JAMES THORBURN.

## Thirty-Second Annual Report Of the Directors of the

# Imperial Loan and Investment Co.

OF CANADA.

The thirty-second annual meeting of the Shareholders of the Imperial Loan and Investment Company of Canada was held at the offices of the Company on Monday, the 4th day of February, 1901, for the purpose of receiving the Directors' Report for the 4th day of February, 1801, for the purpose of receiving the Directors Report for the year ending 31st December, 1900, and electing Directors for the current year.

Among the Shareholders present were: John Aitkin, C. C. Baines, R. B. Beaumont, D. A. Burns, B. Cumberland, C. C. Dalton, H. D. Gamble, E. H. Kertland, D. Lamb, H. M. Pellatt, Geo. Robson, J. G. Ridout, James Sykes, B. Saunders, Alex. Smith, Henry Swan, James Thorburn, R. S. Wood.

	DIRECTORS REPORT.
,	The Directors have pleasure in presenting to the Shareholders the audited statement of the Company's affairs for the year ending 31st December, 1900.
	The gross earnings for the year amount to \$81,129 34
	Leaving (after deducting interest on bonds and deposits, commissions, municipal tax, cost of management and all incidental expenses) a net profit of \$40.023 57 Dividends for the year amount to
	Leaving a surplus of \$ 3,304 02
	Which has been carried to the credit of Contingent Fund, which now stands (after charging it with all losses ascertained during the year) at.\$ 13,425 30 The Reserve Fund continues unchanged
	Owing to the very unusual amount of wet weather during the fall of last year in Manitoba, whereby the crop was severely injured, the receipts from that province have not been so large as usual: nevertheless the receipts on the whole have been your satisfactory, and your Directors have much pleasure in again stating that the amount of cash received on interest account this year has been more than sufficient to meet all claims.
	All CMIIIIS.

E. H. KERTLAND,

Managing Director.

### AUDITORS' REPORT.

To the President and Directors of the Imperial Loan and Investment Company of Dear Sirs,-We have carefully examined the books, accounts and affairs of your

Company for the year ending December 31st, 1900, and beg to say that we have found them to be correctly kept. The statement of assets and liabilities as stated above is correct. We have also examined the securities and have found them in Toronto, 18th January, 1901.

On motion of C. C. Dalton, seconded by D. Lamb, Dr. Thorburn was moved to the chair and Dr. Kertland to the position of Secretary to the meeting. The notice calling the meeting was then read by the Secretary, and the President read the Directors' Report and Statement.

In moving the adoption of the report the President said: Gentlemen, Before proceeding to the husiness of the day, 't is my painful duty to refer to the great loss which the British nation, and in fact the whole world, has sustained in the death of our beloved Queen Victoria, a sovereign who loved everything which tended to promote the happiness and welfare of her people-a good nan, a faithful wife, a gentle mother and one who cultivated that righteousness

I have now much pleasure in moving the adoption of the report, a copy of which has been in the hands of each individual Shareholder for the last week. After paying all expenses of every kind for the year, including two half-yearly dividends at the rate of five per cent. per annum each, we have a surplus of \$3,304.02, which your Directors have ordered to be carried to the Contingent Fund, which now, after taking off all losses incurred during the year, amounts to \$13,425.39-your reserve fund remaining undiminished at \$160,000.00-the amount reached in 1894, and when we consider the severe financial depression of the years from that date to 1900 I think we have good cause to congratulate ourselves on this very satisfactory

We have still a considerable amount of property on our hands, from which, how ever, we are deriving a very satisfactory rate of interest, and we have not one acre of unproductive farm property in Ontario, and the total value of all other unproductive property on our hands does not exceed \$60,000.00.

In the Province of Manitoba the combined drought of last spring and the unprecedented continuance of heavy rains during the threshing season have so injured the crop as to materially affect the amount of interest received from that province. Nevertheless we are happy to affirm, as stated before, that the total amount of interest received this year has been more than sufficient to meet all claims.

