THE EDITOR OF THE TIMES-STAR: Sir—One of the benefits we may expect from the proposed liquor traffic bill will be improved hotel accommodations. Commercial travelers are high in local opinion towns. One who has traveled over the same district for 25 years tells me of the great improvement he observed in the hotels wherever local option came and the most thorough investigation confirms these statements. He says that charges are a little higher in hotels but it is worth the money.

When a hotel keeper says that he will have to close when prohibition is enacted is an admission that he is not a hotel keeper at all, but a saloon keeper. I was in the legislature that out of 110 hotels in Toronto there were only 30 that entertained travelers and the other 80 that were saloons. The hotel industry is entirely unfair to boarding houses and temperance houses that do not sell liquor.

The question is sometimes asked: "Can the hotel business be made a better business?" The answer is that it has already been done. Prince Edward Island has done it. The hotels in Montreal, Toronto and other cities are reported to be satisfactory and prosperous.

Two years ago my little girl had diarrhoea while cutting her teeth. I was very anxious and had tried different remedies, but all to no avail. A friend recommended Dr. Fowler's Extract of Wild Strawberry, so I procured a bottle of it, and after she had taken a few doses she was cured. I think every home should keep it on hand.

The genuine 'Dr. Fowler's' is manufactured only by The T. Millam Co., Limited, Toronto, Ont. Price 50c.

DECLINE IN PAPER SUPPLY. Stocks of Newspaper in U.S. and Canada 32 P. C. Lower Than Year Ago.

Boston, Sept. 2—United States and Canadian mills had on hand at the beginning of August only about a fortnight's supply of newspaper, according to official returns of the industry. The July shipments of American mills exceeded production by 3,675 tons, but the ability of Canadian mills to produce 1,269 tons more in the trade that 93 per cent of maximum capacity is about what the mills can produce month in and month out, the remaining 7 per cent, representing the proportion by which the men and machinery fall short of perfection. When, therefore, consumption amounts to more than 93 per cent, of maximum productive capacity, a shortage begins. Such a shortage exists today, and will continue unless the campaign among newspapers for restriction of consumption through condensation of news accomplishes its object.

Between July, 1915, and July, 1916, stocks of newspaper in the United States and Canada declined approximately 30,000 tons, or 32 per cent. It is obvious from the production figures that the newspapers of this continent will have to look to Canada to meet any further expansion in consumptive requirements. Duty free paper (if valued at 2½ cents a pound or less), combined with the prohibition against shipment of wood from crown lands in Canada, has made of the American newspaper industry a static production. Thus, while American mills increased production in July only 4,684 tons over the previous July, to a total of 86,221 tons, Canadian mills increased their output 5,144 tons to 43,556 tons.

YACHTING PARTIES. Frederick Glenon Friday—Mr. and Mrs. W. M. Fleming, Mrs. G. D. Davidson and N. R. Ross, of St. John, were here in the yacht Paragon this morning. Mr. and Mrs. Albert B. Cunningham, of the St. John Power Boat Club, arrived here from St. John yesterday in the motorboat Waterwitch. Mr. and Mrs. A. V. Thompson, of St. John, arrived here yesterday by the yacht Sunol, and N. J. Moran, J. Brien and J. U. Moran, of St. John, arrived in the yacht Hattie. D. Arnold Fox, of St. John, also arrived from St. John by yacht.

NEW COMPANY. Charles A. Epps, George F. Meating and Harry P. Epps and Mrs. Emma Epps, of St. George, N. B., have been incorporated as the Epps Meating Company, Ltd., to take over the business now being carried on by the Epps Dadds company. The capital stock of the new company is \$23,000, with head office at St. George.

"Service First"

THE railways were among the first public servants to adopt their guide the idea of safety. In applying "Safety methods" to our business, we have adopted as our motto, "SERVICE FIRST," and we sincerely believe that our present popular "Value-Giving System" is the key-note of our success in this direction.

