Restrictions Are Placed on Use of Public Utilities in Some Districts-No More Bunkering of Foreign - Owned Vessels in American Ports-Government Looks Forward to Early Settlement of Strike.

Washington, Nov. 7 .- Curtailment of passenger train service, discontinuance of bunkering of foreign-owned vessels at American ports, restrictions in some places of the use of public utilities, and appeals for coal from various cities as the strike of approximately 425,000 bituminous coal miners today rounded out its first week, gave the nation further indications of the distress in store should there be a protracted suspension of mining operations. Other disarrangements of the country's routine were expected today, with little change in the general conditions surrounding the strike itself.

Government agencies still remained hopeful that developments tomorrow at Indianapolis, when the motion filed by attorneys for the United Mine Workers of America, asking dissolution of the restraining order issued last week by Judge Anderson, will be argued, might point

the way to an early ending of the strike.

To the states already reported suffering from a coal shortage Kansas, Nebraska, Alabama and Iowa today was added Oklahoma,

#### OPERATORS CLAIM NON-UNION MINERS WORKING AT NORMAL

Pittsburg, Pa., Nov. 7.—Officials of to form a joint committee to check up the situation. District No. 5, United Mine Workers of America, offered today to form a joint temmittee with the operators to check up the coal strike situation in the Pittsburg district and give the result to the press. The offer is the result to the press. The offer is the result of conflicting reports which have been given out at both the headquarters of the mine, union officials, and of operators.

All apprehension as to result about out at both the headquarters of the mine, union officials, and of operators, since the strike began. The operators have not replied to the proposal.

The operators repeated today that their non-union mines are working 100 per cent normal, and that many union miners are either returning to their old lobs or seeking work in other fields. Mine union officials replied to this by asserting the operators could not "make an affidavit" of it. They then, offered

AMERICANS GOT CODE

Dr. Alfred Zimmerman Also Causes Sensation During Investigation.

Berlin, Nov. 6 .- Dr. Alfred Zimmer man, secretary for foreign affairs during the war, caused a mild sensation during today's session of the national assembly committee investigating the war, when he admitted the German! authorities had been suspicious that their code, which was known by an American was betrayed to the United States government.
Count Bernstorff, asked regarding the Bolshevik Cavalry Cut Off

Count Bernstorff, asked regarding the code, at first said he could not swear that whreless messages received in America had been kept from the entente. Later he said under oath that he never knew of "such treason." He declared Germany had a difficult and dangerous cable route through neutral countries but that messages had been concealed as commercial dispatches. Sub Warfare Investigation.

Sub Warfare Investigation.

BOOST OF \$15,000,000

Organizers in Various Districts Confident of Raising Additional Sum.

Toronto, Nov. 7 .- A new objective of \$50,000,000 in special subscriptions for Ontario will likely be set, the first objective of \$35,000,000 in specials for the province having easily been exceeded. Telegrams from the organizers of the various counties and cities are coming in and, with the exception of one or two who feel that they have exhausted the money giving capacity of the big men of their districts, all these telegrams speak enthusiastically about the chances of making good on the new objective of \$50,000,000 Half of the sixteen divisions of Ontario

\$50,000,000.

Half of the sixteen divisions of Ontario went over the top when the province won the honor colors. Northern division, with 160 per cent of objective, has the lead easily. In this division is situated much of the mining and steel industry of the province. Newcomers in the honor list are the city of Hamilton with \$6,725,000 raised from large subscribers, and the Bay of Quinte division, which today has 106 per cent of its objective, and two days ago had but 4 per cent. Ottawa and Toronto are running even in the race for special subscriptions objective. An appeal to the women of Toronto for 20,000 new subscriptions to the Victory Loan made by J. W. Mitchell, chairman of the Toronto executive, who points out that so far there have been 10,000 fewer individual subscribers this year than last. Women's subscriptions will be credited to the women's work at headquarters and the number of subscriptions published daily fir the women's pages of the press, the appeal says.

#### Advocates Use of Airships For Treating Tuberculosis

London, Oct. 24.-The employment of airships as sanatoria for the treatment of tuberculosis and other diseases is advocted by a doctor who was attached to the British air force during the war, according to the Globe. The patients, it is pointed out, would be able to live for several days at a height of about 5,000 feet, enjoying complete rest and breathing air as pure and invigorating as that of any of the famous mountain resorts, which only the rich can afford to visit. The big airships built by Great Britain for war purposes, the doctor says, can be fitted up as sanatoria for patients suffering from consumption, anaemia, neuras-thenia and other ills, and except in very bad weather, can cruise about

J. M. Clymer returning from a party shortly after 2 o'clock, heard moans, and on investigation discovered the constable, who was lying on his face, his tunic being soaked in blood. He telephoned police headquarters and detectives were assigned to the case.

When found Police Milton had his baton in his right hand, indicating that he had been engaged in a struggle with the burglar. A revolver containing two discharged cartridges was found near the wounded man, but the constable's pistol was missing.

The wounded policeman was removed to St. Michael's Hospital in an unconscious condition, and but little hope is entertained for his recovery. The burglar has not yet been located. Residents in the neighborhood report having heard the shots.

Mis bedside, rallied sufficiently this morning to make an ante-mortem statement in the presence of Inspector Bond, Detectives Taylor and Young. He said he had heard the breaking of a pane of glass close by. Finding a broken window, he struck a match and looked through, to see a man standing there. Telling the burglar to hold up his hands, Milton put his foot through the opening, preparatory to climbing in, and was promptly shot twice. In spite of his pain, he climbed through, grabbed the burglar by the neck and struck him with his baton. The burglar wrenched the policeman's revolver from him, and Milton collapsed from his wounds, but did not lose consciousness.

The burglar then climbed through the window. After a little while Milton dragged himself to the door undid the bar and staggered into the street, where he fell, and knew nothing more until found.
