

FOUR FIRMS BID ON SPRINKLERS FOR CITY SHEDS

Tenders Go to Harbor Commissioner and City Engineer for Report

MARKET MATTER TO BE DISCUSSED

Miss P. K. Hanson Asks Action Relative to Property

Tenders for the installation of a sprinkler system in the sheds owned by the city in West Saint John were received from four firms and referred to the harbor commissioner and city engineer for a report, this morning.

Mayor Potts asked if Commissioner Harding had any report to make on the complaint of the stall holders of the market about the placing of certain butchers and for one week their request to place these men in the lower part of the market had been denied.

It had been found that this did not work out well and the order had been reversed. He had not heard anything from the butchers and presumed they were quite satisfied.

The Mayor said they were not satisfied and with the consent of the council he would arrange when these men be heard. This was agreed to.

On motion of Commissioner Bullock two lots in Lancaster were disposed of. One went to the C. F. R. for \$200 and the other to W. L. Reid for \$200.

On motion of Commissioner Frink the public works department was authorized to pool its balances for the current year.

ASSESSMENT PROTEST. O. S. Dykeman appeared from the valuation on his land in Robbsey avenue. He said he had purchased this for \$1,200 and he was assessed on a valuation of \$4,800, which he considered excessive. The communication was referred to the mayor to arrange for a hearing.

Commissioner Harding reported that he was in favor of granting permission to Allick Taylor to install a gas tank and pump at his corner and a motion to grant the permission carried.

E. P. Raymond, solicitor for Miss P. K. Hanson, asked that the city give a permit to his client to repair her building in North Market street; that the sidewalk on her land in North Market street be repaired; that she be returned a permit to use the buildings on account of the building inspector refusing to give her a permit to use them.

This communication was referred to the Commissioner of Safety and city solicitor for a report.

Sprinkler Tenders. Four tenders for a sprinkler system for the West Side sheds were opened and referred to Commissioner Bullock and the city engineer, as follows: H. G. Vogel Co., \$1,000; deferred payments, 10 years, \$97.68 per \$50; Byrnes and McGough, cash, \$97.50; deferred payments, 10 years, \$129.50; Grinnell Co. of Canada Ltd., cash, \$98,980.72; deferred payments, five years, \$93,088.86; 10 years, \$121,041.90.

Automatic Sprinkler Co. of Canada Ltd., cash, \$94,842; deferred payments, 10 years, \$183,070. The latter company offered if awarded the contract to move their Maritime office from Halifax to this city.

His Worship asked that the council meeting be postponed until Thursday morning at 11.30 and this was agreed to.

Another Victory For Marcus Taste Shipment to Norway of Living Room Furniture For Couple From California Who Shopped Around and found Marcus Selection Unsurpassed by World's Biggest Furniture Firms

Aboard the steamer Haukfell, from here to Oslo, the capital of Norway, is a load of Living Room furniture, purchased by Mr. and Mrs. O. Neilson from J. Marcus, Ltd.

Oslo is a wonderful city. You saw pictures of it showing the triumphant royal welcome given Amundsen and his companions on returning from their flying dash to the far North. A beautiful city, rich in architecture, a city of beautiful shops and merchandise. A splendid place to seek fine Furniture.

They have smart Furniture Stores in California and New Orleans, whence came the Neilson's to Saint John after exporting a cargo of cattle. The largest Furniture firm in the world, Barker Bros., is down there - the Neilson's looked about in the best of them. Sacramento, Oakland, San Francisco, Los Angeles, New Orleans and the prospect of the great shops of Norway's capital.

Yet they do their buying in Saint John - at J. Marcus, Ltd. A Mahair Chesterfield suite with reverse pattern cushions. A Jacobean Mahogany Console Table. A Walnut Queen Anne Rectory Table.

They did not wait to be asked why they preferred what they saw at J. Marcus, Ltd. "Why your things in both beauty, solidness and price compared with the finest we have seen in the States - so much so that here it is that we are tempted to buy and pay freight and duty taking it across to Europe."

"Another thing," added Mrs. Neilson, "we were captivated equally as much by the courteous and understanding way you guided us about, explaining the suitability of each piece so helpfully."

What was that we quoted from Emerson the other day about the world beating a pathway to your door?
