kc. and recently with an affection of the Throat and Chest.

Balleysburg, Va. Dec. 13th, 1845.

Messrs. J. B. & D. Sands.—Before I commenced is sing your Sarsaparills, my sufferings were almost past expression; my throat was completely ulceratively weeks together that I could not speak above a whisper; and besides, the inflammation from my throat extended to my head, so that my hearing was very much impaired. After taking the Sarsaparilla a short time, my health improved, and my throat is now well; I am as free from cough and tightness of the chest as ever I was, and can hear quite distinctly. My throat has been well about three months, the cure of which has been effected entirely by the use of your Sarsaparilla. Your friend, Louisa R. Bevan.
For further particulars and conclusive evidence of its superior value and efficacy, see pamphlets, which may be obtained of Agents gratis.
