any special group of banks, for 27 of the banks out of the 35 in the return had each an increase in these loans which shows how general were the conditions of business which caused the unprecedented demand for trade discounts in April last.

The call and short loans in Canada were reduced last month from \$48,404,884 to \$46,661,402, a decrease of \$1,743,482, and those outside Canada from \$39,803,621 to \$38,267,156, the total decrease in these loans in April having been \$3,279,947. It was necessary for the banks to reduce these loans when they were under such unusual pressure to provide accommodation to traders, who, at such times, have the first call.

The Canadian deposits in April, of both classes increased to extent of \$3.856,350, as against an increase in same month last year, of \$7,175,823, a considerable portion of the surplus earnings usually deposited having been diverted to other purposes, the demand for money for the capital of new banks and other new enterprises, and for additional capital having been quite heavy.

AN ELECTRIC RAILWAY has been pronounced by a Court in Glasgow "not a railway," in a legal point of view. The decision is absurd, what do trolley cars run upon but a railway?
