KNOTTY QUESTION FOR LOCAL EDUCATIONISTS

Dr. Parkin Explains Conditions of the Rhodes Scholarship Bequest-Matter of Selection.

Dr. G. R. Parkin, trustee of the Thursday. He was received at the wharf by Chairman Drury, Trustee Jay, Principal Paul, of the Victoria High school, and Superintendent Eaton. Accompanying him were Chairman Banray, of the Vancouver school board, and Inspector Stewart. While in the city Dr. Parkin is the guest of Lieut.-Col. Gregory, an old friend. After completing his work here he will proceed to Spokane in furtherance of his plans. sides Dr. Parkin and the delegates reng Victoria and Vancouver, Hon. W. W. B. McInnes, minister of educasided, and City Superintendent Eaton

Dr. Parkin gave a lengthy review of the Rhodes scholarship question. He explained that the reason of his appointment as administrator was his familiarity with both the centre, Oxford, and the colonies. It was, therefore, his duty to travel all over the world to get the opinion of the educational authorities as to the best way of administrating the bequest. This was the last place he would touch in connection with the matter. British Columbia presented circumstances distinctly new to him, and he wanted the educational authorities here to give their

Dr. Parkin then explained how he went about his task. To deal with the question intelligently he had to ascertain Oxford's attitude towards the scheme. This was a somewhat delicate matter. Oxford, he pointed out, consisted of twenty-one colleges, independent communities or families, as it were, and their doors were watched very closely. To suggest abruptly to these colleges that they should take in two hundred students from other parts of the world would cer tainly be trying to their nerves. Besides this Mr. Rhodes had remembered only one college in his will, his own college. The scheme, therefore, imposed an additional burden on the Oxford authorifested by the length to which they had

Dr. Parkin then read the list of ques tions forwarded by him to the various colleges of Oxford, inquiring their atti-tudes toward the scheme. He also gave the replies from some of them, including Oriel, where Mr. Rhodes was a student, Oriel didn't desire more than twelve scholarships there at one time, and would also expect some evi-dence of qualification. Balliol, which had a specially high intellectual stand ard, was prepared to receive either four or five. It also alluded to the desirabil ity of some administrator being stationed the Old Country to stand as Dr

at this regard Dr. Parkin pointed out t every college would be asked to re-t on the progress of the students semi-ually. An important feature in the eme would be the opening of careers to young men. The net result of his in-ries was that Oxford was perfectly ling to take the students under the con-

to make the necessary comparison. A feasible plan was to let the various colleges meaninate their candidates in retation. This plan would be adopted in Ontario, Quebec, Maine, New Hampshire, Vermont, and, according to a communication received by him form President Wheeler, of California University. From Fresident Wheeler, of California University, in that state also. There would be always twenty-four men from Canada attending Oxford, eight dropping out yearly. Another serious question was that of age. The concensus of opinion among educational men was that the maximum limit should be twenty-three or twenty-four. On this subject also it was processory to been

Some discussion arose on a point brought up by Supt. Robinson as to whether it was the feeling that the scholarship should be restricted to state-conducted institutions. He d'du't want to see denominational schools established in this province.

Dr. Parkin said that the best man in the province should be selected. Mr. Rhode's will provided that no race or creed distinction should be drawn.

After some further consideration of the question an adjournment was taken until this afternoon.

IMPERSONATION CASES.

Evidence in One Case Taken Before Messrs. McMicking and Pearson, J's P., Yesterday,

Before Justices of the Peace R. B McMicking and Joseph Pearson, in the provincial police court yesterday after on, evidence was taken in the case of Philip Robertson, alias "Brocky Phil," of Vancouver, accused of an attempt to induce William Darlington to apply at a polling station on Galiano island for a ballot paper in the name of some person other than himself in the recent election in North Victoria electoral district. R. Cassidy appeared for the prosecution and Geo. Fowell for the defence.

William Baynor, master of the steame ness examined. He told of having made the islands. He started from Nanaimo about 9 p.m. and proceeded to Vancou ver, arriving there on the morning of He received his orders from the purser there about 8 a.m. Returning, the steam had some passengers aboard and had no doubt but that the accused was one.

William Darlington, of Vancouver, was the next witness. He said that in conversation with the accused the day previous to the election the latter remarked, when told he had no vote, "That did not matter—what he wanted was just to get a majority." Accused said if he wanted to make \$5 to go and vote. Witness then told of having visited the Europe hotel in Vancouver, where the arrangements for the trip to Gallano Island were made. He left the hotel at 3 a. m., going to the steamer. Witness did not know who to vote for until aboard the steamer. He then received a slip of paper from the accused. He also received \$10 from the accused. He also received \$10 from the accused. Anderson. The name on the slip of paper was "Solomon Cadman, No. 88." Accused said that self and \$5 for a man named Anderson. The name on the slip of paper was "Solomon Cadman, No. S&" Accused said that that would be a good name. A man named Peterson was with him at the time. In answer to Mr. Powell, witness at first refused to state that he impersonated the person named on the ballot, but afterwards said: "I was told to mark my ballot for Paterson, and had my instructions to that effect from Peterson." In reply to Mr. Powell, accused said he was not challenged by the poll clerk when he went to yote. The court then adjourned until to-morrow. James Hanna, another who is charged with impersonation in the same election, was belore the same Justices of the Peace this morning. The former case, however, will take precedence, and the case was accordingly adjourned until Monday morning at 11 o'clock.

