

D 65574

WORLD TRADE

Canada first nation to welcome U. S.  
proposals for charter of trade and  
employment.

Outstanding officials engaged in  
preparatory discussions.

Government intends to push to utmost  
for success of Geneva Conference  
in March.

Welcome the conversion of Tory and  
Socialist parties to support of  
liberation of trade, long espoused  
exclusively by Liberals -  
Hope conversion may be permanent.
