A RED-LETTER EVENT.
The greatest industrial project ever launched in Canada is undoubtedly the formation of the Dominion Steel Company. The organization of a substantial company, with a capitalization of \$15,000,000, for the production of iron and steel, will advertise Canada to the world in a way she has never been advertised before. In addition to this enormous capital the company propose to issue bonds to the extent of \$5,000,000. The investing public has confidence in the project itself and in the gentlemen who are at the head of it may be gathered from the fact that the capital and bonds have been underwritten three times over. United States capitalists are largely interested in the company—a circumstance which tends to show that they recognize Canada's ability to compete with their own country in the manufacture of iron and steel. The United States easily leads the world as a producer of iron, but for the economical production and distribution of iron and steel no place on the American Continent can compare with Sydney, C.B. This is indeed a red letter event in the history of Canada, and of the Empire. Great Britain may be losing her grip on the iron industry, but Canada has just made a start in the business, and the prospects are that she will make up more than ten times over what she has lost in the iron industry. Canada will more than maintain the position that Great Britain, as the head and front of the British Empire, relatively occupies towards the United States, not only in iron and steel, but in all other industries, in population and in wealth. The expansion of Canadian industries ought to be, as it undoubtedly is, the source of no little satisfaction to the Mother Country, but we are sorry to see that it is the capitalists of the United States instead of those of Great Britain who are helping Canada in the development of this as well as of other great industries. We trust that Englishmen will soon waken up to the possibilities of the Dominion, and come over here and take a hand in its development.

TWO-CENT POSTAGE A SUCCESS.
It will undoubtedly be found, after a year or two's trial, that a two-cent rate for letters will produce as large a revenue as the former two-cent rate. The reduced rate has already exceeded the estimate of the Postmaster-General, and the probabilities are that the deficit caused by the reduction will be completely wiped out in the course of a couple of years. If the Government controlled the railways in the United States and in this country we would see this have had a uniform rate of two cents a mile, perhaps less. A two-cent rate on the railways would produce as large a revenue as three cents. The happy experience of the United States postoffice with the two-cent letter rate has been repeated in the case of the adoption of a two-cent-a-mile rate by the railways. In regard to telephone, electric light, gas and other public services, we have by no means reached the lowest rate that is consistent with fair dividends to the shareholders. A big reduction could be made in all these services without unduly affecting the pecuniary interests of any shareholder. The Consumers' Gas Company could sell gas at 7c, and still pay 10c per cent. dividends with the regularity of clock work. The electric light companies have not yet reached the rate that will bring them in the greatest revenue and the largest profits, and the same may be said of the telephone companies. These services, however, are not directly interested in giving the people the cheapest service. It is only in such services as are controlled by the public that the people get the benefit of low-level rates. We have such a rate in our water service, although even here a still further reduction may be made.

MR. MANNING'S WILL.
We do not know that the Council should give much heed to the will that Mr. Manning has raised in opposition to the proposed extension of the Victoria street. The absence of such an objection to the rate of taxation kept down as low as possible. His interests as a landlord are not the same as those of the people at large as merchants and wage earners. Nothing would do so much good to Toronto as the building of a new hotel. The absence of such an objection to the rate of taxation kept down as low as possible. His interests as a landlord are not the same as those of the people at large as merchants and wage earners. Nothing would do so much good to Toronto as the building of a new hotel.

BRANTFORD'S VACANT CHAIR.
Messrs. Elliott and Cockshutt Will Struggle for the Majority.
Brantford, June 26.—The vacant chair, formerly occupied by Mr. Raymond, will be filled by either Mr. Thomas Elliott or Mr. Harry Cockshutt. Politically the candidates nominated this morning are both Conservatives. Mr. Elliott's nomination creates an awkward vacancy in Ward No. 6, and nominations therefore place also this morning. No less than eight aspirants faced the nominating officer, and they are: Hiram T. Westbrook, Dr. Fay, Dr. J. Monahan, John Mann, Robert C. Robinson, J. W. Bowley, Frank Wilson and James Waterhouse.

Died From Burns.
Six months ago, Martha Bruner, aged 10, was burned by a fire at her home at Armstrong, Muskoka, when a lighted chip drew up and lodged in her hand and arm. She was terribly burned about the head, neck and shoulders. For five months the young girl lay in the rude hospital at Armstrong, where she was gradually getting worse. A month ago she was brought to the Sick Children's Hospital, where she died yesterday. The cause of death was diphtheria and was put in the isolation ward. The months of suffering greatly weakened her and death resulted. The funeral took place on Saturday.

Two Circus Employes are also under arrest on this charge, and they will be held until the local police communicate with the authorities at Peterboro. The circus manager registered at police headquarters as Edward Sullivan, Holyoke, Mass., and Frank Johnson, Woburn, Mass. The manager of the circus received word yesterday that these two men had been concerned on Saturday night at Peterboro in the theft of a tame rat and a couple of birds from an hotel. When the circus manager intended to add the pets to the circus menagerie is not known, but the manager, on receiving the news, sent for the men, and they were arrested. After receiving their pay they were taken in charge by Precinct Detective Forrest.

Heavy Seizure of Liquor.
The liquor law must be pretty well respected over the Don on Sunday, for it fell on William White to think out a plan to provide for the crowd that went down to the tented grounds last Sunday after the circus arrived in the city. White arranged to have a good supply of lager and ale on hand, as will be seen by the extent of the seizure made by the police. White had a temporary bar in the basement of 644 East Queen-street, and a rear entrance was made to the circus grounds. He did a thriving business all day, and in the evening, up to the time Constable Childs received information of what was going on. The policeman notified Patrol Sergeant Dilworth, and additional aid was secured in Constable Ironsides. The three went together to the place, and took charge of everything in the basement. The seizure consisted of 13 four-gallon kegs of lager and five dozen of ale. The captives found were seven kegs and 11 dozen bottles. White took the matter good naturedly, and actually helped the officers to place the stuff in the patrol wagon. He said to Sergeant Dilworth afterwards: "Those Yankees take a lot of money out of the city, and I just wanted to get a little of it. White had an assistant in William Allen of 634 East Gerrard-street, who will follow.

Other Police Will Follow.
William McKay, an inmate of the Industrial School, escaped from that institution yesterday. He was recaptured by Constable Umbach last night, and locked up at No. 3.

WAS QUIET FOR CIRCUS DAY.
The Usual Band of Pickpockets Did Not Turn Up in Toronto as in Other Years.
ONLY ONE SUSPECT TAKEN IN.

A Couple of Ex-Attaches of the Big Show are in Custody on a Peterboro Charge.
Circus day in Toronto was comparatively quiet in police circles. The authorities did everything in their power to render protection to the large crowds that went to the old baseball grounds, both afternoon and evening. Generally when a driver arrives the detectives look for a large influx of crooks and pickpockets, but yesterday they were disappointed, for up to a late hour last night there were no reports of the operations of the light-fingered gang. Only one suspicious character was taken in charge, and he was sent to the station house. The prisoner is Robert G. Johnston, and he claims he hails from the large State of Michigan. He is held on the broad charge of vagrancy.
