Oranges and Lemons.

Says The Montreal Trade Bulletin:
There are four steamers coming direct to Montreal this season with fruit cargoes. The first of these steamers, the SS. Jacona of the Thomson Line, is now in port, with a cargo of 48,884 boxes and 19,959 half boxes oranges and lemons; about 14,000 boxes and 200 half boxes are direct purchases by some of the local and western houses, so that the quantity that will be auctioned off will be about 35,000 boxes of Messina oranges, and 12,000 half boxes of Messina and Catania oranges. The sale of this cargo will take place at the Montreal Fruit Auction Co.'s warerooms on Tuesday, May 8, 1901. The SS. Tivetton, which is an outside steamer, carries a cargo of 34,200 boxes, and 6400 half boxes of oranges-and lemons. About 17,300 boxes and 1800 half boxes are direct purchases for local and western houses, the balance of the cargo coming under the auctioneer's hammer about the 15th of May.

The SS. Bellona of the Thomson Line, with a cargo of 48,000 boxes and 4000 half boxes will arrive shortly after the preceding steamer. Nearly all of this cargo is to be auctioned off. The SS. Escalona, also of the Thomson Line, will be the last steamship to arrive this season with a direct cargo. She carries about 16,000 boxes and 3000 half boxes; a very small proportion of this cargo is for local and western firms, the balance to be auctioned off during the month of May. The figures

Stocks of White Pine.

Stocks of White Pine.

Stocks of white pine lumber, according to reports to R. G. Dun & Co., are badly broken, with best grades scarce and prices high. A considerable part of the output or many mills is sold ahead. In North Michigan the season's output will be 302,600,000 feet, with 64,000,000 feet carried over from last year and with more than one-half the vistimated product sold in advance. The billuth-Superior mills output will be 400,000,000 feet, of which 175,000,000 has been sold. In Minnesota the cut this year will approach 600,000,000 feet.

Business conditions at Montreal this week

Business conditions at Montreal this week

Dun's Canadian Trade Review.

With the arrival of the first ocean steamship in port, and opening of the canals next week, the movement in heavy goods at Montreal has feccived some impetus, and dealers in hardware, heavy metals, paints cements, etc., report satisfactory business. Country roads are getting fairly settled, enabling travelers to move more freely in the interior, and grocery orders are rather better, but the weather has not proved wholly favorable to the dry goods trade, storms in the west, and considerable rain in this province interfering somewhat with sorting orders. City retailers report business excellent when the days are fine, but spring sales as a whole will be somewhat whole sale trade for next spring's goods. Boot and shoe men are about finishing up spring business, and melather trade is quiet. Concerning remit-
