

DETAILS OF GAMEY TRIAL

Continued From Page 6.

Gore Bay. I saw Capt. John Sullivan there; that is the same man that called my brother's house the day before. Where did you go from there? Went across to Cutler and down to Sudbury. How did you go to Cutler?—On the steamer, Capt. Sullivan along?—Yes. Your brother, too?—Yes. You were conversing with Sullivan or were you?—Yes; I saw them talking on the boat. We went from Cutler to Sudbury, the whole three of us. Saw Sullivan Once. Did Captain Sullivan part company with you there?—Yes. He stayed on the train for Toronto. We got off at Sudbury and stayed there over night. Was this the only occasion in August that you were at your brother's house at night when any one came there? The only time I can remember of seeing anybody there at night. Have you any means of fixing the exact date?—No, sir. Did you ever see this man more than once at your brother's house? That is the only time I ever saw him. What kind of a night was it?—I think it was a bright night.

PRODUCED SOME TELEGRAMS.

C.P.R. Manager Shows Documents Sent Gamey in Haste by "Frank." D. G. Sturrock sworn. By Mr. McPherson: What is your occupation?—I am in the telegraph business. Do you occupy an official connection with either of these telegraph companies?—Yes, I am local manager of the C.P.R. Telegraph Company at Toronto. In response to a summons you produced a telegram sent from Toronto to R. R. Gamey?—What is the date?—Sometime in January?—(Witness produces telegram dated 27th January.) Mr. McPherson: This telegram reads as follows: "Robert Gamey, Gore Bay, Ontario. Important that you be here on Thursday or Friday. (Signed) Frank." Can you tell me what time that message was put into your office?—Yes, 1.55 p.m. Would you be on duty, then?—No, sir. Can you tell me who would be on duty?—I can tell me the writing. Chancey's name is in the address. In this writing on the bottom of this paper, "no address." Who is writing that?—Mr. Edard's writing. What does that indicate?—It indicates that no address was given. The Chancellor: For the answer?—Of the sender. Mr. McPherson: Does it indicate the sender said there was no address? Mr. Riddell objects to this on the ground that it is not evidence. Mr. Riddell says he supposes Mr. Edard will speak for that. That seems to be written on a blank piece of paper and pasted to one of your forms. Is that the case?—Yes, in accordance with our rules. Bank Manager's Story. George F. Reid inquired. By Mr. McPherson: What is your occupation?—General manager of the Standard Bank of Toronto. You have been summoned to produce certain documents, books and papers here?—Yes. What do you produce in compliance with the summons?—I produce an account of Messrs. Kerr, Davidson, Paterson & Grant, and an account of R. A. Grant. Are they copies?—Yes. Where are the originals of which these are copies?—They are in the books at the head office. I could not bring them up—the most important books of the ledger. Will you permit us to make comparisons to verify your copies? Mr. Riddell: As far as that is concerned, we have no objection to anything of the kind, but Mr. Grant should have some knowledge and notice of this; there may be something in these accounts he does not wish to see. Mr. Riddell: I expected the books to be here, but Mr. Reid says these are copies and we will be permitted to verify them. We want to use the books and copies for the purpose of examining Mr. Grant. Mr. Johnston: Mr. Grant called me up and told me he had to go to Ottawa. He had been putting off going till the last moment, and last night about 9 o'clock got a telegram and had to go, but will return to-morrow morning. Grant's Private Affairs. The Chancellor: I suppose Mr. Grant has a voice as to his private account? Mr. Riddell: The only difficulty I can see is, that when this is produced, he will be able to go on with the other evidence. Mr. Johnston: We haven't any desire to produce the books, but we have no desire to dispute the accuracy of these statements. Let these documents be put in as evidence. Mr. Johnston: I am not a lawyer, but I have been told that the law is that if you produce a document, you are bound to prove its accuracy. Mr. Johnston: Some of the books you refer to from which these documents are copies are in constant use, are they?—Yes.

Inspector Stark Explains Why Criminals Are Easily Detected in Toronto These Days.

INFORMATION COMES FROM JOINTS

Therefore, He Would Have Gambling Suppressed by Morality Department.

The Montreal system of putting the suppression of gambling in the hands of the detective department, while it seems more efficacious than ours, does not appeal to Inspector Stark. Yesterday he expressed his satisfaction with the system at present in force in Toronto, which draws a clear distinction between the duties of the Detective and the Morality Departments. "Toronto, compared with other cities, has a remarkably light calendar of crime," said the inspector, "and I attribute this largely to the policy of prevention pursued by the Detective Department. The great majority of criminals who come to Toronto are caught and punished before they have had an opportunity to do any harm. Now, the way the department gets wind of these arrivals is through the class of people who are the keepers and promoters of gambling joints, houses of ill-fame, etc. It is ascertained by the inspectors of these people who, with no hope of reward, will put themselves out to lay information before the detectives. These people are, however, much more likely to understand that giving this information procures them no reward for unlawful practices on their own account. The information that the detectives may gain with regard to any unlawful practice is held before the Morality Department, but I consider that would be very bad policy in the Detective Department to attempt to prosecute these sources of information by prosecuting their directors."

