

Red Dwarf
THE INK PENCIL

MADE
IN
ENGLAND

*The Only
Satisfactory
Fluid Pencil*

This is a fountain pencil that writes like a lead pencil. It answers every purpose, writes more smoothly and is much more convenient than a fountain pen. The Red Dwarf Ink Pencil is a time-saver for all writers, men, women or children, business, profession-

al or travelling. Can be carried in any pocket, in any position, up-side down, if you wish, without slightest danger of leaking. Holds a large supply of ink preserved in excellent condition for an indefinite period, used with ordinary thin ink. Never soils the fingers or clothes. The feeder of the Red Dwarf Ink Pencil is made of platinum, the writing point of iridium (the hardest known metal). The point, being round, never sticks in the paper, and makes perfectly legible carbon copies. Just the thing for Salesmen.

The Red Dwarf Ink Pencil is guaranteed in material, construction and operation. Made in two sizes: No. 1 (4½ in. long) and No. 2 (5½ in. long). The merits of the Red Dwarf Ink Pencil, backed by our advertising to the public, make the "Red Dwarf" the fastest selling pen on the market.

EITHER SIZE \$2.00 RETAIL

INK STOCK

HOW IS IT, GETTING LOW?

Ought to have stocked up before the cold weather, but we know how hard it is to keep

CARTER'S WRITING FLUID

Sells on sight and is the kind that brings in re-orders. Best to handle, for it pushes itself. Once sold and you have a satisfied customer.
