OTTAWA SESSION TO BE CURTAILED

Parliament is Called to Meet on Eighteenth of January.

PROGRAM KEPT DOWN

Prorogation Before Premier Leaves for England Hoped for.

By Staff Reporter.

Ottawa. Ont., Dec. 28.-In calling parliament to meet on Jan. 18 it is pass all pressing legislation and secure prorogation before Sir Robert Borden has to leave for England to attend the imperial war council. It is necessary for the prime minister to be in attendance at these meetings.

The purpose of these meetings is very comprehensive, as it embraces the prosecution of the war, the conditions upon which peace may be made, and the consideration of pro-blems to arise after the war. It is understood that the prime minister feels himself bound to attend a conference which will deal with questions of such vital and transcendant importance, affecting not only the interests of the Dominion, but those of the

hole empire.

The legislative program for the coming session in view of the neces-sity of Sir Robert going to England will be of such a character as to permit its accomplishment within thirty days. It will probably consist of only the war and civil budgets and parliamentary term extension legislation. It is understood that Sir Robert will have to be absent from Canada during March and April.

Lieut.-Col. Gorrell, formerly of Taplow Hospital, who has been seriously ill at Millbank Hospital, has now recovered and he is living privately in London.

ORDERS RECEIVED

Hundreds of Millions of Dollars Reported Coming to Canada.

FACILITIES DEVELOPED

United States Industries Background, Says New York Times.

New York, Friday, Dec. 29.—British munition orders amounting to hundreds of millions of dollars are being was against the bylaw and is intimaplaced with Canadian manufacturers, tion that the Ontario Government was according to The New York Times this morning according to the New York Times and at his Twentieth Century meeting according to The New York Times this morning, according to information obtained in banking quarters yesterday. It was learned that within the last few days an order for shells larger than the biggest contract placed in this country last year, had been lodged with the Montreal Locomotive Co., this order that government is responsible. The proposal we recommend in respect to the construction of a railway from Port construction of a railway from Port last few days an order for shells larger than the biggest contract placed in this country last year, had been lodged with the Montreal Locomotive Co., Limited. An estimate on this order was between \$175,000,000 and \$200,000,-000

several months that few more orders for completed shells would come to the Reginald Wood, a sixteen year old U.S., but it was not a matter of gen-eral knowledge that Canada was slated to take up a vast part of the work. News that Canada developed facilithe breech of a shot gun while hunt- may amount to fully \$400,000,000 next ing ducks in a boat on Lake Ontario, year, was surprising to many persons right miles east of Port Dalhousie, of the financial district, who recalled died in the General and Marine Host that last year parts of a number of Canadian orders were subject in this pital here today. He was found un- Canadian orders were sublet in this country.

Steel manufacturers have known for

ties to handle a shell business which

been entirely withdrawn and it is now reforming in Moldavia. Its place has been taken by the Russians. In Dobrudja the front of the allies has been moved back in alignment with the front north of the Danube. this region both sides are suffering from adverse weather conditions.

Verdun is the centre of great artillery liveliness these days and the French are increasing their pressure in this region with the object of preventing the enemy from having any rest and the further object of approaching closer to Metz. The tension yesterday was transferred to the western bank of the Meuse, where the Germans violently bombarded the front of Le Mort Homme and Hill 304 and their batteries were energetically counter-shelled by the French. The Germans have plainly strengthened their artillery in the Verdun region by removing many of their counter-shelled their artillery in the verdun region by removing many of their counter-shelled their artillery in the verdun region by removing many of their counter-shelled their artillery in the verdun region by removing many of their counter-shelled their artillery in the verdun region by removing many of their counter-shelled their artillery in the verdun region by removing many of their counter-shelled their artillery in the verdun region by removing many of their counter-shelled their artillery in the verdun region by removing many of their counter-shelled their artillery in the verdun region by removing many of their counter-shelled the verdun region by removing many of their counter-shelled the verdun region by removing many of their counter-shelled the verdun region by removing many of their counter-shelled the verdun region by removing many of their counter-shelled the verdun region by removing many of their counter-shelled the verdun region by removing many of their counter-shelled the verdun region by removing many of their counter-shelled the verdun region by removing many of their counter-shelled the verdun region by removing many of their counter-shelled the verdun region by removing many of their counter-shelled the verdun region by removing many of their counter-shelled the verdun region by removing many of their counter-shelled the verdun region by removing many of their counter-shelled the verdun region by removing many of their counter-shelled the verdun region by removing many of their counter-shelled the verdun region by removing many of the verdun region by removing many of the verdun region removes the verdun region of the verdun region removes the verdun region r to Metz. The tension yesterday was transferred to the western bank of the by the French. The Germans have plainly strengthened their artillery in

by the French. The Germans have plainly strengthened their artillery in the Verdun region by removing many of their guns from the Somme. The a favorable moment for striking the foe. The carrying opt of a successful renewal of the worrying tactics so much employed in Lorraine and Alsace by the French general staff in the previous two winters of war.