I cannot close these remarks without a gain testifying to the efficiency and zeal of our entire staff, and, especially, thanking the Auditors for the thoroughness with which they have scrutinized the financial condition of the Company. It affords me also a great deal of pleasure to thank our most efficient agents. Messrs. Torrie, Brodie & Maclagan, Edinburgh, for their continued interest in the

success of the Company. The motion for the adoption of the report was seconded by Alderman Lamb, who spoke in very strong terms as to the prosperity and stability of the Company. The

otion for the adoption was carried unanimously. Moved by B. Saunders, seconded by R. B. Beaumont: That the thanks of the Shareholders are due and are hereby tendered to the President, Vice-President and Directors for their services during the year, and that the sum of \$1,500,00 be paid them for their services, to be divided among them as they may decide. - Carried. Moved by J. G. Ridout, seconded by Alex. Smith: That Messrs. T. E. P. Trew and J. C. Copp be paid \$200 each for their services during the past year, and that they

be re-appointed as Auditors for the current year. Moved by H. Swan, seconded by D. Lamb: That a poll be now opened for the election of Directors, and that the same be closed whenever five minutes shall have clapsed without a vote having been entered, and that Mr. B. Saunders and Mr. Alex. Smith be scrutineers, and that they shall hand the result to the Manager, and that they be paid the sum of \$4.00 each for their services. Carried.

ELECTION OF DIRECTORS. The ecrutineers handed to the Manager the following names as the result of the vote for the election of Directors for the current year: Dr. Thorburn, Ald.

Daniel Lamb, Richard Shaw-Wood (London), E. H. Kertland, C. C. Dalton, H. M. Pellatt, Henry Swan.

### At a subsequent meeting of the Directors-Dr. E. H. Kertland in the chair-James Thorburn, M.D., was re-elected President, and Daniel Lamb, Esq., Vice-President for the current year.

### Notice to the Public.

dian Railway Accident Insurance Company at Toronto, policy-holders and others interested are hereby notified that all matters connected with the company's business in Toronto are to be referred to him as our official representative in this city. Mr. Macdonald will be found at his office, 44 Victoria-street, and we solicit for him a continuance of the public patronage, MR. RALPH C. RIPLEY has been appointed special agent and inspector of the company for Western Ontario.

TREASURER'S \$3000 BALANCE.

Important Resolutions Adopted-Officers and Directors Elected

for the Year. The annual meeting of the Canadian Horse Breeders' Association was held yes terday at the Albion Hotel, Dr. A. Smith being in the chair and these gentlemen present: Robert Miller, Thomas Graham, H N. Crossley, Adam Beck, W. E. Wellington, George Pepper, Dr. Gallanough, Rob-ert Bond, F. Richardson, D. McCrae, William Hendrie, jr., Henry Wade, W. A. Clements, Asa Choate, William Hendrie, ar., Dr. Quin, Brampton, Alex Innes, H. J. P. Good, W. L. Smith

The reports were most satisfying, especially that of the treasurer. The secretary's report showed the association to have had a successful year. The dealing in horses had greatly improved, the prices obtained being much higher than in former years. Last year a new class, the military, came in, and has increased the interest in this kind of breeding. Another feature brought out was the utility of our horses in South Africa. This is most gratifying to breeders. The treasurer's report showed a balance of practically \$3000 to the good.

These resolutions were carried:

"That this association, desiring to advance the best interests of horse breeding thruout the country, hereby authorize the directors to offer premiums to encourage the placing of the best stallions in different districts of Ontario where breeders guarantee a sufficient sum for their services; the details and grant to be determined by the directore, the gross sum not to exceed \$500." liam Hendrie, jr., Henry Wade, W. QUEEN AND KING.

