position all the time by maintaining her national policy and strengthening it all along the line.

The World believes the great bulk of Canadians are for protection, up to the hilt for native industries, and protection with a modification thereof in favor of an imperial preference.

It is true that thousands of citizens of Toronto are protesting against the use of unheated cars on the street railway. Public indignation is widespread, but there is no basis for an irate citizen's assertion that everyone in the city is complaining about it.

It is useless to ask City Engineer Rust to equip himself with a new set of sensations. He is as nature made him. Recognizing this fact citizens will have to admit that the discomfort they have been experiencing is the product of a discarded innovation, or get a city engineer who is more of the human being and less of the bull.

A Buffalo newspaper resents Sir Edward Clarke's theory that Canada's entire her to a share in the name "American," appropriated for the use of the people of the United States.

Alongside of this movement in favor of imperial preference there is another great issue involved in the advocacy of reciprocity between Canada and the United States.

What is to be the upshot of the Russo-Japanese war? Will it end with the humiliation of Russia or the conquest of Japan, or will there be a Russian alliance and control of the destiny of the far east?

Not long ago Dr. J. N. Hirsch, of Chicago, said: "The most delicate perfume upon the hands is not a sign of freedom from germs, and the most refined are not free from disease."

Dr. Pierce's Golden Medical Discovery is a remedy which he claims is "just as good" because he made it up himself, or "chance" to one of his medicines which he only makes the better.

points have a shameless disregard for their duties. A word to the lieutenant-governor. It was given out yesterday with some appearance of authority that the Ross government has decided to bring on the by-elections.

The Ross government is in a minority in the legislature. If the house convened to-morrow the voting strength of the opposition would exceed that of the government.

Other complications arise from the political state of Europe and the ever present fear that any peaceful identification of interests under an Anglo-Japanese treaty might kindle a larger flame of war within Europe itself.

Mr. Ross professes to have confidence in his government's record and faith in the platform evolved by the Liberal convention.

Disillusion is all that Mr. Ross can expect. In reason of the lieutenant-governor's position he is not really entitled to the by-elections.

When Hon. J. M. Gibson was notified of the preparations for the cruise of the Minnie M. he announced that he was no politician.

As the Mail and Empire truly remarks, there is no earthly use taking the name "American" from the people of the United States.

Britannia, with the timely aid of the training ship that Hon. Raymond Prefontaine is getting ready to launch, will continue to rule the waves.

President Roosevelt says he enjoyed himself immensely at the St. Louis exposition. The immensity of the enjoyment is largely accounted for by the circumstance that he wasn't shot at once in the course of the whole day.

Editor World: In a recent issue of The World an article on trees in Toronto, in the line of a subject which I have given attention for some years, and reached conclusions not quite in keeping with those therein expressed.

The mortality records of Portland, Maine, for the time of the great fire of July 4, 1864, or '65, gave it distinction of having the heaviest death rate from consumption, over 25 per cent, of any city in the Union.

It is worth noting that the house on which the tree worshippers have devoted worshipful under trees, mainly as did they under the oak, inheritance, no doubt, transmitted to us by the Indians, leads many to will worship trees, and greatly favors their preservation.

Editor World: A bet is that all who are born and lived and who live on the North American Continent are Americans. Who wins? Jones.

Montreal, Nov. 27.—For the third time within 30 years, claim is to be made to the earldom of Newburgh, now held by an Italian nobleman, Prince Giustolanti-Bandini, and to the barony of Massop Hall estates in Derbyshire, which are to-day worth \$70,000 a year.

Quebec, Nov. 28.—(Special)—Open war has been declared between Senator Choquette and Hon. S. N. Fournier, premier of Quebec, and the senator is the aggressor.

CHOUQUETTE AND PARENT.

Montreal, Nov. 28.—There are all kinds of rumors from Quebec, the most serious being that three of Premier Parent's ministers have resigned. This, however, is not credited, although Hon. Parent has been red-hot with such intentions. The Herald publishes the following special from the ancient capital:

FIRE AT BOWMANVILLE.

Bowmanville, Nov. 28.—(Special)—About 11 o'clock this forenoon the fire alarm sounded and it was found the mills of The John MacKay Co., Ltd., about a mile southeast of the town, were ablaze. The brigade were promptly on hand, but the fire had made such headway it was impossible to save the building. The company buy large quantities of the coarser grades from the farmers hereabouts, to be manufactured into oatmeal, pearl barley and split peas. They use a large trade with the maritime provinces and foreign countries. The loss on the building, frames, and machinery is estimated at about \$15,000 and stock destroyed about \$10,000. There is an insurance of about \$100,000. The cause of the fire is thought to be spontaneous combustion or a hot box in the machinery.

Prisoners Aid Association.

The annual meeting of the Prisoners' Aid Association will be held to-night in the Bloor-street Presbyterian Church at 8 o'clock. Hamilton Cassels will preside and the president, Mrs. O'Sullivan, Dr. Gilmour, C. Forster, Inspector Archibald, G. Chapman and Rev. Robt. Hall will be present. Nearly all the old officers will be re-elected, but E. Spence will take the place of Dr. Rosebush as agent, as the latter has resigned.

Most People Aim to Excel in their Christmas Cooking

The help we offer is to supply all the necessary ingredients of the best quality.

For the Plum Pudding and Mince-meat there are the Currants, Raisins, Almonds, Spices, Candied Peels, etc.

And the liquor so essential to the flavor and keeping quality. Brandy is best, but Port, Sherry and Whiskey are favored by some.

Whatever it is, the best is at Michie's.