Owing to their underestimation of the effects of shelling on the battle in that section since October, and they will not be able to resume their offensive at least until March. Being unable to do much fighting days. When the Germans know the point of junction, the exact extent their attention to Verdun. The foregoing news is given in an interview in the British war office.

But if the road cost less than estimated, the would be all the more easy to make it would be all the more easy to make it pay. We were told that the American reflection to a fact one of the successful trench and they are awaiting as was extensive in front. The suggests a surgious and they will not be alled to resume their offensive at least until March. Being unable to do much fighting days. When the Germans know the point of junction, the exact extent their attention to Verdun. The foregoing news is given in an interview in the British war office.

The Canadian war records office in London issued a communication rice out. The area under attack from the Canadians was extensive in front. The area under attack from the Canadians was extensive in front fensive. In addition to the Germans kinded and his commissioners which the commissioners with the hydro radial system that it was officing to the biggest rallways on a matter of fact, one of the biggest rallways in the U. S. was anything to do with the provincial of the biggest rallways win the Luck and the waldsaft. The suggests as a bridge and was anything to do with the provincial of the biggest rallways win the U. S. was anything to do with the provincial or war anything to do with the provincial or war anything to do with the pay. We were told th

ried out. The area under attack from the Canadians was extensive in frontage and depth so that the raid in its magnitude was equivalent to an ofprisoners and the Canadians withdrew to their own lines with comparitively small losses. When they had withdrawn after holding the German getically bombing their own deserted trenches. The British official comparties northwest of Gommecourt, two before reaching the British line, and fighting British machines destroyed three German craft and they drove days suggests that a great part of the British naval flying corps has been the sudar and the canadians was ever paid a cent to be sared that the line proposed by Sir Adam and his commissioners would be paid for twice over in fifty would be paid for twic age and depth so that the raid in its magnitude was equivalent to an of-

The frequency of British aerial raids on points in Turkey the past few days suggests that a great part of the British naval flying corps has been transferted to the near east until the winter is over in the west. A British official bulletin issued at London last night records the successful bombardment of Turkish camps at Galata on the Gallipoli Peninsula, on Tuesday, and the destruction of the Chicakdar bridge, 18 miles east of Adana, day, and the destruction of the Chicakdar bridge, 18 miles east of Adana, seaplanes and naval aeroplanes. The attack on the Chicakdar bridge is an attack on the Turkish communications and it was probably designed to delay the mexement of troops.

TO CANADA ON LEAVE PEOPLE IN FAVOR OF RADIAL BYLAW

Audience With Sir Adam at Hamilton Meeting Last Night.

STEWART DIPLOMATIC

Believes Discretion Better Than Valor and Retires From Fight.

Hamilton, Friday Dec. 29.—The tide of public sentiment here is going strongly in favor of public ownership, and indications are that the hydroradial bylkw will be adopted on New Year's Day by a good majority. The local board of trade is still carrying on its advertising campaign, but in last evening's papers denied that there was any organized effort on the part of the board to defeat the bylaw or that the results of the same state. was any organized effort on the part of the board to defeat the bylaw or that its tampaign of opposition was being financed by the Dominion Power and Transmission Company. Two big meetings in favor of the bylaw were addressed last night by Sir Adam Beck and other speakers, but no one showed up in opposition. T. J. Stewart, M.P., who "spilled the beans" on Wednesday night by announcing that Lieut. Governor Sir John Hendrie wanted the bylaw defeated, has permanently retired from the oratorical campaign. He was not present at the Beck meeting last night, which was held in the heart of his district. The evening papers carried the announcement that on account of the disrespectful way in which he had been treated by the audience of Wednesday to the suddence of Wednesday of the audience of the board to defeat the bylaw of the subject to the proposition of the disrespectful way in which he had been treated by the audience of Wednesday of the suddence of Wednesday of the suddence of the subject to the population of the disrespectful way in which he had been treated by the audience of Wednesday of the suddence of the subject to the population of the disrespectful way in which he had been treated by the audience of the subject to the population of the disrespectful way in which he had been treated by the audience of the subject to the proposition was then asked why it was that the act stated that no other line could be borused into the city for fifty years. "The hydro sommission is creating a monopoly, but it is for the people," Early was monopoly, but it is for the people," Early was monopoly, but it is for the people," Early was monopoly, but it is for the people," The hydro sommission is creating a monopoly, but it is for the people, "The hydro sommission is creating a monopoly, but it is for the people," The hydro sommission is creating a monopoly, but it is for the people," The hydro sommission is creating a monopoly, but it is for the people, "The hydro sommission is creating a monopoly, but it is for the people," T he had been treated by the audience on Wednesday evening he would make

that government is responsible. The proposal we recommend in respect to the construction of a railway from Port Credit to St. Catharines would not be submitted to you had it not first received the sanction of the authorities at Queen's Park."