Life, Death, Funeral and Acces-

After the admirable way in which The and funeral of the Queen and the accession of the King, there naturally grew in the minds of the public a desire for a special issue of The Star, covering all the events, o enable Canadians to send some suitable ento of them to friends at a distance, and to keep on record at home. The pub-lishers of The Montreal Star have yielded to the demand, and, collating all the records of most interesting form, have published of most interesting form, have published a Memorial Number of The Star, which is an issue with extraordinary interest, and for which there has sprung up an enormous demand. Nobody can turn over its pages, containing some sixty-odd illustrations, without feeling what a really valuable record and memento it is. The letters addressed to The Star by prominent people of the American Continent are alone a sufficient raison d'etre for publishing this memorial number. When it was known that each copy of The Star was to contain a copy on special paper of that wonderously beautiful picture of the Queen, entitled "Her Last Portrait, 1900," the demand for the memorial Star rose to enormous figures.

The World had the pleasure yesterday of risiting the large store of Philip Jamieson t the corner of Yonge and Queen-streets it was again a blaze of red, red are lights red-coated salespeople and red decorations, making a picture seldom attempted as a setting for a sale, being the occasion of the opening of the annual Red Letter Sale. Mr. Jamieson personally supervised all the preparations, and the result is the natural outcome of his untiring energy. He ex-plained that every February they had this Red Letter Sale for the purpose of clearing out all winter stocks which may be en hand, as they make it a rule at the Rounded Corner never to carry over any stock from one season to another, and they mark the goods down to such prices as will in-sure clearing them out. During this sale ish, no matter what the loss. For instance they are selling men's fine beaver over coats that were \$7.50 and \$10 for \$4.98 prices that are positively a temptation to frugal mothers who love to get a bargain. Trigal mothers who love to get a bargain. Then they have marked their 75c pure lamb's wool underwear for 45c, fine hoots that were selling for \$5.56 and \$4 for \$2.50, and other 'lines in proportion, with boys' boots as low as 69c per pair; in fact. everything a man or boy wears can b bought during this great sale for a mere triffe. Therefore, we say get your share of the bargains, and to make your shopping leasant there are orchestral selections very afternoon and on Saturday evenings.

No lover of oriental art should fail to attend the gigantic auction sale of Turkish and Persian rugs, embroideries, eastern and Persian rugs, embroideries, eastern furniture, etc., that takes place commencing next Tuesday afternoon at 2.30, at No. 191 Youge-street (opposite Eaton's), when Mr. L. Babayan, the great rug collector,

A visit to the Jamieson establishment fills

will offer his entire collection now in Canada, previous to his departure for Buf-falo, where he purposes making an exhibit, Catalogues—may be had at the offices of Monday afternoon from 2 till 6/o'clock, and we have no doubt the public will avail themselves of this unusual opportunity, as the sale is positively unreserved. Mr. Charles M. Henderson will conduct the

Buggage man on the Midland division of the G. J. B. Do solounly Dorlard

I am a resident of the village of Sutton, and have been in the employ of the Grand Trunk Railway for twenty years or there bouts. At present I am baggageman on the Midland Division of that railway.

For the last twelve years I have been more or less afraid of my lungs, owing to the fact that my first wife, stepson and daughter of consumption. I was afraid that I might inhale some of the germs that might have remained in the house. Early in the summer of 1900 I developed a cough which gave me great uneasiness. The cough steadily became worse, and in the fall it was so bad that when I had an attack my eyes would fairly bulge out of my head and my face would swell up. I was very sick about the first of October, and made my trips on the train from that date until the 3rd of October with the greatest difficulty. On that date, October 3rd, I reported

to the physician. He advised me to go to bed, and I remained there for about ten days, I got up on the 13th of October and had a relapse. I called in another physician, and he found my temperature to be 102 2-5 degrees. He told me that my lungs were affected. The attending physician, some time after, found my temperature to be 104 degrees. I steadily became worse. The attending physician prescribed electric shocks to my back. My vitality was terribly low, and I had to be fed in bed. I had night

