MAKING CHARACTER. What the Y.M.C.A. Stands for-The

Predilections of Its General Secretaries.

Thomas Longboat ran at Boston as member of the Toronto West Young Men's Christian Association. His sensational achievement in breaking the world's record for the distance naturally draws attention to the organization whose colors he bore to victory. of course, there is need in dwell-ing on the general objects of the Y. M. C. A. save to say that athletics is not cultivated more than the intellectual and moral side of the young man. The main desire of the organization is to make young men that will stand the strain, young men with a charac ter rather than a reputation. The general secretaries usually are fond of men of this type, and their fondness often extends to household articles. For example, when the secretary of the Victoria Y.M.C.A. wanted a piano some three years ago he bought a Gourlay. He was looking for char-acter rather than reputation, for then the Gourlay was not well known. Now however, it has both character and reputation. The instrument has been so thoroly satisfying that he recommended his board to purchase a Gourlay, when nineteen other instruments were under the notice of the directors. & Leeming received the following let-

IN HIGH PARK.

Editor World: I spent some hours of last Sunday in High Park, a pleasure ground of which our citizens are justly proud. In my opinion, no other city in the world would permit autoobiles the freedom of every roadway in the entire area. Whilst it might be considered arbitrary to shut these dust-and-hair-raising machines out of the park altogether, they should be restricted to the main road between the entrances near Supryside, at Bloor-street and on the east side. That part of the park where the swings are situated, and around the old Howard homestead, at least, should be preserved to pedestrians, because it him:
