

PANTRY TALKS

I am the Queen of the Flour Bin, the lady-in-chief of the Royal Pantry, the oracle of the Royal Household.

I want the attention of Big Folks and Little Folks, of Experienced Housewives and Inexperienced—of Rich housewives and Poor—Young housewives and Old.

For I have stories to tell. Secrets—four secrets—to unfold. And these secrets have come by Experience—by actual knowledge of flour, actual study of different grades of flour.

So I will ask your close and careful attention to my little stories about flour and bread and cakes and pies and things.

And I will promise you Profit as well as Pleasure from them. If I can tell you the secret of making better Bread and Cakes and Pies and Pastry, that will be profitable to you.

And if I can tell you why one flour is more economical as well as more wholesome than another, that, too, will be profitable.

For I mean to go into the flour question deeply, giving Whys and Wherefores, Facts and Figures.

I hope to instruct and edify at the same time. So if you follow my little stories from time to time, as they appear, you will learn lots of things about flour that nobody has told you before. These Pantry Talks of mine will be chiefly about

Royal Household Flour

so named because it was the flour selected for use in the Royal Household of Great Britain. It is the one flour in Canada which stands out head and shoulders above all the rest. It is made in Canada by the largest millers in the British Empire—The Ogilvie Flour Mills Co. Limited, Montreal, and, because of its high quality and absolute uniformity, has given the greatest satisfaction both for Bread and for Pastry.

MERGER PLAN HAS ABOUT COLLAPSED

River Steamship Companies Likely to Operate Separately.

The project for the amalgamation of the steamship companies doing business on the river, for which representatives of the concern met some time ago, appears to have collapsed.

J. Willard Smith of the Star Line, to whom the calling of another meeting was left, said last evening that he did not think it likely the meeting would ever be called.

The plan is one of long standing, having been brought to light in some form or other for a number of years past. The companies are in a way anxious for union, as none of the boats has been making any money, and amalgamation would put a stop to the cutting of prices, which in some particulars has brought things to a ridiculous stage.

They have been rivals for so long, however, and the work of straightening out the affairs of the companies and appointing a new management would be so complicated that the parties do not dare to attempt it.

Asked last evening as to the appointment of a successor to Capt. McLean of the Majestic, who is going to the Elaine, Mr. Smith said that he could say nothing yet. Mr. Curry might take all the Star Line men and like, but plenty more could be secured.

BRIGHT'S DISEASE FATALITIES

COULD EASILY BE AVOIDED BY PROPER ATTENTION TO THE WARNING SIGNALS OF KIDNEYS AND BLADDER.

PRESCRIPTION GENUINELY GOOD. This prescription is genuinely good and may safely be taken by any one having the symptoms (any of them) of kidney disorders and bad health.

Any honest druggist can mix it, or one can get the genuine ingredients separately and mix it at home and sure results will be accomplished. Mix fluid, extract, tincture, 1 oz., compound fluid, wort 1 oz., and compound syrup of sarsaparilla 4 ozs. The directions are to shake well and take a teaspoonful before or after meals and one when retiring. Also drink plenty of water through the day.

MRS. ALLISON PASSES AWAY

Prominent in Social and Church Work

Deceased by Dr. Flanders— Ill 12 Weeks.

Helen Matilda, wife of Joseph Allison, passed away at her residence, Rathline House, Princess street, at five o'clock last evening after an illness of about twelve weeks. Death was caused by heart trouble, accompanied by complications. During her lengthy illness the deceased suffered intense pain but bore the pain with wonderful fortitude and patience.

The news of Mrs. Allison's death was heard throughout the city with great regret. The deceased lady was noted for her charitable and religious work.

The late Mrs. Allison was in her sixty-third year. She was born in St. John's, N.B., and her parents were the late Joseph Scammell and Fanny Matilda, his wife. The deceased is survived by her husband, Joseph Allison, and two sons, Walter C. Allison and William S. Allison. All are of this city. A daughter, Gertrude, died some years ago. William S. Allison was in Boston at the time of his mother's death, but has been summoned home by telegram and reached the city at noon today.

Mrs. Allison was prominent in charitable work in the city and was very active in Centenary church. The members of the congregation all greatly regret her death.

Rev. Dr. Flanders, pastor of Centenary Methodist church, of which the late Mrs. Allison was a life-long member, said the following concerning the deceased.

"Mrs. Allison was one of the most earnest and devoted workers we had in Centenary, always in a modest and unassuming way, but I question if a day ever passed in which she did not do some kind and beautiful deed. She was respected and loved by every member of the congregation, and will be impossible to fill her place. Centenary congregation is overwhelmed with grief on account of her passing."

The funeral will be at Centenary at 3 p. m. on Wednesday.

The death occurred of Miss Luta B. Christopher, aged 21, yesterday afternoon at 2.30 o'clock at the residence of her parents, Ludlow street, West Side. Miss Christopher has been in ill health for nine months, and her illness became serious about a week ago. She is the third daughter of Charles W. and Amelia Christopher. She is survived by one brother, Edgar W., and three sisters, Maud and Madeline, at home, and Mrs. E. Sutton, of West St. John.

HOLMES AND BUCHANAN AGAIN AT THE NICKEL

Capacity Business at Popular House—"Curing of Rome" Sensationally Fine Piece.

The cold weather and counter attractions did not in the least make business at the Nickel any smaller yesterday afternoon and evening—in fact, it was capacity nearly all the time. It was a great show that attracted many patrons, too, a show superior to any put on in the same house for a good long time. The special attraction was decided hit in the musical comedy excerpt, "Hello, People," from Leslie Stuart's "Havana."

It was a tangle of plots, and a magnificent score, which is as pleasing as ever, was recalled time and again for his rendering of the number, "I Love the Last One Best of All," from the opera "Marrying Mary."

Not alone in the musical department was the Nickel's show of a superior order, but in the line of pictures it proved a high-water mark of excellence. The film sensation of the year—"Curing of Rome"—spectacular production, "Nero, or the Burning of Rome," this subject has been photographed before, but never on such a magnificent scale, never with such close attention to historic value, never with such lavish costuming and realistic effect. It was startling in its reality, its terror, its climax. The Biograph Company's "The Seventh Day" and "Oh, You Uncles," added greatly to this section of the bill and for educational and lightening work, "A Trip Through Mexico" proved a certain delight.

The return of Holmes and Buchanan, that favorite singing duo, who made a

hit in the musical department was the Nickel's show of a superior order, but in the line of pictures it proved a high-water mark of excellence.

The skeleton of the young lady was found lying with one hand beneath the head as she had been sleeping.

Mr. Dunster rushed to his home only to find a smouldering mass of coals and three charred bodies of his children. Miss Jessie, of 48th, left for her home this morning. Much sympathy is felt for the family in their triple loss.

In the popular lecture course at the Natural History Society of New Brunswick this evening, Dr. Silas Alward will lecture. His subject is, "Then and Now or a Quarter of a Century After."

Patrolman Silas Perry was compelled to leave his beat on Thursday evening through illness, and has since been very seriously ill at his home on Adelaide street. His case, a combination of lung congestion and tonsillitis, has called for the attention of two doctors. Mr. Perry's condition was reported last evening to be somewhat more encouraging.

THREE BURNED TO DEATH AT PERTH

Fire Breaks Out in a House While Occupants Sleep

Heroic Efforts of Inmates to Escape—Some Succeed, Others Fall Victims to Flames.

PERTH, N. B., Feb. 7.—A tragedy, sad and terrible in the extreme, occurred at Lake Edward, ten miles from this village, at an early hour this morning, when Miss Hilda Dunster and two young brothers, aged 12 and 13 respectively, were burned to death in a fire which completely consumed their home and in which a third brother, the mother and baby were badly burned.

Mr. Dunster was night watch at a mill a mile distant and Mrs. and Miss Dunster were alone with a number of young children. They retired to bed early, leaving a large fire. Mrs. Dunster was awakened only when the flames burst into her room. She seized her infant baby and after much difficulty found her way through the flames, where she was forced to remain, without being able to awaken the three children and Miss Dunster. One of the younger boys succeeded in escaping by an up-stairs window, but was so badly burned that his recovery is doubtful.

The brother tried to follow, but was overcome before he reached the window. Miss Dunster and the third brother had evidently been suffocated, as the charred bodies were found in the mattress on which they had been sleeping.

The skeleton of the young lady was found lying with one hand beneath the head as she had been sleeping.

Mr. Dunster rushed to his home only to find a smouldering mass of coals and three charred bodies of his children.

In the popular lecture course at the Natural History Society of New Brunswick this evening, Dr. Silas Alward will lecture.

Patrolman Silas Perry was compelled to leave his beat on Thursday evening through illness, and has since been very seriously ill at his home on Adelaide street.

His case, a combination of lung congestion and tonsillitis, has called for the attention of two doctors. Mr. Perry's condition was reported last evening to be somewhat more encouraging.

EARTH WILL BUDGE HALLEY'S COMET

Though It's a Million Times Bigger Than Us

or It Is Gaseous, While the Earth is Solid—Nearest on May 18—Some Tips.

CHICAGO, Feb. 7.—Prof. Edwin E. Frost, director of the Yerkes observatory at Williams Bay, Wis., said today: Halley's comet, on which all eyes are turned, is about 1,000,000 times as big as the earth. Yet although the earth's gravity may change the orbit of the comet the earth's path through the sky will be unaffected by the approaching proximity of the two bodies.

"This supplementary information contained in a circular respecting observation of Halley's comet," says the astronomical and astrophysical society of America. The circular says that an expedition to observe and photograph Halley's comet from the Hawaiian islands is to be sent out by the society, and sets forth that:

"In view of the possible large perturbations arising from the close approach of the comet to Venus on May 1 and to the earth on May 18, meridian observations are especially desired during the period in which the comet is sufficiently bright for that purpose."

"What are these 'possible large perturbations'?" Prof. Frost was asked. "That merely means," was the reply, "that on those dates the comet will be near enough the planets mentioned to be affected by their attraction."

"Will that affect their orbit?" "It won't affect the orbit of Venus or of the earth, but it is likely to affect the comet's orbit. That is one reason why we will show almost exactly these orbital changes."

"There will be an interesting spectacle, by the way, on May 1, when the comet is near to Venus. The planet and the comet will be practically the same distance from the earth and every one will be able to see their relative size."

"The comet's bulk exceeds that of Venus about 1,000 times. It is not solid matter, however. It is gaseous and its mass is comparatively slight. Therefore, its attraction will not affect the planets, while the solid heavy planets are likely to affect it a good deal. The earth and Venus are about the same size, so that the earth, too, is about one-millionth of the size of the comet."

Frederick Bierman of the Solar Observatory at Pasadena, Cal., will head the Hawaiian expedition. The circular of Halley's comet was issued by the committee on comets of the society. On the committee are Prof. George C. Comstock of Madison, Wis.; Edward B. Barnard of Madison, Wis.; Charles D. Perrine and Edward C. Pickering of Harvard University. Says the circular:

"The close approach of the comet to the earth promises unusual opportunities that obtain in such a body, and as an independent and unprejudiced committee recommends a photographic campaign as long and as nearly continuous as possible, the comet's close proximity to the sun's direction at the time of maximum brilliancy imposes serious limitations upon these programs and widely extended co-operation will be required throughout the whole circuit of the earth if this ideal of a continuous photographic record is to be even remotely realized."

"All meteors are bits of solid matter—supposed to be debris of comets—their attraction will not affect the comet's orbit."

"The theory that a comet's tail is longer when it is nearest the sun is somewhat arbitrary. Theoretically it would be so, because it is the reaction from the sun's light which causes the emanation of streaming vapors that form the tail. But actual observation shows that when a comet is near the sun there are other changes in its position which offset the greater force of this reaction of light. A comet's head, for instance, shrinks when near the sun instead of expanding."

Mason Had Salt Rheum

ON HANDS FOR YEARS—COULD NOT GET WELL—DR. CHASE'S OINTMENT

There is nothing worse for eczema and salt rheum than cold water. For this reason many people are afflicted in cold weather only.

