## THREE KILLED IN TORNADO

Grassy Lake, Alb., June 27.—At least three persons are dead and three seriously injured, and property damage done to the extent of about \$20,000 as the result of a tornado which swept over this town and district about six p.m. Friday. The dead are: Olex Olsen, a farmer, who lived one mile northwest of the town; Mrs. Olsen and her ten year old daughter Florence. Three other children of the same family are in the hospital. Their house was lifted from its foundation and smashed to kindling wood. Buildings were contents exposed and roofed and the contents of the buildings were blown from the track, blocking the line.

## MARCONI JOINS ITALIAN FLYING CORPS

Rome, via Paris, June 27.—Pugliese Marconi, of wireless telegraph fame, today began his duties as a lieutenant of aviation in the Italian army. The inventor received an enthusiastic reception at the barracks. When introduced to his brother officers by Colonel Morris, Lieut. Marconi said: "I am convinced that we shall work splendidly together for the protection of country and King."

## FEARS ATTEMPT WILL BE MADE TO RESCUE GERMAN DYNAMITER

Windsor, Ont., June 27.—Governor John Harison of Essex county jail here has applied for a military guard for the prison fearing that an attempt may be made to rescue William Laffer, the Detroit German, who is locked up in connection with the dynamiting outrages here and at Walkerville. The governor is of the opinion that the accomplices named by Laffer in his confession will stop at nothing, and consider an attempt to get the prisoner out of the way by killing him as by no means improbable. A military guard for the registrars has also been applied for.

Following instructions from the Department, no action is to be taken with a view to securing the other two Detroiters as their accomplices.

## DESTROY CANAL UNDER HEAVY FIRE OF ENEMY

Italian Army's Advance Along Isonzo Frontier Continues—Austrian Plan to Invade Italy via Valley of the River Po.

Rome, June 28.—An official statement issued tonight follows: "On the Tyrol-Trentino frontier long-range artillery duels continued at several points."

"In Carniola last night the usual vain attack on Friesdorf was repeated. West of the Monte Croce Pass our troops occupied the summit of Zeilenshofel."

"Along the Isonzo frontier our progress beyond the river is developing slowly, but without pause."

To hasten the subsidence of the flood originating along Lower Isonzo the destruction was ordered of the Montebello Canal at its mouth. The operation was conducted courageously by a detachment of engineers under a violent fire from the enemy.

"Storms on the afternoon of the 25th and the night of the 26th hindered the action of our troops, especially in the mountainous part of the theatre of war."

Invasion of Italy Through Valley of the River Po

Brescia, Italy, June 27.—Handbooks giving instructions on how to invade Italy through the Valley of the River Po, thus reaching Verona, Mantua and Ferrara, cutting off Venice from the remainder of the Kingdom, have been found in the possession of Austrian officers who have been made prisoners. These booklets apparently were compiled by an officer of the Austrian general staff.

Rome, June 27, via Paris.—Reinforcements received from the eastern and western fronts have brought the Austrian armies operating against Italy up to the point of efficiency desired by the general staff, according to information obtained from the frontier.

The fortifications and defense works along the frontier now have been completed, and it is expected that operations at some points like the Lavarone and Folgaria plateaus, Malborghetto, Predil Pass, Tolmino and Gorizia will develop into siege warfare similar to that waged by Germany against the Belgian fortifications. On the remainder of the front the conflict is assuming the character of the struggle from trench to trench which is raging on the Franco-Belgian front.

## FACTORIES IN ITALY WORKING DAY AND NIGHT

Running Overtime to Turn Out Enough War Munitions to Supply Army for Three Years War.

Rome, June 27, via Paris.—Italian military authorities today asserted that all the arms, ammunition and explosive factories in the kingdom are working day and night to secure not only what will be necessary for the war this summer and the coming autumn, but for the possibility of a continuance of the conflict for three years, including the supplies of arms which it will be necessary to replace.

## QUARTER MILLION DOLLAR LOSS BY FLOODS IN CALGARY

Calgary, June 27.—The fierce storms and floods of Saturday at Calgary did three quarters of a million dollars damage in the city. The Bow and Elbow rivers, which rose eight feet in a few hours, carrying away two bridges, flooding scores of houses, carrying two men to death, cutting off natural gas supply of the city, and causing washouts on the C. P. R. south and west of the city, are subsiding just as rapidly, and will be back at normal tomorrow unless further storms develop.

## Attempt to Launch New Revolution in Mexico Frustrated by U. S. Gov't

MEXICAN CHIEFS PLOTTING REVOLUTION IN NEW YORK

THE "STRONG MEN OF MEXICO," NOW IN NEW YORK

Noted Mexican Leaders who Have Been in United States for the Purpose of Promoting a New Revolution in Mexico. Some of Them Have Been Detained by the U. S. Authorities and Their Plans Frustrated.

Washington, June 27.—The United States government has frustrated, for the present, an attempt on the part of General Huerta and his associates to launch from American territory a new revolutionary movement in Mexico. Detention of the former Mexican dictator, with General Orozco and others, at El Paso today followed nearly three months of espionage by government agents. The Department of Justice had instructed United States Attorney Camp, of the western district of Texas, to take into custody these men, who, seemingly, were engaged in violations of American neutrality laws, which forbid the recruiting of men, the purchase of supplies and the organizing of a military expedition on the soil of the United States, to be used in operations against a people with whom this country is at peace.