sweats regularly. My wife had to change the bed three times in twenty-four hours on account of these terrible drains. A political meeting was held in the hall next my house, and the chairman, Mr. W. P. Cole, J.P., told the audience to keep quiet as there was a man next door ill to the death. No one was allowed to see me. My child had been sent to Toronto as the doctor told my wife that the slightest disturbance might take me off at any time. To add to my distress, my other stepson died of consumption during my illness. On the 10th of November the doctor cut off four of my medicines. Creosote was one of the two preparations he kept on giving me, and he

regarded my case so hopeless that he told my wife to give me anything I wanted to eat, as it did not matter. On the 12th of November Mr. McEachern, my baggage mate, brought my wife a bottle of Powley's Liquified Ozone, and she asked me if I would try it, I would have taken anything, I was so desperate, and I started taking Powley's Liquified Ozone on November 14th. The very first dose seemed to be what my system craved, and in four days my cough stopped. My temperature on that day was 102 degrees. On Saturday, the 17th, it was 99, and on Tuesday, the 20th, it was normal.

I steadily improved, and on December 24th I weighed 156 pounds, just 56 pounds more than I did when at my worst. On January 6th I weighed 165 pounds. I have no more expectoration, my lungs give me no trouble, and I am satisfied that I am cured.

I ascribe my recovery to the grace of God, and to the use of Powley's Liquified Ozone. I firmly believe but for this preparation I would

Do Solemnly Declare That

I have worked with William McKay for the last two years, on the same train. On or about the fourth of October ha was laid off work, having been ailing for some time previous. I visited Mr. McKay during his illness and when the doctor pronounced his case hopeless, owing to the advanced stage of consumption, I procured a bottle of Powley's Liquified Osone on the advice of Mr. Forsyth, milkman, of Toronto. I took the bottle to Mrs. McKay and she said that she would try it as a last resort. That Mr. McKay's condition was so critical that I was not permitted to see him on that occasion or for two weeks previous. This was on the night of the thirteenth day of November, 1900. I called again and Mrs. McKay told me that her husband had not coughed for four days and that there was a marked improvement in his condition. That she said she could hardly get her husband enough to eat, his appetite had improved so wonderfully. I have been in his company several times subsequent, and from his present healthy condition I believe that Powley's Liquified Ozone has effected a complete and permanent cure.

complete and permanent cure.

And I make this solemn declaration, conscientiously believing it to be true and knowing it to be of the same force and effect as if made under oath and by virtue of the Canada Evidence Act, 1893. Declared before me at the Village of

Sutton, in the County of York, this Fifteenth Day of January, A.D. 1901. A. CROZIER.

A. CROZIER. Rev. A. P. Brace, Pastor, Methodist Church.

Gentlemen, -In response to your enquiry I reply. I visited Mr. Mc Kay from the beginning of his sickness. Suffering a relapse, he continued to sink, till one day his grief-stricken wife told me that he had been given up to die. Her own words were: "Oh, if he could only get well enough to sit around, but the thought of losing him!" Shortly after she told me he was taking Powley's Liquified Ogone, Soon every one was expressing surprise that he was getting better and eat-

ing heartily.

Now I must confess that I am astounded to see him walking round, looking, and, as he says, feeling wonderfully well.

Yours very truly, Dr. Frank Daley, V.S.

DOMINION OF CANADA. County of York, I, Frank Daley, of the village of Sutton, in the County of York,

Iknow and am well acquainted with Mr. William McKsy, baggageman on the G.T.R., and I know him to be a man whose word could be thoroughly relied upon. I understand that he had consumption, and that his condition was most critical, so critical that he was expected to die. His recovery I consider to be a miracle, and as far as I know his recovery was

due to his taking of Powley's Liquified Ozone.

And I make this solemn declaration, conscientiously believing it to be true, and knowing that it is of the same force and effect as if made under oath and by virtue of the Canada Evidence Act, 1893. Declared before me at the village of

Sutton, in the County of York, this Fifteenth Day of January, A.D. 1901. A. CROZIER. W. P. Cole. J.P.; Clerk Division Court and County DOMINION OF CANADA. The Cure of WM. McKAY. County of York, To Wit:
