister, brother, or friend, whose welfare you have at heart? If so, why not invest \$250, \$500 or \$1,000, or more, in this coal stock and get a certificate issued in their names; that will give them an income for life.

**TWO YEARS FROM NOW**

the stock should begin to pay handsome dividends, and in another year or two may have a cash valuation on the market from the dividends if then will pay of at least \$100.00 per share. This is the way of making money and conserving business judgment, and on well-tried laws of natural growth. It is quite safe to say that when the Amalgamated Coal Company shall have fully equipped its four properties in the Cold Water River, Nicola Valley, B.C., and made a market for its product, and can produce coal and coke on a large scale, which may require six to seven years to accomplish (taking the Crow's Nest Coal Co. as an example), it will have secured a ready market for its product, and the dividends it then will pay, \$100.00 per share.

Opportunity knocks once at every man's door. To see it and grasp it in time is the keynote to success in life. This is meant for you. This is your greatest opportunity.

Fathers, mothers and guardians, who have the welfare of your children at heart, should provide for their future needs, write us for information, and investigate our proposition carefully. You will thank us later for the advice given. We coal and of the coke, and the assays of the coal from Government officials and other authorities.

**RECOMMENDED BY BANKERS AND MERCHANTS.**

is the safest and best investment on the market today which is being offered to the public at large. The want of money means to get interested in this great enterprise, and to get in now, on its first inception.

Remember, for \$250.00 you will get one thousand shares of Amalgamated Coal, which will secure you and your family a source of income, and may make you independently rich. Remember, 1,000 shares of Crow's Nest Coal is today worth \$250.00, and brings a yearly revenue of over \$100,000.00.

**PROTECTION TO SMALL SHAREHOLDERS IS SECURED BY THE LAWS OF BRITISH COLUMBIA.**

Under British Columbia laws, every Coal Company mining for coal and all of that country must deposit with the Finance, a certificate of incorporation, in other words, the company has to register under the laws of British Columbia, and its name must be in the public records of the Province, and produce coal, and their books are subject to inspection every three months by the Government agent, to whom a sworn statement must be made, and a tax of five cents per ton must be paid for every ton of coal mined. This protects the small stockholders, as everyone interested, whether he may be the owner of 10,000 shares or only 100 shares, has the right to know at all times just what the company is doing, and there is no possible way of the Company adopting, with any success, a "freeze-out" game. The Government being an interested party, much greater protection is afforded the small investor than in any other country.

We cordially invite you to call at our office, Nos. 61-63 Confederation Life Building, Toronto. If you cannot, please write us, and we will mail you our prospectus, reports, maps, etc., that will give you all information you may desire.

**WEAK MEN DO YOU WANT TO BE STRONG?**

To feel as vigorous as you were before you lost your strength? To enjoy life again? To get up in the morning refreshed by sleep, and not more tired than when you went to bed? To have no weakness in the back, or "come-and-go" pains? To dispel nervousness or constipation? To know that your strength is not slipping away? To once more have bright eyes, healthy color in your cheeks, and be confident that what others can do is not impossible to you? In short, do you want to be healthy, strong and vigorous? I can make you all this, because I have done it for others.

**Dr. McLaughlin's Electric Belt**

has restored health and strength to thousands of weak people. If you use it as I direct it is a positive cure and cannot fail. It gives the vitalizing power of electricity, without burning or blistering, to every weakened part, developing the full vigor of manhood. It removes all the effects of dissipation forever. I want every weak person who is not what he should be to wear one of my Belts, and when cured, tell all his friends of its wonderful effects. My Belt is also an absolute remedy for Nervous Debility, Backache, Rheumatism, Stomach, Liver, Kidney and Bladder troubles. It is arranged for women as well as men, and cures female weakness.

MR. H. F. STENBAUGH, 216 King Street East, Hamilton, Ont., says: "I can heartily recommend your Belt to anyone who has any of the above ailments."  
"Dear Sir, I have worn your Belt for two months steady, and must say that it has done me an awful lot of good. I am well satisfied with the Belt, and I have found what you said. I believe your Belt to be the best of all the medicine that I have ever used. Waiting your every success, I remain, yours, very truly, WILLIAM BYERS, Nipissing, Ont."

If you are skeptical, all I ask is reasonable security for the price of the Belt, and

**IT COSTS YOU NOTHING UNTIL CURED.**

It's as good for women as for men. Worn while you sleep, it causes no trouble. You feel the gentle heat from it constantly, but no stinging, no burning, as in old-style belts.

**READ WITH CARE.** DR. McLAUGHLIN'S ELECTRIC BELT is positively the only Electric Belt offered to the public where you have a regular physician in attendance. You have his advice and consultation FREE before you buy. Call to get my Belt free, or if you can't do that, send for my book about it, also free. Don't delay, as I can help you only while I live. My Belt is not sold in drug stores.  
Now, if you suffer, do not lay this aside and say you will try it later. Act today—NOW.

**DR. M. G. McLAUGHLIN, 112 Yonge Street, Toronto, Canada.**

**WEAK MEN DO YOU WANT TO BE STRONG?**

To feel as vigorous as you were before you lost your strength? To enjoy life again? To get up in the morning refreshed by sleep, and not more tired than when you went to bed? To have no weakness in the back, or "come-and-go" pains? To dispel nervousness or constipation? To know that your strength is not slipping away? To once more have bright eyes, healthy color in your cheeks, and be confident that what others can do is not impossible to you? In short, do you want to be healthy, strong and vigorous? I can make you all this, because I have done it for others.

**Dr. McLaughlin's Electric Belt**

has restored health and strength to thousands of weak people. If you use it as I direct it is a positive cure and cannot fail. It gives the vitalizing power of electricity, without burning or blistering, to every weakened part, developing the full vigor of manhood. It removes all the effects of dissipation forever. I want every weak person who is not what he should be to wear one of my Belts, and when cured, tell all his friends of its wonderful effects. My Belt is also an absolute remedy for Nervous Debility, Backache, Rheumatism, Stomach, Liver, Kidney and Bladder troubles. It is arranged for women as well as men, and cures female weakness.

MR. H. F. STENBAUGH, 216 King Street East, Hamilton, Ont., says: "I can heartily recommend your Belt to anyone who has any of the above ailments."  
"Dear Sir, I have worn your Belt for two months steady, and must say that it has done me an awful lot of good. I am well satisfied with the Belt, and I have found what you said. I believe your Belt to be the best of all the medicine that I have ever used. Waiting your every success, I remain, yours, very truly, WILLIAM BYERS, Nipissing, Ont."

If you are skeptical, all I ask is reasonable security for the price of the Belt, and