Buy your Furniture here and learn that "MARCUS" in House-Furnishing means Service, Quality and Economy.

FOR SALE—SECOND HAND Plate Glass, sizes from one foot square to 8 x 10 ft. Apply at 608 Main street. 47287-9-11

MAID WANTED FOR GENERAL housework, 288 City street. 47285-9-7

SERIOUSLY ILL IN ENGLAND. As a result of the illness of his son, Purvis Loggie, who holds an important position with the Vickers-Maxim company in England, manufacturers of the aeroplanes being used by the British government, Lieut. Col. T. G. Loggie, deputy minister of lands and mines, left last evening for Montreal, en route to England. He is accompanied by Mrs. Loggie. Purvis Loggie is a graduate of McGill University, and previous to his departure for England obtained an aviator's certificate from the Curtis company, having taken an instructional course at Detroit, since his arrival in England, Mr. Loggie has been with the Vickers-Maxim company, his post being an important one.

A SPLENDID GIFT FOR A WORTHY CAUSE. Those who have not yet seen the magnificent upright piano given this season for patriotic purposes by Amherst Pianos, Limited, through the local representatives, The J. A. McDonald Piano Co., Ltd., should make a point of doing so while it remains on exhibition in the Mary Millinery Company's window, Charlotte street.

This instrument which is valued at \$500 is beautifully finished in mahogany, a stool of corresponding finish having been sent along with it, and has a rich, round, sweet tone, being regarded as one of the finest pianos ever shown here.

A feature of recent fairs held under the auspices of the Rotary Club has been the sale of tickets for this splendid instrument, at 25c. each, or five for \$1.00. They have been selling rapidly, and may still be obtained at Mars.

RUSSIANS DRIVE TURKS FROM PERSIAN CITY. Washington, Sept. 2—The Russian have driven the Turks out of Sulimabad, a city nearly 500 miles inside the Persian border, according to a dispatch received in official quarters here. It was said that large Russian reinforcements recently sent into North Persia probably could check the Turkish advance on Teheran, the Persian capital, unless unexpectedly large Turkish detachments were sent up from the Bagdad army.

When Cutting Teeth Babies are Subject to DIARRHOEA

When the baby starts to cut its teeth, then is the time that the poor mother is under the stress of great anxiety. For some reason or other the bowels become loose, and diarrhoea, dysentery, colic, cramps and many other bowel complaints occur; the gums become swollen, cankers form in the mouth and in many cases the child wastes its shadow.

When the child gets into this condition the mother must be looked after very closely, and for this purpose we know of nothing that can equal Dr. Fowler's Extract of Wild Strawberry.

This sterling remedy has been used for teaching children, for over seventy years by thousands of Canadian mothers who will swear by its efficacy.

Mrs. R. J. Wainwright, South River, Ont., writes: "Two years ago my little girl had diarrhoea while cutting her teeth. I was very anxious and had tried different remedies, but all to no avail. A friend recommended Dr. Fowler's Extract of Wild Strawberry, so I procured a bottle of it, and after she had taken a few doses she was cured. I think every home should keep it on hand."

THE BEST QUALITY AT A REASONABLE PRICE. The wrist watch is the idea of an army officer to promote efficiency in the troops.

The idea was too good to keep in the army. Civilians who drive motor cars, play golf, hunt, fish or engage in other outdoor sports or work, wear wrist watches because they are more practical timepieces under these conditions than pocket watches are.

We make a specialty of wrist watches. Come in and look them over. Prices range from \$7.00 to \$25.

L. L. Sharpe & Son, Jewellers and Opticians, KING STREET, ST. JOHN, N.B.

ESTABLISHED 1894

You will find people in every walk in life wearing our glasses. The reason is obvious. They know that by entrusting their eyesight to us, they are sure of getting the highest class optical service.

And they are asked to pay only reasonable charges for this service.

That is why the name BOYANER has become synonymous with the good eyesight.

D. BOYANER TWO STORES: 38 Dock Street, 111 Charlotte Street.
