**Its Government Announces Parliament of Two Chambers, an Executive and Governor General.**

Barcelona, Spain, Thursday, Jan. 23.—Details were announced here today of the statutes for the autonomous state of Catalonia, comprising the present Spanish provinces of Barcelona, Tarragona, Lida and Gerona. The new Catalan Government will be composed of a Parliament of two chambers and executive and a governor general.

Catalonia will no longer recognize the supreme authority of Madrid in matters of administration affecting Catalonia alone. The new government proposes to assume the direct control of mines, water ways, taxation and education.

The Barcelona despatch does not say who made the announcement of new statutes for Catalonia, but it probably was made by the Catalan party, which, for years, has been struggling for independence in local matters. In the past few months the situation has been acute and there has been much unrest in Catalonia. The Spanish Government, at the present time, is considering the question of autonomy for Catalonia.
