THE STAR, ST. JOHN, N. B. TUESDAY MARCH 8 1910

RED ROSE TEA.

"Is Good Tea"

THOMAS TO GO IN BY ACCLAMATION

CROCKET, OF YORK, HAS IMAGINATION

FREDERICTON, N.B., March 7.—Today was nomination day for mayor and aldermen of the city. Up to a late hour this evening no opposition has come forward to Mr. C. H. Thomas as mayor, and it is generally conceded he will be elected by acclamation. In all of the wards of the city there are full tickets nominated. In Wellington, H. T. Baird and ex-Ald. Moses Mitchell, Ald. Hooper and Ald. Ryan, St. Ann's, Ex-Ald. Woodall, ex-Ald. Yanwart, Ald. Kitchen, and Ald. Moore, Carleton, Ex-Ald. Walker, H. E. Harrison, Ald. Churchill, P. J. Farrell, Queen's ward, D. J. Shea, W. J. Osborne, Ald. Jewett, Daniel Elliott, King's ward, N. Ward, W. G. Clark, Geo. Wilkes, Ald. Calder, C. W. Whelpley.

The first two named in each ward are representing the Scott Act, and the last two are termed the citizens ticket. Up to the present time interest is shown in the contest, and it is evident that all parties are working on the quiet.

The first issue of Fredericton's new Liberal paper, "The Mail," it is announced, will be published to-morrow. John A. Bowes, formerly editor of the St. John Gazette, will be editor, with Mr. R. P. Allen, lately of the Herald staff, as city editor.

ONTARIO ESTIMATES LARGER THIS YEAR

TORONTO, Mar. 7.—Ontario main estimates for 1911 tabled in the house by Provincial Treasurer C. J. Macdonald this afternoon are considerably larger this year, although the total, including supplementary estimates that will follow next year will show little increase in expenditure. The total is about \$7,625,000. Three important items are those providing for the construction of a new provincial reformatory near Guelph, for a new government house, and for the construction of an additional wing to the parliament building. The sums required for prison and government house will, according to Hon. Col. Matheson, be met from provincial surplus, but these amounts are more in the nature of a loan than expenditure since the sale of the present central prison and government house properties will return to the treasury amounts expended.

BRODEUR RAPIDLY RECOVERING

OTTAWA, March 7.—A letter received today from Hon. Mr. Brodeur who is now at Pinehurst, South Carolina, states that he is rapidly convalescing from his serious illness of the past two months.

MONTREAL, March 7.—The ice moved here today in the harbor and with the river open from Three Rivers down it looks as if navigation will open in the first week of April.

ACCIDENTS WILL HAPPEN!

The finest "first aid" is Zam-Buk for many reasons. It is antiseptic—kills the poison in any wound, or skin injury, or disease against poison-germs in the air which are always ready to enter a sore place and set up poisoning and putrefactive change. Immediately they enter Zam-Buk they are instantly killed. While certain ingredients in Zam-Buk are such protecting you against external dangers, the rich healing herbal essences in the balm penetrate the tissue, stimulate the cells, and bring about perfect healing. Nothing like it! Watch it work!

CONTAINS NO ANIMAL OIL OR FAT. NO POISON. NO MERCURY. NO DANGEROUS DRUGS. PURELY VEGETABLE.

Zam-Buk

PROOF FROM THE HOMES.

Mrs. Halliday, of Worcester, Ont., says: "I have found Zam-Buk a most reliable household remedy. I have used it for cuts, sores, and various skin diseases, and have found it to be a most effective cure in every case. I would not be without a box of Zam-Buk in the house in case of emergency, and I recommend all mothers to keep a box."

Mrs. H. B. Levy, of Hackett's Cove, N.S., says: "I have used Zam-Buk for many years, and it has cured my children of many skin diseases, and I have found it to be a most effective cure in every case. I would not be without a box of Zam-Buk in the house in case of emergency, and I recommend all mothers to keep a box."

Equally good for all skin injuries and diseases. Price, 50c. per box. Druggists and stores everywhere. Zam-Buk Co., Toronto.

FIVE CENT PIECE MAY BE LARGER

Movement Afoot to Substitute Nickel for Silver

The Present Coin so Small as to be Almost a Nuisance—Seeking the Government Ear.

TORONTO, March 5.—The elusive, little Canadian five cent piece, the United States visitors to Canada, is doomed if many geologists, metallurgists and mining men have their way. It is the nickel, the adoption of a nickel coin worth the same amount of money would be an improvement. Germany, France, and other European countries have adopted nickel for coinage purposes, and why not Canada, a country where nickel is a characteristic metal and where fifty-five per cent. of the nickel production of the world is mined? They ask. This word nickel, as applied to a five cent piece, is a misnomer, for the word nickel is never used when Canadian coins of that denomination are referred to. Canadian five cent pieces do not contain any nickel. United States five cent pieces are composed of an amalgam of nickel and copper.