WANTED MANY BANK BOOKS.

Would Have to Spend Wagon If Demands Were Complied With.

Have you produced in compliance with your summons your teller's blotter for September, 1902?—No, I have not. Why not?—That book is in use just now; I am not quite sure about that, but I think it is. I thought this which I have produced would be all you wanted. If I produced all the books you requested of me I would have about two wagon loads to bring up. The Chancellor:—The bank would have to stop?—Yes. Mr. Blake—Could not it be arranged

the character of the evidence put in by Mr. Gamey's friends. There is some doubt as to whether Mr. Grant is the man who is in the box or wait for the defence to do so. Frank and his father have been subpoenaed by the prosecution and get their fees every day for attending the inquiry. No one knows except Frank and the government counsel what just he is going to say when he steps into the box, but, as he is an important witness, he is liable to be under fire for a great length of time as Mr. Gamey, and it is this doubt about what testimony he will give that makes the course of the prosecution uncertain as to the advisability of submitting him to a cross-examination at the expense of the defence or giving him a chance to first tell his story to Mr. Blake. TO STOP ALL GAMBLING. Toronto Junction Citizens' Union Will Seek to Abolish It. Toronto Junction, April 17.—The Citizens' Union, which is to be organized on Monday night in the Presbyterian Church, has for its constitution the following principles: 1. The development of good citizenship in the town. 2. Independence in municipal affairs. 3. The enforcement of all laws in regard to gambling and the liquor traffic. 4. The adoption of such measures as will abolish from the community all gambling institutions and bar-rooms. Marriage at a Discount. It is a mere trifle to say that the welfare of the individual, of society and of the state is best served by marriage, and by early marriage, too. The fact has been established for 40 years that the death rate among all married men over 20 years of age is less than that among unmarried men, and that the death rate among all married women over 25 years of age is less than that among unmarried women. The home being the corner-stone of civilized life, society is enriched by the multiplication of homes, and impoverished when they are not in normal proportion to the total population. Only within the past few years has world-wide attention been drawn to the startling fact that the well-being of a mighty nation is menaced by the prevalence of celibacy. More than half the men and half the women of France are unmarried. The foreign immigration into France is to-day greater than the natural increase of its own people. The excess of births over deaths in any year among those many millions amounts to only about one half of the population of New York. The result is that, while other nations of Europe are rapidly increasing in population, France is almost stationary. While a century ago, Frenchmen comprised a fifth of the European population of the world, they now form only a tenth of it. The importance of their country as a world power is not growing. Their political influence is steadily decreasing, and the number of their colonies is being lost to other nations. How empty is the boast of rattle-pated orators that the French are the most glorious nation in the world, when she can add only 3,000,000 conscripts a year to her army, while 500,000 recruits are annually enrolled across the Rhine! We shall speak later of the mistakes made in the policy, ruthless alike to the citizens and the state, that induce many of the French to restrict the number of their children, and half of them so that life is unmarried. France is to-day an object lesson from which the whole

SIR ALEXANDER MACKENZIE

The High Musical Status of the Mason & Risch Pianos

Is attested by the following appreciative letter from SIR ALEXANDER MACKENZIE, the eminent composer, Principal of the Royal Academy of Music, London, England, and Conductor of The Great Canadian Musical Festival now in progress from Halifax to Vancouver and Victoria, B.C.

THE MASON & RISCH PIANO CO. Limited

Toronto, Canada.

Gentlemen.—I wish to express my highest appreciation of your Mason & Risch Pianos. Their tone is in every respect admirable, from the sonorous bass to the highest treble. I was struck by the amount of tone color which can be produced, even by players of my calibre, who cannot be considered pianists in the real sense of the term, but I am willing to add my testimony to those of better men. Rich in tone, quick responding touch, firm mechanism, are the requisites of a fine pianoforte—you have secured all these. Allow me to congratulate you and the Dominion of Canada on the production of such fine pianofortes. Very faithfully yours, A. O. MACKENZIE.

The Structural Features of the Mason & Risch Pianos Are Entirely Original in Conception, and the Rich Reflected Tonal Qualities Secure the immediate Recognition and Appreciation of All Musical Connoisseurs.

SIR ALEXANDER MACKENZIE'S CHOICE

That the Canadians as a nation are thoroughly imbued with the right musical spirit is conspicuously shown by the great cycle of festival concerts now being held here. The fact that the
