

TABLES

"What made him do that?" we asked each other. We all knew our neighbor's opinion on household expenditures. He is not a bad sort of a man, this Mr. Jones, but he has his own ideas on housekeeping. He thinks

that the housekeeper's task is an all-the-year holiday, and while all the rest of us had washing machines, wringers, and a few of us were getting vacuum cleaners, he continued to let his wife break her back over the old-time scrubbing board and dry the clothes by the old time twisting method.

"James always labored under the idea that he carried all of the water that was needed for washing when he filled the small tank at one end of the stove," remarked Mrs. Jones. "One of the least of his troubles on that memorable morning was to fill that tank three or four times. He never realized before how far away the well was or how much pumping it took to keep the washing going."

"There is more coming too," she confided. "James hasn't forgotten the trouble of carrying the water and he's talking of running a pipe from the tank in the barn right into the house and of installing a complete water system."

Wouldn't it be a fine thing if more of our farmers would take a little vacation at the wash tub!

A black and white line drawing of a woman in traditional attire milking a cow. The woman is standing on the right, leaning over the cow, which is on the left. She is holding a bucket to collect the milk. The cow has a spotted pattern. The drawing is simple and stylized, typical of a children's book illustration.

Ask your Feedman about it or write to us for full particulars. 40

SPRAMOTOR

The **Spramotor** is a tested and proven machine that has won over a hundred First Awards and Gold Medals in competition with the world. It is used by the Canadian Government and by both State and Federal Governments in the United States. It will be found in India (where we ship 300 lots), in Belgium, in the West Indies, in Finland and throughout the length and breadth of this continent.

Our aim is to make every **Spramotor** owner a booster of our machine. It is not enough for us to be convinced of the superiority of **Spramotors**. We want every buyer to feel that he has the best spraying outfit made. To ensure this result, we manufacture in our own plant every piece and part that goes into our machines, down to the smallest joint, coupling and nozzle. Every important part gets a thorough testing before being put into place and then we test each machine as it is completed.

Investigate the features of **Spramotor** that you can't find on any other machine—there are twenty of them, each rigidly protected by patents. You should know all about these facts.

FREE Write us giving some idea of your spraying requirements and we will send you by return mail a copy of our valuable treatise on Crop diseases (fully illustrated) without charge, also full information of a Spramotor that will do your work best, at lowest possible cost. Write us to-day!

HEARD SPRAMOTOR CO., 1780 King St., LONDON, CAN.

Every modern poultry raiser knows that a good egg yield cannot be obtained without Animal Food. Good Meat and Bone, fed in proper proportion, will give you the investment you can make in winter feeding.

It is also the most expensive part of the rations.

When it comes to concentrated Poultry foods, Black Victor—fresh, healthy meat and clean bone, with all the waste and moisture removed—will prove the most economical and profitable.

Black Victor Meat Scrap at your dealers, or sent, all carriage charges prepaid for \$4.00 per ton.

Write for complete price-list before the heat egg season is past.