NICKEL FOR COINAGE.

Dr. W. G. Miller, Provincial Geologist and ex-President of the Canadian Mining Institute, is an enthusiastic advocate of the superiority of nickel for coinage purposes. In his presidential address he made the following reference to the matter. Heretofore the Dominion mint at Ottawa has been turning out copper and silver coins and British sovereigns. Now it is hoped that long Canada will have a pure nickel coin, since this metal has been used by several European countries for coinage and found to be well adapted for the purpose. The present Canadian nickel is the smallest coin in the current coinage. It is also, perhaps, the most handled, and its size makes the handling of it extremely awkward. It is so near the size of a cent piece that it is not an easy matter to distinguish the two, unless by careful scrutiny.

CAN BE STAMPED.

"Pure nickel can be stamped now," Dr. Miller stated, "and would be stamped if the government showed signs of being interested. Earl Grey, Governor General, telegraphed congratulations to Messrs. MacCurdy and Baldwin last week and asked to be kept in touch from day to day."

WILL IT BE FAVORED?

The Federal government has been impressed by expert metallurgists and others with the desirability of having a real nickel five cent piece coined in Canada. Nothing has been done yet, but the disciples of the "real nickel" are as enthusiastic as ever and expect that the question will be taken up seriously in the near future. Canada produces sixty-five per cent. of the world's supply of nickel; New Caledonia being the closest competitor of the Dominion. It has been styled Canada's characteristic metal and its value is increasing as its usefulness becomes more widespread. Many residents are being put forward favoring its adoption into the Canadian coinage, and business men, as a rule, as well as the general masses, favor such an innovation. Certainly, the visitor from across the line would be greatly relieved when he came to Canada for a business or pleasure visit to find that the "infamous little Canadian nickel" had been passed up, and a real nickel coin, net the greasy, half nickel, half copper two cent piece of Uncle Sam's domain, substituted. Advocates of the new coin are expecting a general crusade in its favor in the course of a few years. When once adopted, they contend, it will be a widespread favorite, even among street railway conductors, who will then be able to distinguish the new coins more readily, though the fare mouth of the fare box would have to be enlarged.

REMAINS DISCOVERED

HORRIBLY MUTILATED

Young Farmer Killed on C. P. R. Tracks Near the Border—Murder Suspected

RICHMOND, Vt., March 7.—The frightfully mutilated body of Albert Mersey, a young farmer, was today found scattered along the tracks of the Canadian Pacific R. R. on both sides of the international boundary, about one mile north of here. The discovery of the body, the two legs, and one arm are not such as to preclude the possibility of the body having been thrown from a swiftly passing train. But the finding near the body of a blood-stained axe and the presence in the abdomen of a deep wound such as might be caused by an axe cut, indicated murder. The investigation to be held to-morrow by the attorney Elmer Johnson, of St. Albans, is expected to decide on the question of whether the authorities of the Canadian province of Quebec or of this state has jurisdiction in the matter.

LUCKY MR. MANN.

TORONTO, March 7.—D. D. Mann of the Canadian Northern has secured a block of land in British Columbia said to be worth twenty million dollars. Mineral deposits exist on the property.

MacCURDY CLIPS AERIAL RECORDS

With Baddeck No. 2 He Remains in Air Half an Hour

Flights Accomplished With New Radiator on Machine—Earl Gray Interested.

BADDECK, N. S., Mar. 7.—All Canadian aviation records were broken here today. Droning over the ice on the Bras d'Or Lakes started early this morning. About 7.15 A. M. MacCurdy took his seat at the steering wheel on Baddeck No. 2, accompanied by Fred W. Baldwin as passenger. The motor was started and after a run of nearly seventy-five to a hundred yards the machine took to the air, carrying the aviators with the grace of a bird. Mr. MacCurdy kept at an elevation of from six to eight feet from the ice, circled the bay for about seven minutes and alighted with ease. Then they made two more successful flights together of from four to six minutes duration.

This is the first time a passenger has been carried on any of the chimes here. Change of radiators was then made and Mr. MacCurdy again took his seat and circled the bay at an elevation of from fifteen to twenty feet for sixteen minutes and alighted. Finding the motor cool and everything in good shape, Mr. MacCurdy, seating himself turned on the power and again took to the air, and broke all his previous records by remaining in the air for half an hour, at which time, as pre-arranged, he was to receive a signal to come down. These two flights were accomplished with the Canadian Aerodrome Company's new radiator on the machine, which is built on the same curves as the machine and of unique construction. Everything came off without a hitch. Mr. MacCurdy says he could have gone on in this flight for an indefinite time.

On Nov. 1, Dr. Graham Bell's Machine, an entirely new structure, was taken out and run over the ice for the first time with William P. Baldwin as aviator, with a small air cooled motor to test the efficiency of the machine, no attempt being made to raise the machine in the air.