No class of men suffer more from such ailments than bricklayers and stone masons, and this fact makes the accompanying letter particularly interesting.

Mr. John W. Neas, stone mason of Lunenburg, N. S., writes: "I had a great sufferer from eczema and salt rheum for years and could get nothing that seemed to be of any real benefit. Five years ago I got a box of Dr. Chase's Ointment and three boxes of Dr. Chase's Kidney and Liver Pills and this treatment cured me so that the old trouble never returned. My skin became as soft and smooth as a child's after using Dr. Chase's Ointment and I shall always say a good word for it."

Very many people suffer from skin affections in the cold weather and try one thing after another without obtaining the marked and lasting benefit which comes with the use of Dr. Chase's Ointment.

Chilblains and frost bites are quickly relieved and cured by the wonderfully soothing, healing influence of this ointment. Chapped and irritated skin becomes soft and smooth. Each and every form of itching skin disease is thoroughly cured.

Dr. Chase's Ointment, 60 cts. a box. All dealers; or Edmondson, Bates & Co., Toronto. Write for a free copy of Dr. Chase's Recipes.

CROUP

THERE IS NOTHING that strikes terror to the hearts of parents more than to be awakened in the night by the ringing cough which accompanies an attack of croup. The child may retire with nothing but a slight cold and a few hours later the family be aroused by the ominous symptoms. Every home where there are small children should be prepared for these sudden attacks, as prompt treatment is necessary. Do not experiment with remedies of doubtful value, but get

CHAMBERLAIN'S COUGH REMEDY

that has been in use for nearly forty years and never known to fail.

Mr. Homer Krohn, of Lisbon, Iowa, in a letter to the manufacturer of Chamberlain's Cough Remedy, says: "I have used your medicine for what it has done for my children. He says: 'It has not only saved them once but many a time. Only two weeks ago my boy had the croup so bad in the night that had it not been for having a bottle of Chamberlain's Cough Remedy in the house he would have choked before a doctor could have gotten to the house. It is a medicine that no one should be without at any time. It is pleasant to take and many children like it.'

"We guarantee every bottle of Chamberlain's Cough Remedy," says W. M. Parish, Palmerston, Ontario. "Out of the many bottles sold last winter not one was returned. We recommend it especially for children with croup. Chamberlain's Cough Remedy is famous for its prompt cures of coughs, colds and croup. When given as soon as the child becomes hoarse an attack of croup may be averted. This medicine is entirely free from narcotics or injurious substances of any kind and may be given to the little ones with absolute safety."

Attacks of croup are most likely to occur during the early winter months, and every family with young children should be prepared for it. Keep a bottle of CHAMBERLAIN'S COUGH REMEDY in your home. It only costs a quarter, large size 50 cents. Your druggist sells it.

Synopsis of Canadian Northwest Land Regulations

Any person who is the sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$100 per acre. Duties—Must reside six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate 40y acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price \$100 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$2000.

URGENT THE FORMATION OF ALL-CANADIAN ASSO. OF MANUFACTURERS OF CONFECTIONERY DISCUSS IMPORTANT MATTERS.

At a conference of Canadian manufacturers of confectionery, held at the Board of Trade rooms here yesterday afternoon, the following resolutions were discussed by those present. The fact that Canadian manufacturers do not get the same refund on all exports as do the confectionery manufacturers of the United States and Great Britain, it was not deemed advisable at this meeting to be held this morning. Several manufacturers from western Canada who are attending the conference urged last evening that an association of all Canadian confectionery manufacturers be formed in order that they might work in harmony with the manufacturers of eastern Canada.

Definite action on this matter was postponed until today. Other matters of importance concerning the candy business were also discussed.

Mr. Edmund of Toronto, representing the Christie Biscuit Manufacturing Co., occupied the chair. Among the companies represented at the conference are: The Mair Co., Ltd., of Halifax; Garone Bros. of St. Stephen; The Perrin Co., Ltd., of Toronto; The McCormack of London, Ontario; and Christie Biscuit Co. of Toronto.