Queen's Park."

Sir Adam said that he could see no reason why the bylaw should be antagonized by supporters of the government. The Hydro-Electric Commission, he said, consists of three members and one of them is a minister of the crown. He said that he himself had for years been a member of the government and during all of that time had taken a live part in promoting hydro-electric development and in helping to secure the passage of appropriate bylaws by the various municipalities.

College. She was active in religious, philanthropic and patriotic work, and up to being taken ill five weeks ago and given extraordinary service to the Secours National. She was born in California, where her mother, Mrs. Alexander, and several married sisters reside. Marray Alexander, Toronto broker, is a brother. She is also survived by two daughters, Miss Nanette, who was recently summoned from Red Cross work in England, and Kittle at home.

WARR SUMMARY

Continued From Page 1.)

Continued

on hand when the Canadian Northern proposal came up before the minister of railways, and would vigorously oppose it. Three railways of Canada had cost the people of the country in cash and land grants and other commitments nearly eight hundred million dollars. It was time to get rid of private ownership of railways, if only thereby to purify the public life of Canada:

"No taxpayer Pays Nothing.
"No taxpayer has ever paid a cent towards hydro—the consumer has paid
every cent," said Mr. Lyon amid applause. "In the one hundred and seventyfive municipalities, where hydro was installed the lines were all built under the

in you let the sin be deleated its like sainers."

Air. Lyon emphasized the fact that many great enterprises should be bwned by the people. The hydro ramal would be one of the greatest, and it would be folly for the people to let it pass out of their hands. "Mr. Stewart tells us that the road was not pay," contained mr. Lyon, "hut I say that this radway will pay. There is not better terratury than that which this line will follow."

Discussing the bylaw, Mr. Lyon stated that every cent of \$6,000,000 would be spent in Hamilton; also that the city would not be called upon to make go. I any deficits which might occur, on the smaller branch roads. The line would be a great national rallway and would be a great national rallway and would be built at cost.

"You have heard that the London & Port Stanley cost \$50,000 a mile and that this will cost hundreds of thousands per mile. That is like comparing a canoe to a steamboat," said Mr. Lyon. "The line will pay because the taxpayers in Hamilton will be traveling on their own railway. That is why the project is being opposed by the railways. (Applause.) No city will prefit from this enterprise as this city. It is the hub and all lines will flow into, it."

The fact that the work would not be commenced until after the war was made plain by Mr. Lyon, who read the act, of 1914.

Mr. Lyon was then asked why it was that the act stated that no other line could

Vote YES on the Hydro Question

Cost of This in Coal to Ontario Would be \$40,000,000

\$4,000,000 to \$5,000,000

In 1916 a bill was introduced in the Ontario Legislature by the Attorney-General to provide for the development of the unallotted water at Niagara Falls, or what is known as the Chippewa-Queenston Development, and as new agreements between the municipalities and the Commission would be required before the municipalities could assume the liability for the cost of the development, the Ontario Government in the meantime undertook the development of this power through the Commission.

On the introduction of the bill in the Legislature, the Prime Minister made a statement that, should the municipalities desire to undertake the responsibility for the ownership of the development and assume liability for the payment of the debentures issued to pay the cost of same, as they have already done in the case of the transmission lines and transformer stations, the Government would consider making the necessary arrangements to vest the ownership of the power development in the municipalities being supplied, as has already been done in the case of the transmission lines.

The question now is, how is the power required to be supplied to the municipalities? Whether the development shall be held in trust by the Commission for the municipalities, or whether it shall be held in trust by the Commission for the Province. This By-law provides that the municipalities shall buy power from themselves and sell

it to themselves, whereas the Bill provides that the municipalities shall buy power from the Government and sell it to themselves. If the By-law carries, the municipalities are justified in moning the Provincial Government to vest in them the ownership of the power development, as has already been done in the case of Eugenia, Wasdell's and Muskoka Developments.

The question is, that the power development, which will be completely paid for by the municipalities in thirty or forty years, become the property of the Province at large, or shall it become the property of the municipalities, who, in their power bills, will make the debenture payments on the cost of the development?
