Ottawa, March 3rd, 1910.

Sir,

The Department is in receipt of Mr. Inspector Chisholm's report on the Sturgeon Lake Day School, in which he states that the building will require to be willowed and plastered outside and lathed and plastered inside, and the woodwork painted; the closet at present in use requires to be repaired and a new one will have to be built. The porch can be made warm by means of another ply of lumber with building paper under it and would then serve as a hat and cloak room.

The Department would be glad to have from you an estimate of the cost of this work at your earliest convenience.

Blinds are also required for the windows and these you may supply.

I may add that it has been decided to dispense with Mr. Crain's services at this school and to secure, if possible, a qualified and efficient teacher to charge after the summer holidays. Kindly state what accommodation there is for either a married or single teacher.

Your obedient servant,

Secretary.
