JAMES J. QUINN AT REST.

One of the Largest Funerals Ever Held in Toronto—Hundreds of Mourning Friends.

Hundreds of citizens, prominent in many walks of life, followed the funeral yesterday morning of the late James J. Quinn, proprietor of the Clarence Hotel, who died very suddenly from the results of a paralytic stroke.

The casket was placed in the parlor of the deceased's late residence at 32 West King-street, where nearly 1000 people passed in to take a last look. At 9 o'clock the funeral started, proceeding to St. Michael's Cathedral, where the remains were carried to the altar.

A solemn high mass was celebrated by Rev. Father Tracy, assisted by several other priests. At the conclusion of the services the procession re-formed, and proceeded to the grave, where Rev. Father Tracy conducted the last sad rites. The funeral was one of the largest that ever took place in Toronto.

Over 200 carriages were in line, containing nearly 900 friends. The carriage carried the casket, which was very ornate and very pretty. The floral offerings were sent from the Liederkreis Club, pillow from father and sisters of deceased, with inscription, "In memory of James J. Quinn, Harry and J. Thayer, wreath from the Toronto Hotelkeepers' Association, wreath from Messrs. Eugene O'Keefe and J. M. Hawke, flowers from Mr. and Mrs. E. Garratt, Anchor from Commodore and officers of the Queen City Yacht Club, cross from the Executive Council of the Canadian Order of Goldfellow, wreath from Mrs. E. B. Clancy, wreath from Mr. and Mrs. Williams, wreath from Mr. Thomas Wandell, wreath from Mrs. M. J. B. Clancy, wreath from Mr. and Mrs. Thomas Barkworth, and thymus wheel with broken hub from Messrs. J. Hare, D. Jacques, J. Hare, and J. J. McCaffrey. The chief mourners were Messrs. J. B. Quinn, father of deceased, James Heaton, uncle, and B. Routh, brother-in-law. Among those present were: Messrs. Eugene O'Keefe, Charles Mead, Robert Bond and Dr. Quinn of Brantford.

Telegrams, extending condolence, were received from London, Ontario, in Montreal, Chicago, Detroit, New York, Kingston, Hamilton, Stratford and numerous other places. Deceased leaves, besides a father, three sisters. They are: Mrs. R. Routh, Toronto; Mrs. George Spalden, New York; and Miss Louise Quinn of Toronto.

BEAUCHE BRIGGS WAS ADMITTED

Dr. De Costa Has Resigned from the Episcopal Priesthood.

New York, Oct. 10.—An interview is published with Rev. Dr. R. E. De Costa, the Episcopal clergyman who has just resigned from the priesthood on account of the admission of Dr. Charles A. Briggs as a minister of the church. Dr. De Costa says: Now that the diocesan convention has passed, and the Bishop, so far as I am concerned, has met with its defeat, I have concluded that it would be quite as well to drop out of the Episcopal ministry altogether. To my mind, unless the unexpected comes to pass, the poor future of the Episcopal movement must be considered as clear. Notwithstanding the effort to gloss the matter over, the action of the diocesan convention is one of the signs of the times. The Episcopal church has made a new departure and I cannot go along with it. Consistency requires my repudiation of the whole scheme; and I think I have adopted the best method. I prefer the faith I learned at my mother's knee to the inventions of schoolists. If any of my old friends are grieved I shall feel very sorry.

A WOMAN CUT TO PIECES. SAAC O'DEA, DROWNING HERO.

New York Has Another Murder Mystery Somewhat After the Fashion of the Golden Supper Case.

SAAC O'DEA, DROWNING HERO. Saved James O'Dea from Drowning and Has Received the Humane Society Medal.

POLICE AUTHORITIES MYSTIFIED. Portions of the Body Were Found in Different Places, but the Pieces Fit Together.

