Harry Allen Expects Busy Season With Visitors From United States

W. Harry Allen, noted guide, fisherman and hunter, of Fenwick, York county, writes that he anticipates a busy season this spring, summer and fall. Each year widens the circle of well-to-do American and Upper Canadian sportsmen who find New Brunswick salmon and moose haunts to be of excellent quality. Each newcomer returns to spread the news amongst his cronies.

Salmon Parties Organizing.

Already dates and parties are being arranged for the first run of salmon on the Saint John river, a preserve controlled by Mr. Allen, Frederick W. Peet of Chicago, laundry magnate and States, also his companion W. E. Kidd, lumber and woodworking man of continental prominence, have written their intention of being on the sporty stream before the ice is all run out. Last spring they paddled the icy waters when the ground was still covered with snow and killed more than 40 fine fish apiece, not landing the smaller ones. These gentlemen are tremendous boosters for New Brunswick's sporting advantages, a compliment of great value as they fish from Alaska to Florida practically the year round.

Other Big Parties.

Last season it was intended that a group of prominent officials of the First National Pictures Corporation, including President Leilani, Mr. Schwalbe, Mr. Bache, chief of the Canadian branch, Nathan Gordon of the Gordon chain of New England theatres and a local theatrical man should take this year's trip but the absence of two of the party who were called to California, prevented it. It may come off this year, however.

PIASINI IS DEAD

Norwegian Youth's Suicide Attempt Proves Successful—No Inquest.

Jacob Piasini, a 21-year-old Norwegian youth, died at the General Public Hospital about 6 o'clock last evening following his attempt to hang himself in his cell in the Central Police Station yesterday morning. Throughout the day, his condition remained unchanged, toward night it grew steadily worse. Hugh H. McLean, J. P. Norwegian consul here, has telegraphed details of the tragedy to the Consul-General for Norway at Montreal and is awaiting instructions from there. Coroner H. A. Porter has declined an inquest, unnecessary. In connection with the police training in first aid referred to yesterday it should be said that this was acquired through the St. John Ambulance Association.

REFUSE TO COMMENT

N. S. Miners Refrain From Discussing Selection of Representative on Board.

SYDNEY, N. S., Jan. 16.—U. M. W. headquarters today refused to comment upon the appointment of Dr. J. W. Robertson of Ottawa to represent the miners of Nova Scotia on the new conciliation board. It is not believed here that Dr. Robertson and Col. Thompson will have any difficulty selecting a chairman, and it is considered most unlikely that the Minister of Labor will have to name the third man. The situation is extremely tranquil, and excitement or agitation of any kind.

WANTS ST. JOHN TO GO FOR INDUSTRIES

S. P. Gerow, Formerly of This City, Writes Mayor From New York.

In a letter received this morning by Mayor Potts from S. P. Gerow, formerly of St. John and now of New York, he writes of how other places go after new industries and he suggests that St. John get busy along the same lines. The text for the letter was contained in one received by the firm of which Mr. Gerow is a member, Gerow, Thompson & Co., of New York, from the San Francisco Chamber of Commerce. In this letter they offered to supply the service of an efficiency expert to analyze the problems of the company and advise on methods to correct them. Mr. Gerow writes: "This morning we received the enclosed questionnaire from the Chamber of Commerce in San Francisco, California, and know your enthusiasm regarding the inauguration of new industries. I thought it might be interesting for you to look over it, the manner in which the Chamber of Commerce of San Francisco go after new industries, even so far as New York. "I suppose that the Board of Trade in St. John carry on this missionary work, but I find here that many concerns are opening Canadian branches who have never heard of St. John, or even the Maritime Provinces. Apparently, there is no attempt at publicity in this regard, and it does seem to me that many industries requiring waterfront facilities go into smaller Ontario towns, when it could be accommodated in St. John."

SEES COW FOR FIRST TIME.

City Girl Prefers Milk in Bottles.

A little St. John girl was staying with her uncle in the country, and with great interest watched him milking his cows. She wrote home as follows: "Dear Mamma,—At home we get our milk in a nice bottle from the clean Purity milk team, but here they squeeze it from a dirty old cow." Of course little Mary did not know that before the Purity milk was delivered in bottles from its fine pasteurization plant, its origin was the cow. But Mary did know that her mamma was compelled to pay fifteen cents a quart for it, until Purity forced down the price. And the price will stay down, so long as the milk consumers back up Purity. Rally to their support. Tell your friends. Every extra quart of milk business given to Purity helps make the low price more secure.

NOTICE.

There are two kinds of western beef, the old fashioned, grayside, tough old cow, and the choice western sun-kissed steer, which is the best of all beef. Some people advertise heavy western beef but don't tell the public what kind of beef it is. But then, the public cannot be fooled all the time. Follow the crown down Union street, a few yards from Waterloo. That is where you get the Western Steer Beef. Meat with the goodness in it.
