**MORISON'S UNIVERSAL MEDICINE.**

**NOTICE.**  
THE subscribers, general Agents for Morison's Pills, have appointed WILLIAM WHITTAKER, Sub-Agent for the Upper Town, No. 27, St. John Street.

**LEGGE & Co.**  
That the public may be able to form some idea of Morison's Pills by their great consumption, the following calculation was made by Mr. WING, Clerk to the Stamp Office, Somerset House, in a period of six years, (part only of the time that Morison's Pills have been in use) that Morison's Pills have been delivered forth in medicine amounted to three million, nine hundred, and one thousand.

The object in placing the foregoing before the public is to deduce therefrom the following powerful argument in favour of Mr. Morison's system, and to which the public attention is directed, namely, that it was only by trying such that the truth of the system is made manifest, and that Morison's pills have been established. It is clear that all the medical men in England, &c. or the world, put together, have not tried a system of vegetable purgation to the extent and in manner prescribed by the HIGGINS. How, therefore, can they (much less individually) know any thing about the extent of its properties.

**PROSPECTUS**  
OF  
**THE LITERARY GARLAND,**  
A Monthly Magazine,  
TO BE DEVOTED TO LITERATURE AND SCIENCE.

WHILE so many publications of a political character find a liberal support in public indulgence and generosity, it surely will not be deemed presumptuous to hope that one of a purely literary nature may find a corresponding degree of favor and encouragement. In doing, as it would, to form a species of relaxation from the tedious of political speculation, and to collect, in a trifling degree, some of the hours which might otherwise be burthened with ennui.

In this hope, it is proposed, by an Amateur in Literary Horticulture, to devote a few leisure hours to the cultivation of the nearly unbroken ground of Canadian Literature, fearing not that a field so fair and promising will fail to yield an abundant return for the labor expended in reclaiming it. He does not scruple to confess, that the flowers with which the literary garden will, for a time, be decked, will be principally culled and borrowed from the nurseries of more productive climes; but, as such only will be selected as can be selected, as can be readily acquired, there is little danger but that they will expand as fully as in their native soil, while, by implanting in native hearts the germ of honorable emulation, they may assist in fostering into strength a growth of native flowers as rich and luxuriant as the most beautiful of their foreign rivals.

With this view, it is proposed to issue, monthly, a Magazine corresponding to the above title, containing the usual variety of poetry and prose, of tales and sketches, historical and fictitious, with occasionally a few historical or philosophical treatises, which, by blending instruction with amusement, will render the Magazine a fit companion for the study as well as the drawing-room. For the latter of which, however, it is designed more particularly designed. The work will consist of forty-eight royal octavo pages, and will be printed on good paper, with beautiful new type, and in as fair a style as it is possible to attain. The price is fixed at Three Dollars a year to city subscribers—postage being, as a matter of course, added to those who order by mail orders from the country. The first number will be issued as soon as a sufficient number of subscribers have been obtained to guarantee a reimbursement of the funds expended in the mechanical part of the undertaking.

No payments will be expected before the appearance of the sixth number, before which period and the publication of the twelfth, it is confidently anticipated that all subscriptions will be cheerfully paid. Should the hope of the publisher of the success of the undertaking be realized, it is intended to enlarge and beautify the work with Music, Engravings, &c., so as to render it unsurpassed by any American publication.

The Magazine will be printed and published by the undersigned, at Montreal, by whom all letters and orders, postage paid, will be attended to with gratitude and punctuality.

**PROSPECTUS**  
**QUEBEC & MEGANTIC LAND COMPANY.**  
CAPITAL £30,000.  
In Shares of Fifty Pounds each.  
PAYABLE IN TEN YEARLY INSTALLMENTS OF FROM £4 TO £7 LBS. EACH.

DURING the administration of Lord Aylmer, who at all times was most anxious for the improvement of the Eastern Townships, a purchase was made of an unsurveyed Tract round Lake St. Francis in the County of Megantic, on similar terms as those granted by the House of Government to the British American Land Company.  
The purchase embraces a tract of 220,000 acres of Land of good quality, lying contiguous to the unsurveyed Block of the British North American Land Company, within 50 miles of Quebec.

The projectors of the Company intended throwing open the Stock on receiving the confirmation of the Secretary of State for the Colonial Department to the sale thus made by Lord Aylmer, taking it for granted the same facilities would be given to Company, consisting of individual either natives or residents in Canada, as had been conceded to the British American Land Company, the greater part of the Stockholders of which reside in England. No such confirmation has as yet been given, the subject being referred to the late Commission, the Secretary of which in his last letter stated a report had been sent to England, but since that period, December, 1836, nothing has been done.

It is proposed to divide the Stock into 600 shares of £50 each, payable in annual instalments, varying from £4 to £7 1/2 s.

It will be well to say a few words in favour of the project and to state at once that there will be no exclusion whatever of any class of Her Majesty's subjects, in the settlement of the tract, industry and sobriety being the requisites of those whom the Company will be anxious to encourage.  
Megantic has been long neglected, and unless some stimulus is given, by the prospects of extensive improvement, it is to be feared the well settled country on the Chaudiere and the thriving Townships of Leeds, Inverness, H. Hux, &c. will be much retarded.

To every resident in Quebec the prospect of settling 220,000 Acres within a day's journey of the city cannot fail to be interesting, for not only will all the necessaries of life be abundant but all property will be enhanced in value, for sooner or later this must be the outlet of the Townships.

The Company will be carried on most economically, as only two Agents and one Surveyor will be required, one of whom will be the present Company's Agent, for every acre and settler thrown in, near their unsurveyed tract, will enhance its value, and the projectors of the Quebec and Megantic Land Company feel assured that if it goes into operation it will add new life to their operations, as the Stockholders in England will think more favorably of the investment they have made in this project when they see that residents are desirous of making similar ones precisely in the same tract of country.  
Quebec, 23rd April, 1838.

**FOUR THOUSAND DOLLARS REWARD.**