New York, Oct. 10.—Interest in the murder mystery growing out of the finding of the left thigh of a woman's body in West 17th-street Saturday was greatly increased today by the recovery this morning of a part of a woman's body, from a waist line to the neck. It was found on the beach near the quarantine station by a boy picking up driftwood. Twice was tied around the neck, which had been cut through, and only a short time. Pieces of manila paper and newspaper clung to the string.

Head Was Hacked Off. The portion of the body was taken to the police station. Dr. A. H. Doty, state health officer, made an examination. He said the woman had never been a mother. The head had been hacked off, and the neck had been clumsily severed from the shoulders. Over the right breast was a cut two inches long, and had probably been made when the body was cut into pieces.

Taken to the Morgue. The police later in the day brought the portion of the body to police headquarters. It was taken to the morgue for comparison with the parts of a woman's body already there. The part of the body missing are the head, the arms, the legs from above the knees down and the right hand, which was found, but parted off to the city dumps. A name that looks like "J. T. Neumann" and the number "158," were discovered this morning on a white skirt in a bundle of clothing found in the water about 100 yards away from the spot. He died for the boy repeated and if there was any doubt brought the body to the surface. Medical aid had been telephoned for, and a doctor arrived on the scene in about fifteen minutes. The body was brought ashore. The usual remedies were applied, and, in spite of the fact that the boy had been in the water only five minutes, and was apparently dead, he was brought back again to life. The witness young O'Dea, who had saved him from his bravery and presence of mind.

NEWFOUNDLAND IS BOOMING.

Mr. R. G. Reid Returns to Manitoba—He Will Put Seven Clyde Steamships on His Service.

Montreal Gazette: Mr. R. G. Reid has just returned from Newfoundland, accompanied by Mrs. and Miss Reid, the gentleman whose wonderful energy has brought the east and west coasts of the colony so closely together, and who, with his own hands, has developed the great mineral resources of the country, was seen yesterday at his residence on Drummond-street, and if there was any doubt as to the truth of the report, it was cleared up in the first place Mr. Reid's many friends in Montreal, who are anxious to hear of his return to the city in good health. His visit to Newfoundland was a very successful one, and he says that everything in connection with the railway is moving rapidly. He will, he says, put seven first-class Clyde-built steamships on his service. The Clyde-built steamships, which are to be run in connection with the Newfoundland Railway. The fleet, when completed, will be ready to start on the 1st of November. Mr. Reid says that his son, Mr. Harry Reid, is now in the Old Country, and that he is very anxious to see him. Mr. Reid says that his son, Mr. Harry Reid, is now in the Old Country, and that he is very anxious to see him.

A Complete Mystery.

Chief of Detectives McNeilly said this morning that the case was as complete a mystery as ever; that no point which would go toward establishing identification had been made, and that was the first thing necessary. It was true, he said, that a number of clues had been run down, but the case stands just as it did at the first finding of the body. The fragments of the body found at quarantine were examined at the morgue by coroner's physician Gordon, who said he undoubtedly belongs with the other two portions there. He says they fit exactly.

Young Woman Strangled.

London, Oct. 10.—The Daily Chronicle, referring to troops to aid the Mother Country in the event of hostilities in South Africa, says "behind the generous impulsive policy of Canada we see the face of that unscrupulous politician, Sir Charles Tupper." The St. James Gazette this afternoon, commenting on the above, retorts "there never was a more disgraceful insinuation. We hope it will recoil upon the head of the audacious, slanderous journalist who made it."

Enormous Bread Sales

The citizens of Toronto will be interested to know to what size I have extended the output of the Model Bakery.

During September, 1898, I baked and sold 123,989 large loaves.

During September, 1899, I baked and sold 231,722 large loaves.

This means that 700,000 lbs. of bread, or 350 tons of Weston's bread, was consumed by the people of the city and adjacent towns during September alone.

One man will eat a small loaf per day on the average. It would take him 127,644 years to consume the amount of Weston's bread the people ate in the 29 days of September. Write for trial loaf. We can please all.