The developments in Mexican quarters here, both the Carranza and Villa agencies issuing statements, rejoicing that the United States had checked an effort on the part of the so-called reactionary interests to regain control of Mexico.

Huerta Held at El Paso

El Paso, Texas, June 27.—General Victoriano Huerta, arrived here today and he is virtually held prisoner, pending instructions from Washington.

Gen. Huerta reached Newman, New Mexico, this morning, and anticipating his arrival Federal representatives were on hand to meet him, to see that there was no violation of Federal laws. Colonel Morgan, with a squad of twenty-five cavalry, also was at the station in Newman, and, escorted by the troops, Gen. Huerta and party were taken to El Paso.

Later Gen. Huerta and Pascual Orozco, who had met Gen. Huerta at Newman, and other members of the Mexican party, were taken to Fort Bliss, where they will be held temporarily by the military upon authorization of agents of the Department of Justice.

## OFFICIAL REPORTS

GERMANY

Berlin, June 26.—Via Paris.—The official communication issued today by the German army headquarters staff was as follows:

"In the western theatre:

"Close range fighting which had proceeded unintermittently for some days around the portion of our positions which remained in the hands of the enemy north of Souchez, and half way between Souchez and Neuville, has come to an end. During the night the last of the French soldiers were driven out of our trenches. So recently as yesterday evening the enemy received strong reinforcements at this point, as they also did on both sides of the Lorret hills. As they advanced to attack south of Souchez, they were driven off."

"In the Champagne, near Souain, we blew up a portion of an enemy position. East of Perthes the French accidentally destroyed by a mine some of their own defensive works. On both sides of Detranche road the enemy brought up troops four deep over a front of three kilometres, ready for an attack. They everywhere broke up under our fire. Where the enemy pressed forward into our trenches he was beaten off with heavy losses, and driven back in the fray which followed. In an attack made by us afterwards we captured an enemy advance position east of Detranche. In this district the enemy still holds a small part of a trench which he captured on June 20."

"Attacks made by advance patrols of the enemy near Leintrey, east of Luneville, failed."

"Since the commencement of the great struggle near Arras our airmen have been struggling with those of the enemy for mastery in the air. This struggle has caused losses on both sides, but ours have not been in vain. For some days we apparently have had the upper hand."

"In the eastern theatre:

"The French infantryman left New York for France at the outbreak of the war and has now returned with an honorable discharge from the French military service, due to illness contracted in the trenches before Verdun, where he served nine months. In relating his grim experiences on the firing line, most of the time less than a hundred yards from the German first line of trenches, he said he was twice buried alive—two shells of heavy caliber exploded in the trench where he was on duty. On several occasions he was in closest contact with the invaders. He spoke of being buried alive as if it were the most ordinary occurrence in the life of a French soldier."

"The register will be taken on the same lines as the census by the registrar-general, and when it is completed the central and local bureaux will possess complete lists of men available for the army or for war work. Such as volunteers will be called as they are required, while should compulsion be required then the lists will be already compiled."

"Many advocate a list including all available women workers. Already the number of women engaged in making ammunition, or in other forms of industry paying high wages, is so great that domestic servants are becoming scarce every day, and many even of the wealthiest women are doing their own housework wholly or in part."

## GERMAN PRESS SUSPICIOUS

View Removal of Prisoners by French to North Africa as Indication of Harsh Treatment to be Meted Out.

Berlin, June 26.—Included in the news items given out today by the Overseas News Agency, are the following:

"The French government, for sanitary reasons, has removed from West Africa to North Africa, the German civil prisoners who have been in custody in Dahomey. German newspapers express the opinion that this move is a result of the recent announcement of retaliatory measures on French prisoners."

"The Krieg Zeitung, in an editorial article, expresses the desire to continue negotiations with the United States, with the idea of reaching an understanding in the matter of submarine boats which shall not endanger the vital interests of Germany's maritime warfare, either at the present or in the future."

The following is a very interesting account of the extremely interesting interview by the Right Hon. Winston Churchill at the meeting of the Dardanelles Committee on June 24th, 1915. Mr. Churchill said: "I thought to take an opportunity of my constituency, in events which have recently and also of the fact that more than a year has passed since I have not troubled you with personal (hear, hear)—or embarrassing, or to induce in representations. (Hear, hear) time a man must do his best or goes. (Hear, hear) not say a word here, but which I cannot have a good bearing on that matters, on the only about, and the only thing to think about, namely, the victorious war upon (Cheer, hear) sent to in 1911 after the Azad, nearly brought us into contact with the express of me by the Prime Minister in a state of instant readiness for war in case of a period of violence, then, for nearly four years, borne the heavy burden of my patent, 'responsibility' and Parliament for all the Admiralty," and was responsible, I have been in this real sense, that I blame for everything that wrong. (Laughter and cheer) Those years have been most important period in history—a period of war, a period of vigilance, a period of preparation, and a period of action under conditions of which any experience, I have—(prolonged cheer)—lives of the Admiralty with utmost detail the part I have taken in the great transaction taken place, it is to my defence.