INTERESTING CEREMONY. ent of Work on Congrega-

ated Yesterday. A good crowd of members of the Congregational church assembled at the sit of their new building, corner of day afternoon. The occasion was a cereony in every particular similar to the laying of a corner stone with the excep-In the bottle was placed copies of the Times and Colonist, a copy of the constitution of the church, a his tion and its growth since then, the name of the pastor and office bearers of the church, and its departments, the names of the architect, contractor and foreman of the work, besides the cards of all who paid ten cents for the privilege.

A platform had been constructed for

he purpose and a few minutes after hree o'clock the pastor, Rev. R. B. Blyth, called upon the members of the building committee, Messrs. Wm. Scowcroft, Dr. Spragge and Geo. Carter, and members of the congregation to take their places, and the ceremony was prolined the nature of the gathering, after tents of the bottle. It was then handed made a brief address, congratulating enterprise and extending to them many is greater than I." Christian Science quiries was that Oxford was perfectly willing to take the students under the conditions of the bequest. At first they would be received on nomination of the trustees. In the bottle in a cavity of the wall which had been prepared for it. The ceremich was concluded by the conditions of the trustees.

author in Latin, and a fair amount of arithmetic, mathematics and such ordinary subjects. Students who wish to get full information about this examination are product of provincial educational institutions or a British Columbian pursual of the Students' Handbook of Oxford, which gives full information about this examination about this examination.

British Columbian pursual and of the Students' Handbook of Oxford, which gives full information about this and other examinations. Those who wish to get full information about this education in outside colleges? Dr. Parkin outlined at length the varous plans of selection proposed, pointing out in reply to Trustee Brury that no system could be made uniformal. He would present to the trustees the views of the conference on the question. Life," and "Oxford and Its Colleges."

YOUNG MEN, Become Independent

MR. NORTON EXPLAINS CHRISTIAN SCIENCE

A Complete Exposition of Its Teachings and Various Phases-Part of His Address.

delivered an interesting lecture on its day. Mr. Norton is a capable speaker, and held the unflagging attention of his address until the conclusion. He said in

Christian Science is the most-thoughtof aspect of the Christian religion of these early hours of the new century. It What has Christian Science accomplish-What has the race a right to exthe days that are to be? These are perdispassionately discussed and prayerfully posed ignorance. A dogmatic sense of religion is mental stolidity. A one-sided or prejudiced point of view is a position of either religious or scientific truth is in admissible in this age of enlightment and mparital investigation. Wrong traditional influences are no part of a pro-gressive mentality, and thinking minds are always open to the light whenceso-

Is Christian Science evangelical in its attitude toward our Lord and Master? recognizes in Jesus the fulfillment of the Messianic prophecies and hopes of the Hebrew people. It teaches His immaculate conception, spiritual incarna tion, baptism and His reception of the escent of the Hely Spirit. It accepts the record of His power over the elenatural deeds, miscalled miracles. His works of healing, regeneration and divinely compassionate forgivenness of sinners. It accepts His atonement as a revelation of the divine process of at-one-ment with God. It bows in humility before His Gethsemane struggle, and sees in the tragedy of Calvary the great climax in the drama of atoning love. It believes in the truth of His Easter morning resurrection, and teaches that He restored Himself, healing His wounds and removing the winding sheet from His own body and the napkin from His head in the tomb. It accepts the story of His orded in the Gospels, and sees in His

shower, and in this acceptance lays leattitude toward the personality, individuality and work of the Saviour. Does Christian Science take a liberal view of the life and character of Jesus? Christian Science reiterates the ancient God, "Hear, O Israel: The Lord our God is one Lord," and therefore it reaffirms the words of Jesus. "My Father good wishes for a prosperous future. sees in Jesus and in His sinless, ascendbe received on nomination of the trustees, but the results would determine whether this could be continued.

The cere- might be one with the Father, even as meny was concluded by the pastor, who read a few passages from the Bible and as perfect as God was perfect, and as

standing is left open for decision by the than 19, nor older than 24 years of age.

that subject also it was necessary to learn the attitude of Oxford. President Elliott, of Harvard, urged that young Americans be sent to Oxford, just like young Englishmen. But in reply to that Dr. Parkin alluded to the clause in the Rhodes will which showed the testator didn't want the young men to be denationalized. It was the great weight of opinion in the United States and Eastern Canada that men should be sent as their national sentiment was not as likely to become altered by the different environment as that of young fellows below the age of maturity.

In the New England states the educa-

Christian Science text-book was the greatest book of the nineteenth century. Love, not creeds, will be the keynote of twentieth-century Christianity. Scientific religion will take the place of dogmatic mysticism, and spirituality, genuine and natural, will displace materiality and mortal speculation. Works rather than belief will crown Christian activity. Christ will be, more than ever before, the Christ will be, more than ever before, the central figure in all reformatory and healing work. Health will become con-Christ will be, more than ever before, the central figure in all reformatory and healing work. Health will become contagious and disease occasional rather than uniform. Not only Christendom will be reunited under the spiritual leadership of Christ Jesus, but all civilization will become essentially Christian and Christ will be in deed and truth the YOUNG MEN, Become introportations