The Canadian government show signs of being interested. Earl Grey, Governor General, telegraphed congratulations to Messrs. MacCurdy and Baldwin last week and asked to be kept in touch from day to day.

Major Mansel, R.C.E., member of the Militia Council, telegraphs MacCurdy and Baldwin will arrive in Baddeck, Tuesday evening, to witness further flights.

EXHIBITION PRIZES

VASTLY INCREASED

From 50 to 125 Per Cent Greater—Horticultural and Agricultural Products Apportioned More Money

The Dominion exhibition prize list is in the hands of the printers and is issued in a short time. In the meantime there is naturally a great deal of interest among intending exhibitors to know to what extent the various awards will be increased over former prize monies. It is a trifling increase in the horticultural and agricultural prizes. It is a trifling increase in the horticultural and agricultural prizes. It is a trifling increase in the horticultural and agricultural prizes.

OPERATION

CHANCE

Was Cured by Lydia E. Pinkham's Vegetable Compound

Lindsay, Ont.—"I think it is no more than right for me to thank Mrs. Pinkham for what her kind advice and Lydia E. Pinkham's Vegetable Compound has done for me. When I wrote to her some time ago I was a very sick woman, suffering from female troubles. I had inflammation of the female organs, and could not stand or walk any distance. At last I was confined to my bed, and the doctor said I would have to go through an operation, but this I refused to do. A friend advised Lydia E. Pinkham's Vegetable Compound, and now, after using three bottles of it, I feel like a new woman. I most heartily recommend this medicine to all women who suffer with female troubles. I have also taken Lydia E. Pinkham's Liver Pills and think they are fine."—Mrs. F. E. Lindsay, Lindsay, Ontario.

Chamberlain's Cough Remedy

WILL CURE Your Cold. Try It

The uniform success that has attended the use of this remedy in the cure of bad colds has made it one of the most popular medicines in use. It can always be depended upon to effect a quick cure and is pleasant to take. It contains no opium or other narcotic, and may be given as confidently to a child as to an adult. Price 25 cents. Large size 50 cents.

MR. KNOX, JUNIOR, WEUS SHOP GIRL

Son of U. S. Secretary of State Principal in Romance.

PROVIDENCE, R. I., March 7.—Wearing a broad wedding band of gold and with a large diamond engagement ring sparkling upon her left hand, Miss May Boler, 21 years old, a former shop girl of this city, to-night coyly claimed Polander C. Knox, Jr., the twenty-year-old son of the secretary of the city, as her husband.

"We were married in Burlington, Va., Sunday evening at 7 o'clock, by a minister," she confessed to a reporter after having maintained silence for four hours under a volley of inquiries. The first revelation of the romance proved rather disconcerting to young Knox. News of his efforts to obtain a marriage license on Saturday and Sunday in several places on the Canadian border, preceded him. Upon his return, early to-day, he refused to tell Principal French of the Morris Heights School, where he was a pupil, of his marriage. Several hours later, he was dismissed from the institution, and left without taking any of his belongings. He left for Washington this evening.

After talking with secretary of State Knox over the telephone, Principal French left to-night for Washington, there to confer with the attorney general before the train started, the former Miss Boler, accompanied by a girl companion, also boarded.

Principal French said that he would order the police to put the young woman out at Westley.

Had Pa's Consent

At Westley, Chief of Police Cornelius Branfield was assured by young Knox who also was on the train, having boarded it at Boston, that the girl Knox had expressed approval of his marriage and that he and his bride were speeding to receive their parents' blessing. Choking the officer then withdrew.

Paris, March 7.—By a little act which has just come to light Prime Minister Briand has greatly enhanced his personal popularity. He started life in the humblest circumstances, earning a bare living as a clerk. Now that he has risen to the second citizenship of the republic, he likes to enjoy life and is more seen in restaurants and places of entertainment than ever was any of his predecessors in office.

The other evening he was about to enter his automobile in company with a lady, with whom he had been dining in a restaurant in the Rue Royale when he overheard two onlookers dressed in workmen's clothes saying jokingly to one another: "I wonder if he has forgotten when he used to drink wine with us?"

Turning, M. Briand recognized in the shabbily dressed men two former friends, and said: "No, I have not; nor have I forgotten you. To prove it, let us now go off together to our old haunt."

So saying, he gave his chauffeur orders to bring his car, and he and his friends walked off with his erstwhile acquaintances.

A few moments later the manager of a cabaret near the Rue St. Honore was surprised to see the Premier of France in elegant evening dress enter his establishment with two typical Parisian laborers, with whom he had three drinks before bidding them good-by.

thoroughly gone over in the make-up of the new cash awards. In conference with a delegation from the Local Council of Women new prizes were not only made larger but the scope of work was widened most materially.
