money, or other school property, and to deposit such security with the township council for safe keeping.

47. The provisions of the Act passed in the thirty second year of Her Majesty's reign, chaptered forty-four, intitled "An Act to amend the Act respecting Common Schools in Upper Canada," are, except the ninth and tenth sections thereof, hereby declared to apply to the city of Toronto alone.

48. All the provisions of the Grammar and Common School Act which are inconsistent with this Act are hereby repealed.

Home's Patent AIR HEATER.

PATENTED MAY 1, 1871.

SAVE ONE-HALF THE FUEL CONSUMED IN THE OLD way, by using HOME'S PATENT AIR HEATER. By this Heater warm air can be conveyed to any room in the house, thus dispensing with the use of an extra stove and saving one-half the wood. Read the following from gentlemen in Almonte:

ALMONTE, Oct. 24, 1871.

Having used HOME'S PATENT AIR HEATER, I can confidently recommend it to the public. I consider that it effects a saving of nearly one-half the wood.

BUDLEY ACKLAND.

By the use of HOME'S PATENT AIR HEATER my house is warmed in half the time and with half the wood that was consumed with a stove alone.

JOHN O'REILLY.

By using HOME'S AIR HEATER, an upper room is warmed perfectly, thus dispensing with a stove. It is an invaluable article.

D. C. LOCHHEAD.

Having tested HOME'S PATENT AIR HEATER we can recommend it to the public as everything that it is represented to be.

HAYES & SMITH

I am now using one of HOME'S PATENT AIR HEATERS in my shop with pipe extending to the room above. I anticipate that the saving in labor and fuel will be very great, as the one fire by the aid of the Heater seems capable of warming the entire shop and dwelling. I have therefore every confidence in recommending it.

JAMES GREIG, Bookseller.

Every Heater warranted to give satisfaction.
ALMONTE, 1871.

JOHN HOME,
TINSMITH.

DENTISTRY.

**TEETH EXTRACTED WITHOUT PAIN BY THE USE OF
Pure Nitrous Oxide Gas.**

137 persons have successfully inhaled it in Almonte alone, since Dr. Beacock first introduced it there, 18 months ago. And after having used it in nearly 5000 cases during the last 5 years he has yet to see the first case of sickness even from its use. Over half a million persons have used the above beautiful anesthetic in America since 1852 and not a **Single Case of Death** on record. All the best physicians of New York recommend its use.

D. V. Beacock, L. D.S., the well known Brockville Dentist, will be in Almonte, as usual, on the **First Tuesday** of every month, for 4 days only. Rooms in McManagie's Hotel.
