

OTTAWA LETTER.

Lord Minto's Appointment as Governor General for Another Year.

The Most Bitter Pill the Laurier Government Has Recently Been Compelled to Swallow.

How Jim Sutherland's Services in Office Made Things Easy for Him. Helplessness of the Government to Grapple with the Question of Transportation.

(Special Cor. of the Sun.)

OTTAWA, May 28.—The news that Lord Minto has been re-appointed as Governor General for another year has been the bitterest pill the Laurier administration has been forced to swallow for some time. It is a deep wound to the government, and it is a blow to the public confidence in the government.

Lord Minto earned the enmity of the liberal leaders when in October, 1899, he pointed out to the House of Commons that the duty of the government was to send a contingent to South Africa.

Lord Minto in serving his country did not do so in a spirit of self-interest. He was a man of high character and high ability, and he was a man of high standing in the eyes of the people.

The news of the extension of the Governor-General's term caused great excitement among the rank and file of the liberal party.

The appointment of Lord Minto for a further term, apart from the character of the government, is an important one. It is well known that the Governor-General has always been in close touch with the Hon. Joseph Chamberlain, whose views have been strongly advocated by Lord Minto.

The appointment of Lord Minto for a further term, apart from the character of the government, is an important one. It is well known that the Governor-General has always been in close touch with the Hon. Joseph Chamberlain, whose views have been strongly advocated by Lord Minto.

the home stretch, carrying his estimates, at a lively rate. The new money of public works has had a hard time of it, explaining away the big figures of his term, but it was his business to do so, and he has done so with a high degree of skill.

A return made in connection with the Sorel improvements shows that the government has been a bubble from the inception. The first vote for the Sorel improvements was made in the year 1897, and it was then that the Sorel improvements were first undertaken.

The arrangement under which the Sorel improvements were undertaken was a very liberal one. It was a very liberal one, and it was a very liberal one, and it was a very liberal one.

When the same question was up before the House last session, Sir Wilfrid Laurier was asked for an expression of opinion as to the necessity of the Sorel improvements.

The Premier made this announcement only twelve months ago, and Honorable James Sutherland was invited to defend the work on the same ground.

In this matter we have a splendid example of the helplessness of the government to grapple with a question of transportation.

There is a movement on foot among the Sorel boatmen and others in the country market. The market is closed on Saturdays during June, July and August at one o'clock and kept open on Friday evenings.

PARLIAMENT.

OTTAWA, May 28.—The common announcements were made on the transportation question.

Mr. Borden announced that the government would not announce its position in regard to this question. Although reference had been made to it in the speech from the throne eleven weeks ago, no information had been given to the country.

TRAFFIC AGAINST NATURAL DISADVANTAGES.

No all rail line running from the west to the Atlantic could compete with the Canadian Pacific which sent freight from the head of the great lakes by water to eastern points.

Mr. Charlton advocated railway extension under government auspices. He wanted to see Canadian ports developed. He favored Quebec for summer and winter ports, and Halifax for winter.

Mr. Oller urged that the greatest question before the public today was transportation. He was unalterably opposed to railway subsidization.

TEACHERS' EXCURSION.

The Pedagogues of York Co. Visited Currie's Mountain Last Week.

A Delightful Ball in the Steamer Aberdeen—A Pleasant and Profitable Holiday—Geological Notes of the Mountain.

(Fredericton Gleaner, 28rd.) The members of the York Co. Teachers' Institute could not have been favored with more delightful day for an excursion than that of yesterday afternoon, when about 150 members and their friends enjoyed a sail to Currie's Mountain on the steamer Aberdeen.

The excursion was a most successful one, and the day was spent in a most enjoyable manner. The weather was perfect, and the scenery was most beautiful.
